The Autorité des Marchés Financiers (AMF) updates the list of unauthorised websites offering binary options trading

The AMF is publishing a new updated list of websites offering binary options trading, for which no authorised investment services provider could be clearly identified. Information in this press release is no longer up-to-date.

The Autorité des Marchés Financiers (AMF) is once again warning retail investors against aggressive internet advertising campaigns for binary option trading, announcing very high yields in very short periods of time.

Here is the new list which cancels and supersedes that published on 13 January 2014.
NB: these websites may change very quickly and this list is not intended to be exhaustive.
