Do I have to pay a fixed fee for one or more British AIFs?

[Print](#)

Due to Brexit and the loss of their European passports, British AIFs are no longer authorised for marketing in France since 31 December 2020, so they are not concerned by the fixed annual fee.

However, any fees payable for the authorisation of British AIFs in preceding years which might not yet have been paid to the AMF must still be paid.
