Article 514-2

The market rules shall determine the categories of orders that members can execute.

They shall provide that market members must time-stamp orders as soon as they are issued on a regulated market and, in cases where the market members receive orders, that they also must time-stamp them as soon as they are received.

The market rules shall specify the principles of priority that apply when orders at the same price and on the same side of the market (buy or sell) are presented at the same time on the market.
