The Autorité des Marchés Financiers (AMF) is warning the public against the entity and the website Magaffairs

Following reports from retail investors, the regulator issues a warning to the public against the activities of Magaffairs, which proposes via its website <https://magaffairs.com> investment in various mutual funds and alternative investment funds without authorisation.

The entity Magaffairs proposes to individual investors, through detailed marketing documents, investments in various mutual funds, that are not authorised for marketing in France.

The AMF wishes to inform investors that Magaffairs does not have the legal statutes authorising it to offer investors in France subscription to mutual funds units.

The AMF recommends that investors do not respond to solicitations from persons attached to this entity and do not pass on the information to third parties in any form whatsoever.

Lastly, the AMF reminds individual investors to follow these safety guidelines before making any investment:

- no advertising materials should make you overlook the fact that high returns always involve high risk;

- learn as much as you can about the company or intermediary trying to sell you a product (authorization/certification, company history, location of head offices, etc.);
- only invest in a product you understand;
- ask yourself how, and by whom, the purchase price or selling price of the advertised product is set, and find out the precise terms and timeline for selling the product, especially in cases where the product invests in an asset class with low liquidity.
