AMF Discussion Paper on Decentralised Finance (DeFi)

The AMF shares its preliminary thinking on the regulatory issues raised by the new financial activities on crypto-assets based on automated, decentralised and disintermediated protocols that make up the emerging DeFi ecosystem. To this end, the AMF has published a discussion paper that raises a number of points for regulatory debate.

Stakeholders are invited to contribute to the discussion - in the format of their choice - by 30 September 2023 at innovation@amf-france.org URL = [\[mailto:innovation@amf-france.org\]](mailto:innovation@amf-france.org)
