Coal policies of Paris financial centre participants (banks, insurers, asset managers): first joint ACPR/AMF monitoring and evaluation report

As part of their work on the monitoring and evaluation of the climate commitments of French financial institutions, announced in July 2019, the Autorité de contrôle prudentiel et de résolution (ACPR) and the Autorité des marchés financiers (AMF) are publishing the conclusions of the analyses carried out specifically on the "coal" commitments of French banks, insurance companies and asset management companies, as well as a number of recommendations. A more comprehensive report will be published at the end of 2020.
