Guide to the organisation of the risk management system within asset management companies

The AMF recommendation DOC-2014-06 details the expectations of the AMF for the operation and organisation of compliance, risk management, internal monitoring and periodic control functions within asset management companies (AMCs). This guide specifies, notably, how different control functions should be structured and is aimed at AMCs that manage UCITS or AIFs and/or that provide a discretionary portfolio management service. This document has not been updated for the laws and regulations that transpose MiFID II and legally separate investment firms from asset management companies. The update will take place in the near future.
