## AMF Household Savings Newsletter - No. 31 - December 2018

The letter is entirely dedicated to the results of the 2nd edition of the AMF saving and investment barometer. This annual survey asks a sample of 1 200 French on their attitudes and opinions about savings, particularly in respect of equity investments. The letter particularly emphasizes the intentions to subscribe for equity investments, which are up slightly from 2017. This increase in appetite for stocks is more particularly observed at the age of 35.
