AMF's report on greenhouse gas emissions for 2020 (in French only)

The AMF has carried out the assessment of its greenhouse gas emissions for the years 2019 and 2020. 2,300 tCO₂e have been emitted in 2020, down 21% compared to 2019 due to the health situation. This measure will be completed by an action plan and the definition of GHG emission reduction targets.
