29 October 2018

AMF Annual Report 2017

The AMF works daily to carry out the various tasks entrusted to it by lawmakers, namely to protect savings invested in financial products, monitor the information provided to investors and ensure the orderly operation of the financial markets. Over the course of 2017, the AMF's activities in France and abroad were driven by four key convictions: promote the further integration of European supervision, facilitate the implementation of a secure framework for the markets and asset management, support innovation and protect the general public from offers of highly risky financial products.
