Summary of Responses to the Public Consultation of the ACPR-AMF Working Group on Smart Contract Certification - A Proposal for Smart Contract Certification: Overview, Technical Considerations and Regulatory Discussion Points

The Autorité de contrôle prudentiel et de résolution (ACPR) and the Autorité des Marchés Financiers (AMF) have published the summary of responses to the public consultation conducted by the Working Group on the certification of smart contracts in decentralised finance (DeFi). This Working Group, composed of representatives from the crypto-asset sector, technical experts, and relevant authorities, carried out this work throughout 2024 and produced a report, subject to a period of public consultation, for which the summary of responses is now being published.
