## Financial and Auditing profiles

**The AMF approves financial transactions and monitors throughout the year the financial disclosures made by companies listed on a regulated market. It monitors investment services providers and authorises asset management companies to conduct their business. It also protects savings invested in collective investment schemes (open-ended investment companies, unit trusts, employee savings plan investment funds, retail private equity investment funds) by regulating their formation and marketing operations.**

Our tasks:

- Supporting and registering IPOs and other capital increases or public offerings
- Processing applications for authorisation from portfolio management companies
- Taking part in work to review issuers' financial statements
- Developing accounting policy in conjunction with national and international regulators and standard setters
- Representing the AMF on a daily basis in dealings with various high-level contacts (issuers' financial and legal departments, fund managers, investment banks, law firms, audit firms).
