## MiFID II Reporting : a smooth roll-out

At the close of the first day's trading under MiFID II rules, investment firms had until midnight on January 4 to declare their trade reports to the AMF.

In this context, the AMF's new ICY platform received and processed over 1 million trades from around 50 firms (both investment firms and ARMs).

The volumes processed demonstrate the market place's overall good state of preparedness, even if further efforts must be made by some firms.

Inter-regulator data exchange has also commenced. The AMF thus sent ESMA declarations for 22 EU member states.

The AMF is proud to announce the smooth roll-out of the ICY platform.

### *About the AMF*

*The AMF is an independent public authority responsible for ensuring that savings invested in financial products are protected, providing investors with adequate information and supervising the orderly operation of markets. Visit our website [www.amf-france.org](http://www.amf-france.org).*
