

GENERAL REGULATION OF THE AUTORITÉ DES MARCHÉS FINANCIERS

BOOK I - THE AUTORITÉ DES MARCHÉS FINANCIERS

TITLE I - FUNCTIONING OF THE AUTORITÉ DES MARCHÉS FINANCIERS: ETHICAL RULES AND REMUNERATION ARRANGEMENTS FOR MEMBERS AND EXPERTS

CHAPTER 1 - ETHICAL RULES FOR MEMBERS OF THE AUTORITÉ DES MARCHÉS FINANCIERS

Article 111-1

When they take office, members of the Autorité des Marchés Financiers ("AMF") shall inform the AMF chairman of:

1° any functions in an economic or financial activity that they have held during the previous two years or that they continue to hold;

2° any executive office in a body corporate that they have held during the previous two years or that they continue to hold.

They shall also provide the chairman with a list of interests that they have held during the previous two years or that they continue to hold, in particular any financial instruments admitted to trading on a regulated market or a multilateral trading facility and any greenhouse gas emission allowances, as defined in Article L. 229-15 of the Environmental Code and other units mentioned in Chapter IX of Title II of Book II of the said code (hereinafter "emission allowances") admitted to trading on a regulated market.

Article 111-2

When a member of the AMF subsequently takes up a new function in an economic or financial activity or a new executive office in a body corporate, he shall inform the AMF chairman without delay.

Before 15 February each year, members shall send the chairman a list of their interests as at 31 December of the previous year.

Article 111-3

Having regard to members of the Enforcement Committee, the chairman of the AMF shall forward the information provided for in the two above articles to the chairman of that Committee.

Article 111-4

At the written request of an AMF member, the AMF chairman shall inform him of any function or executive office held by another member.

Article 111-5

Where an AMF member notes that, under Article L. 621-4 of the Monetary and Financial Code, he is unable to discuss one or more points on the agenda of the Board, of a Specialised Committee, or of the Enforcement Committee or one of its divisions, he shall duly inform the chairman of the body in question.

Before appointing a member of the Enforcement Committee as a rapporteur, the chairman of this Committee must ensure that such member is not likely to have a conflict of interest, having regard to the persons involved in the proceeding at hand.

Article 111-5-1

Where a member of the AMF notes that, in view of the agenda of the Board, a Specialised Committee, the Enforcement Committee or one of its sections, he is unable to take part in the proceedings because of the functions, positions and interests held by his spouse, civil partner, unmarried consort or relatives by blood or marriage, he shall so inform the chairman of the body concerned.

Article 111-6

Board members holding financial instruments admitted to trading on a regulated market or a multilateral trading facility or emission allowances admitted to trading on a regulated market must entrust them to an investment service provider under a discretionary management agreement.

However, members may continue to directly manage units or shares in UCITS as well as debt securities issued or guaranteed by the State.

They may also decide, upon taking up their post, to keep their portfolio as it is. In this case, they may not acquire new financial instruments otherwise than through a transaction carried out by an issuer whose financial instruments they already hold, and only by exercising the rights attaching to those instruments. They must then inform the chairman promptly that they hold new financial instruments. Where they intend to dispose of financial instruments, they must ascertain from the chairman that the AMF does not hold inside information about the issuer in question.

They may not acquire emission allowances admitted to trading on a regulated market. Where they intend to dispose of emission allowances admitted to trading on a regulated market, they must ascertain from the chairman that the AMF does not hold inside information about the emission allowances within the meaning of Articles 742-1 and 742-2.

The chairman informs the interested party whether the planned transaction can take place on the scheduled date.

Notwithstanding the above, Board members are entitled to manage any equities or any options to subscribe for or purchase shares or units in employee profit-sharing funds (FCPE) that they hold by virtue of a function or executive office in a company whose financial securities are admitted to trading on a regulated market or a multilateral trading facility. Before acquiring or disposing of such shares or units or exercising such options in accordance with the relevant rules set by the company they must ascertain from the chairman that the AMF does not hold inside information about the company in question. The chairman informs the interested party whether the planned transaction can take place on the scheduled date.

If, prior to his appointment, a Board member holds an interest in concert with other investors in a company whose financial securities are admitted to trading on a regulated market or a multilateral trading facility, he may keep his financial instruments while he is in office.

If he has to make exceptional disposals or purchases as a result of the strategy of such other investors, he must ascertain from the chairman that the AMF does not hold inside information about the company in question. The chairman informs the interested party whether the planned transaction can take place on the scheduled date.

The provisions herein apply to financial instrument and emission allowance accounts held in members' own names as well as to those upon which they are authorised to transact.

Article 111-7

The AMF chairman may carry out any checks he deems necessary to ensure that members of the AMF are in compliance with these provisions. To that end, members must waive banking secrecy, for the benefit of the chairman, with regard to all securities accounts in their name.

The chairman may seek the assistance of a person of his choosing to perform such checks.

If he deems that a member is in breach of an obligation under this Book, the chairman informs the interested party and asks him to submit his observations. If, in the light of those observations, the chairman still feels the breach to be patent, he informs the authority that appointed the member in question.

The role assigned to the chairman by the above articles shall be carried out by the oldest Board member for matters regarding the chairman.

Article 111-8

When dealing with a case involving a person whose financial securities are admitted to trading on a regulated market or a multilateral trading facility, members of the Enforcement Committee must refrain from trading for their own account in financial instruments issued by that person until such time as the Commission proceeding is complete.

When dealing with a case involving emission allowances admitted to trading on a regulated market or a multilateral trading facility, members of the Enforcement Committee must refrain from trading for their own account in such emission allowances until such time as the Committee's proceeding is complete.

Article 111-9

Members of the AMF shall take steps to ensure that the oral or written information transmitted to them in connection with their functions at the AMF remains strictly confidential.

CHAPTER 2 - ETHICAL RULES FOR EXPERTS APPOINTED TO CONSULTATIVE COMMITTEES**Article 112-1**

Experts appointed to consultative committees shall immediately inform the chairman of the AMF of:

- 1° any function they hold in an economic or financial activity;
- 2° any executive office they hold in a body corporate.

Where an expert subsequently takes up a new function in an economic or financial activity or a new executive office in a body corporate, he shall inform the chairman without delay.

Where an expert notes that he would have a conflict of interest if he took part in discussions on one or more points on the agenda of a consultative committee, he shall duly inform the chairman of that committee.

Experts shall take steps to ensure that the oral or written information transmitted to them in connection with their functions at the AMF remains strictly confidential.

CHAPTER 3 - EMOLUMENTS AND REMUNERATION**Article 113-1**

The Board shall appoint an Emoluments and Remuneration Committee composed of three of its members and charged with proposing to the Board:

- 1° the amount of the emoluments payable to AMF members;
- 2° an opinion concerning the remuneration envisaged by the AMF chairman for the Secretary General.

TITLE II - THE RULING PROCEDURE OF THE AUTORITÉ DES MARCHÉS FINANCIERS**CHAPTER 1 - REQUEST FOR RULING****Article 121-1**

When queried in writing ahead of a transaction about an interpretation of this General Regulation, the AMF issues an opinion in the form of a written ruling (*rescrit*). This opinion stipulates whether, in light of the elements submitted by the interested party, the transaction contravenes this General Regulation.

Article 121-2

All persons referred to in Article L. 621-7 of the Monetary and Financial Code who initiate a transaction are entitled to submit a request for a ruling to the AMF.

Article 121-3

A request for a ruling is made in good faith and applies to a specific transaction.

The request shall be made by a person party to the transaction. It shall be submitted by registered letter with return receipt and shall be clearly marked "Ruling Request" (*demande de rescrit*).

Article 121-4

The request shall specify the provisions in this General Regulation for which the interpretation is requested and shall set forth the relevant aspects of the planned transaction.

The request shall be accompanied by a separate document giving the names of the persons concerned by the transaction and, where appropriate, any other elements needed for the AMF's assessment. The AMF shall ensure the confidentiality of this document.

Article 121-5

The AMF will dismiss without examination any request that does not meet the conditions set out hereabove. The petitioner will be informed of such dismissal.

CHAPTER 2 - EXAMINATION OF THE REQUEST**Article 122-1**

The ruling is issued by the AMF within thirty working days of receipt of the request and is conveyed to the petitioner. If the request is imprecise or incomplete, the petitioner may be asked to provide supplemental information. In this case, the thirty-day deadline is suspended until the AMF has received that information.

Article 122-2

Where it is unable to assess the true nature of the transaction, or where it considers that the request has not been made in good faith, the AMF duly informs the petitioner, within the time period specified in Article 122-1, of its refusal to issue a ruling.

Article 122-3

A ruling is valid solely in respect of the petitioner.

Provided the petitioner complies with the ruling in good faith, the AMF shall not take any enforcement action or inform the judicial authorities as regards the aspects of the transaction addressed by the ruling.

CHAPTER 3 - PUBLICATION OF THE RULING**Article 123-1**

The ruling and the request are both published in full in the next edition of the AMF's monthly review and on its website.

At the petitioner's request or on its own initiative, however, the AMF may postpone publication for a period of no more than 180 days starting from day the ruling was issued. If the transaction has not been completed by that date, the time period can be extended until the end of the transaction.

TITLE III - CERTIFICATION OF STANDARD AGREEMENTS FOR TRANSACTIONS IN FINANCIAL INSTRUMENTS**Article 131-1**

Pursuant to Article L. 621-18-1 of the Monetary and Financial Code, the AMF can certify standard agreements for transactions in financial instruments, at the reasoned request of one or more investment services providers or a trade association of investment service providers. To that end, it ensures that the provisions of the standard agreement in question are consistent with this General Regulation.

CHAPTER 2 - INFORMING THE AMF ABOUT THE NET ASSET VALUES OF COLLECTIVE INVESTMENT SCHEMES

Article 142-1

The AMF must be informed of the net asset values of collective investment schemes if such values are calculated by the management company or open-ended investment company (SICAV) referred to in Point 7, Section II of the Article L. 621-9 of the Monetary and Financial Code that is responsible for such calculation.

CHAPTER 3 - SUPERVISION OF PERSONS REFERRED TO IN SECTION II OF ARTICLE L. 621-9 OF THE MONETARY AND FINANCIAL CODE

Article 143-1

To ensure that the market operates in an orderly manner and that the activity of the entities and persons referred to in Section II of Article L. 621-9 of the Monetary and Financial Code complies with the professional obligations arising from laws and regulations or from the professional rules it has approved, the AMF carries out off-site examinations of records and on-site inspections at the business premises of such entities or persons.

Article 143-2

The persons referred to in Section II of Article L. 621-9 of the Monetary and Financial Code shall supply on request all information, documents and supporting evidence, regardless of the storage medium, to the AMF for supervisory purposes.

To ensure the proper performance of its supervisory duties, the AMF may order any of the persons referred to in Section II of Article L. 621-9 of the Monetary and Financial Code to retain information, regardless of the storage medium. Such a measure is confirmed in writing, with details of its duration and the conditions in which it may be renewed.

Article 143-3

Where an on-site inspection is conducted, the Secretary General issues an inspection order to the persons he has placed in charge.

The inspection order indicates, inter alia, the name of the entity or body corporate to be inspected, the identity of the head inspector and the purpose of the inspection. The head inspector informs the person concerned of the names of the other participating staff members or investigators.

The persons responsible for the inspection inform the inspected entity or person of the type of information, documents and supporting evidence to be communicated. They can interview any person acting under the authority or on behalf of the person being inspected who may be in a position to provide information that they deem useful for their assignment. They can verify the information they receive by checking it against information received from third parties.

Persons subject to inspection shall cooperate diligently and honestly.

Article 143-4

Where the proper performance of an AMF inspection has been hindered, this fact is mentioned in the inspection report or in a special report setting out these difficulties.

Article 143-5

Post-inspection reports are transmitted to the inspected entity or body corporate. Transmittal does not take place, however, if the Board, alerted by the Chief Executive, observes that a report describes facts which are capable of being characterised as criminal and deems that such transmittal could interfere with legal proceedings. The entity or body corporate to which a report has been transmitted is requested to submit its observations to the Secretary General of the AMF within a specified period, which cannot be less than ten days. These observations are forwarded to the Board if it when it examines the report in accordance with Section I of Article L. 621-15 of the Monetary and Financial Code.

Article 143-6

Having due regard for the conclusions of an inspection report and for any observations that may be submitted, the inspected entity or body corporate is informed by registered letter with return receipt or by hand delivery against receipt of the measures it is required to put in place. The entity or body is requested to forward the report and the aforementioned letter to its board of directors, or executive board and supervisory board, or the equivalent decision-making body, as well as to the statutory auditors.

Where the inspected entity or person is affiliated with a central body, as per Article L. 511-30 of the Monetary and Financial Code, a copy of the report and the letter shall also be sent to that body.

Article 144-2

To ensure that investigations proceed smoothly, investigators may order the retention of information, regardless of the storage medium. Such a measure is confirmed in writing, with details of its duration and the conditions in which it may be renewed.

Article 144-2-1

Before the final investigation report is written up, a detailed letter relating the points of fact and of law noted by the investigators is submitted to the persons likely to be charged subsequently. These persons may submit written observations within a period of no more than one month. These observations are forwarded to the Board when it examines the investigation report in accordance with Section I of Article L. 621-15 of the Monetary and Financial Code.

Article 212-6

Persons or entities mentioned in Article 211-1, or any person or entity acting on their behalf, shall file a draft prospectus with AMF.

The documentation needed to scrutinise the dossier shall be submitted to the AMF when the draft prospectus is filed. The content of this documentation shall be specified in an AMF instruction.

Paragraph 2 - Prospectus content

Article 212-7

The prospectus shall contain all the information which is necessary, depending on the particular nature of the issuer and of the financial securities being offered to the public or for which admission to trading on a regulated market is sought, to enable investors to make an informed assessment of the assets and liabilities, financial position, profit and losses, and prospects of the issuer and of any guarantor of the financial securities being offered to the public or admitted to trading, as well as the rights attaching to such financial securities and the conditions in which the securities are issued.

This information shall be presented in an easily analysable and comprehensible form.

The prospectus shall be drawn up in accordance with one of the formats and modules in Articles 4 to 20 of Regulation (EC) 809/2004 of 29 April 2004 or one of the combinations provided for in Article 21 of the Regulation for the different categories of financial securities. The prospectus shall contain the information specified in Annexes I to XVII of the Regulation, depending on the type of issuer and the category of financial securities concerned. For the purposes of the Regulation, the AMF shall take into account the recommendations of the Committee of European Securities Regulators.

Article 212-8

I. - The prospectus shall include a summary note, except where the application for admission to trading on a regulated market concerns debt securities with a minimum denomination of EUR 50,000 or the foreign currency equivalent thereof.

II. - The summary note shall, in a brief manner and in non-technical language, convey the essential characteristics and main risks associated with the issuer, the guarantors, if any, and the financial securities being offered to the public or for which admission to trading on a regulated market is sought.

III. - The summary note shall also contain a warning that:

1° It should be read as an introduction to the prospectus;

2° Any decision to invest in the relevant financial securities should be based on consideration of the prospectus as a whole by the investor;

3° Where a claim relating to the information contained in a prospectus is brought before a court, the plaintiff investor might, under the national legislation of the Member States of the European Community or States party to the EEA agreement, have to bear the costs of translating the prospectus before the legal proceedings are initiated;

4° Civil liability attaches to the persons who presented the summary note, and any translation thereof, and who requested notification within the meaning of Article 212-41 only if the summary note is misleading, inaccurate or inconsistent when read with other parts of the prospectus.

Article 212-9

I. - The prospectus may be drawn up as a single document or as separate documents.

II. - A prospectus composed of separate documents shall include:

1° A registration document or, for the first admission to trading of equity securities, a base document containing information about the issuer;

3° The summary note (summary of the prospectus) mentioned in Article 212-8.

Article 212-10

For a public offer of securities or an admission to trading on a regulated market, an issuer that has a registration document registered with or approved by the AMF is required to draw up only a securities note and a summary prospectus for the relevant financial securities.

If there has been a material change or recent development which could affect investors' assessments since the approval of the latest updated registration document or any supplemental note to the prospectus that has been prepared in accordance with Article 212-25, the securities note shall provide information that would normally be provided in the registration document.

The securities note and the summary note shall be submitted for approval by the AMF.

Where an issuer has filed only a registration document without having it approved by the AMF, the entire documentation, including updated information, shall be subject to AMF approval.

Article 212-11

Information may be incorporated in the prospectus by reference to one or more previously or simultaneously published documents, referred to in Article 28 of Regulation (EC) no. 809/2004 of 29 April 2004, approved by or filed with the AMF. This information shall be the latest available to the issuer. The summary note shall not incorporate information by reference.

When information is incorporated by reference, a cross-reference list must be provided in order to enable investors to easily identify specific items of information.

Paragraph 3 - Language used for the prospectus

Article 212-12

I. - Where a public offer of financial securities referred to in Sections I and IV of Article L. 621-8 of the Monetary and Financial Code is made only in France or in one or more other Member States of the European Community or States party to the EEA agreement, including France, the prospectus approved by the AMF shall be drawn up in French.

By way of derogation, the prospectus may be drawn up in a language other than French that is customary in the sphere of finance in the following cases:

2° The issuer has its registered office in a non-EEA State and the prospectus is drawn up for an offer of securities to employees working for affiliates or establishments of the issuer in France.

Where the prospectus is drawn up in a language other than French that is customary in the sphere of finance, the summary note shall be translated into French.

II. - Where admission to trading on a regulated market is planned solely in France or in one or more other Member States of the European Community or States party to the EEA agreement, including France, the prospectus approved by the AMF shall be drawn up in French or in another language customary in the sphere of finance. In the latter case, the summary must be translated into French except when applying for admission to trading on the compartment referred to Article 516-18.

Where admission to trading on a regulated market is planned in France for debt securities with a minimum denomination of EUR 50,000 or the foreign currency equivalent thereof, the prospectus approved by the AMF shall be drawn up in French or in another language customary in the sphere of finance.

III. - Where a public offer or admission of securities to trading on a regulated market is planned in one or more Member States of the European Community or States party to the EEA agreement, excluding France, the prospectus approved by the AMF shall be drawn up in French or in another language customary in the sphere of finance.

IV. - Where the AMF is not the competent authority to approve the prospectus and where a public offer or admission to trading on a regulated market is planned solely in France or in one or more other Member States of the European Community or States party to the EEA agreement, including France, the prospectus shall be drawn up and published in French or in another language customary in the sphere of finance. In the latter case, the summary must be translated into French except when applying for admission to trading on the compartment referred to Article 516-18.

Paragraph 4 - Registration document

Article 212-13

I. - All issuers of financial instruments admitted for trading on a regulated market or on an organised multilateral trading facility within the meaning of Article 524-1 may prepare a registration document every year, as specified in an AMF instruction.

This registration document can take the form of an annual report to shareholders. In this case, a table showing the concordance between the headings in the instruction mentioned in the first paragraph and the corresponding headings in the annual report shall be provided.

II. - The registration document shall be filed with the AMF. If the issuer has not previously submitted three consecutive registration documents to the AMF, this document shall be registered by the AMF before it is published.

III. - The registration document shall be made available to the public free of charge on the day after filing, or registration where such is the case. Any person who so requests may view the document at any time at the registered office of the issuer or the offices of the paying agent. A copy of the document must be sent free of charge to any person who requests one.

The electronic version of the registration document shall be sent to the AMF for posting on its website.

IV. - Once the registration document has been published, the issuer can make regular updates, which are filed with the AMF in accordance with Point 2°, concerning published accounting data and new factors relating to its organisation, business, risks, financial condition and results.

These successive updates are made available to the public in accordance with Point 3°.

IV a. - Where an issuer files or registers a registration document with the AMF in French, it may also file or register the document in a language that is customary in the sphere of finance, in accordance with the terms of the instruction. In this case, the successive updates shall be drafted both in French and in the same language customary in the sphere of finance.

V. - Where, in connection with its supervisory duties, the AMF finds an omission or a material inaccuracy in the registration document, it shall inform the issuer, which must amend the document and file the corrections with the AMF.

These corrections shall be made available to the public as soon as possible, in accordance with Point 3°.

Any omission or inaccuracy, with regard to this General Regulation or to AMF instructions, that could manifestly distort an investor's assessment of the organisation, business, risks, financial condition or results of the issuer shall be considered as material.

Any other observations made by the AMF shall be brought to the attention of the issuer, which shall take them into account in the subsequent registration document.

VI. - Where the registration document filed with or registered by the AMF is published within four months of the financial year-end and contains information referred to in *a* and *e* of point 1° of Article 221-1, the issuer is not required to publish this information separately.

VII. - Where an updated registration document is published within two months of the end of the first half-year or within forty-five days of the end of the first or third quarters of the financial year and where it contains information referred to in *b* or *c* of point 1° of Article 221-1, the issuer is not required to publish this information separately.

VIII.- To qualify for the publication waivers referred to in VI and VII, the issuer shall publish a news release, in accordance with Article 221-3, explaining how the registration document and its updates are to be made available.

Paragraph 5 - Responsibility attaching to participants: Issuers, statutory auditors and investment services providers

Article 212-14

The persons responsible shall be clearly identified in the prospectus by their names and functions or, in the case of legal persons, their business names and registered offices.

The signature of the persons or entities responsible for the prospectus or registration document and for the updates and corrections thereto shall be preceded by a declaration confirming that, to the best of their knowledge, the information contained therein is in accordance with the facts and makes no omission likely to affect its import.

This declaration shall also state that the issuer has obtained a completion letter from its statutory auditors confirming that they have applied their professional standard for checking prospectuses, which consists in examining the entire document. Where appropriate, the issuer shall mention any material observations made by the statutory auditors.

The provisions of the third paragraph of this article shall not apply to prospectuses prepared for a public offering or admission of debt securities to trading on a regulated market, provided that the securities do not give holders access to equity, or for admission of financial securities to the compartment referred to in Article 516-18.

Article 212-15

I. - The statutory auditors shall state whether the interim, consolidated or annual financial statements that have undergone an audit or a limited review and that are presented in a prospectus, a registration document or, where such is the case, the updates or corrections thereto, give a true and fair view of the issuer. Where the interim financial statements are summary versions, the statutory auditors shall give their opinion on whether those statements comply with generally accepted accounting principles.

They shall declare that any forward-looking information, whether estimated or pro forma, presented in a prospectus, registration document or, where such is the case, the updates or corrections thereto, has been properly prepared in accordance with the indicated basis and that the accounting basis is consistent with the issuer's accounting policies.

II. - They shall examine all the other information in a prospectus, registration document or, where such is the case, the updates or corrections thereto. This overall examination and any special verifications shall be carried out in accordance with a standard issued by the national institute of statutory auditors (Compagnie Nationale des Commissaires aux Comptes) on prospectus verification.

They shall draw up a completion letter for their work on the prospectus, in which they inform the issuer about the reports appearing in the prospectus, registration document or, where such is the case, the updates or corrections thereto. Upon completion of their overall examination and any special verifications that may have been made in accordance with the aforementioned professional standard, they shall state their observations, if any. The issue date of this completion letter must coincide as closely as possible with the date of the expected AMF approval.

The issuer shall forward a copy of the completion letter to the AMF before the AMF issues its approval or before the registration document or the updates and corrections thereto are filed or registered. If the letter contains observations, the AMF shall take appropriate action when scrutinising the prospectus.

In case of difficulty, the statutory auditors of a French issuer can approach the AMF with any questions about financial information in a prospectus, a registration document or, where such is the case, the updates or corrections thereto.

III. - The provisions of Section II shall not apply to prospectuses prepared for a public offering or admission of debt securities to trading on a regulated market, provided that the securities do not give holders access to equity, or for admission of financial securities to the compartment referred to in Article 516-18.

Article 212-16

I. - Where one or more investment service providers take part in the first admission to trading on a regulated market of equity securities, or in any public offer or admission of such securities during the first three years after the first admission of equity securities, such investment service provider(s) shall certify to the AMF that they have exercised customary professional diligence and found no inaccuracies or material omissions likely to mislead investors or affect their judgement.

During the three years following the first admission to trading of an issuer's securities, where the prospectus prepared for the public offer or admission comprises a registration document or a recent prospectus and a securities note, the investment service provider(s) shall certify only the information in the securities note, provided the information in the registration document or recent prospectus has been certified by such provider(s) or another investment service provider, exercising customary professional diligence, before the offer or admission.

After three years, the investment service provider(s) shall certify only the details of the offer or admission and the characteristics of the relevant securities, as described in the prospectus or the securities note, as the case may be.

II. - Where one or more investment service providers take part in any public offer of equity securities that are not admitted to trading on a regulated market, such investment service provider(s) shall certify to the AMF that they have exercised customary professional diligence and found no inaccuracies or material omissions likely to mislead investors or affect their judgement.

III. - Where one or more entities, whether investment service providers or not, are authorised by a market operator or an investment service provider that operates an organised multilateral trading facility (MTF) within the meaning of Article 524-1, take part through that MTF in a public offer of equity securities, such entities shall certify to the AMF that they have exercised customary professional diligence and found no inaccuracies or material omissions likely to mislead investors or affect their judgement.

In the case referred to in the above paragraph, where customary professional diligence is exercised by persons or entities that are not accredited as investment service providers, the investment service providers that are likely to take part in the public offer are not required to certify to the AMF that such diligence has been exercised.

The certification shall be submitted to the AMF before its issues its approval.

IV. - This article does not apply to prospectuses prepared for admission of financial instruments to the compartment referred to Article 516-18.

Paragraph 6 - Adapting the contents of the prospectus

Article 212-17

Where the final offer price and the final quantity of financial securities being offered cannot be included in the prospectus, the issuer shall mention in the prospectus:

- 1° The criteria or the conditions in accordance with which the above elements will be established; or
- 2° The maximum offer price.

The final offer price and quantity of securities offered shall be filed with the AMF and published in accordance with Article 212-27.

Where one of the elements mentioned in Point 1° or Point 2° is not mentioned in the prospectus, investors must be entitled to withdraw their acceptance of the acquisition or subscription terms for the securities during at least two trading days following the publication of the final price and quantity of the securities concerned.

Article 212-18

Under AMF supervision, certain information may be omitted from the prospectus in the following cases:

- 1° Disclosure of such information would be contrary to the public interest;
- 2° Disclosure of such information would be seriously detrimental to the issuer, provided that the omission would not be likely to mislead the public;
- 3° Such information is of minor importance for the offer or admission envisaged and is not such as will influence the assessment of the financial condition and prospects of the issuer of the guarantor, if any, of the financial securities being offered to the public or admitted to trading on a regulated market.

Article 212-19

Without prejudice to adequate information of investors, the contents of the prospectus may be adapted, in exceptional circumstances and under AMF supervision, if some of the items prove to be inappropriate to the nature of the financial securities concerned, or to the business or legal form issuer, on condition that equivalent information is provided. If there is no such equivalent information, the issuer shall be authorised, under AMF supervision, to omit the items in question from the prospectus.

Paragraph 7 - Conditions for issuance of approval

Subparagraph 1 - General provisions

Article 212-20

Where the requirements of this Chapter have been met, and particularly where the AMF has received the declarations referred to in Articles 212-14 to 212-16, the AMF shall issue its approval of the prospectus.

Before issuing its approval, the AMF may request additional investigations from the statutory auditors or ask for an audit to be carried out by an external specialist, appointed with its agreement, if it considers that the statutory auditors have not exercised due care.

Article 212-21

The documentation needed to scrutinise the dossier shall be submitted to the AMF when the draft prospectus is filed. The content of this documentation shall be specified in an AMF instruction.

If the dossier is incomplete, the AMF shall so inform the person that filed the draft prospectus, within ten trading days of such filing. Once the dossier is complete, the AMF shall, within the same time limit, send the issuer a notice of filing which, where appropriate, can be an acknowledgment of receipt.

The AMF shall announce its approval within ten trading days of issuing the notice of filing or acknowledgement of receipt, as the case may be.

For a public offer or admission of financial securities to trading on a regulated market, where the issuer has drawn up a registration document and registered it in accordance with Article 212-13, it shall file a securities note in accordance with an AMF instruction no later than five trading days before the proposed date for obtaining approval for the offer or admission.

If, when scrutinising the dossier, the AMF states that the documents are incomplete or that additional information must be incorporated, the time limits mentioned in the third and fourth paragraphs shall commence only when the AMF has received the missing or additional information.

Subparagraph 2 - Provisions applicable to a first public offer or first admission to trading on a regulated market

Article 212-22

Article 212-21 shall not apply to a first public offer or first admission to trading on a regulated market.

The documentation needed to scrutinise the dossier shall be submitted to the AMF when the draft prospectus is filed. The content of this documentation shall be specified in an AMF instruction.

If the dossier is incomplete, the AMF shall so inform the person that filed the draft prospectus, at the earliest opportunity. If the dossier is complete, the AMF shall send the issuer a notice of filing.

The AMF shall announce its approval within twenty trading days of issuing the notice of filing.

If, when scrutinising the dossier, the AMF states that the documents are incomplete or that additional information must be incorporated, the time limit mentioned in the fourth paragraph shall commence only when the AMF has received the missing or additional information.

Article 212-23

1° For the first admission of equity securities to trading on a regulated market or organised multilateral trading facility referred to in Article 524-1, the issuer shall be authorised to draw up a base document.

2° The issuer or any person or entity acting on its behalf shall file the draft base document with the AMF at least twenty trading days before the proposed date for obtaining approval for this transaction.

3° The filing shall be accompanied by the documentation specified in an AMF instruction. If the dossier is incomplete, the AMF shall so inform the issuer at the earliest opportunity. If the dossier is complete, the AMF shall send the issuer a notice of filing.

4° The AMF shall register the base document, as specified in an AMF instruction. It shall send the issuer a registration notice, which it shall also post on its website.

5° The issuer shall disseminate the base document as soon as it has been notified of the registration notice as specified in Article 212-27. It may, however, take it upon itself to delay dissemination provided it refrains from disclosing any material information in the base document to persons not subject to a confidentiality or secrecy obligation. Accordingly, online publication of the registration notice, as provided for in Point 4°, shall be delayed for as long as confidentiality is maintained.

In any case, the base document shall be disseminated no later than five trading days before the proposed date for obtaining approval for the offer or admission.

6° For the admission to trading of financial securities, the issuer shall file a draft securities note no later than five trading days before the proposed date for obtaining approval for the transaction.

If there has been a material change or recent development that could affect investors' assessments since the registration of the base document, the securities note shall provide the information that would normally be provided in the base document.

Paragraph 8 - Existence of a recent prospectus

The registration document accompanied by the securities note, updated as necessary in accordance with Article 212-10, and the summary of the prospectus shall be considered to constitute a valid prospectus.

Paragraph 9 - Supplement to the prospectus

Article 212-25

I. - Every significant new factor, material mistake or inaccuracy relating to the information included in the prospectus that could materially affect the assessment of the financial securities and arises or is noted between the time that approval is obtained and the closing of the offer or the start of trading on a regulated market, as the case may be, shall be mentioned on a supplement to the prospectus, which shall be subject to AMF approval.

The AMF shall issue its approval within seven trading days, as specified in Articles 212-20 to 212-23.

The document shall be published and disseminated with the same arrangements as were applied when the initial prospectus was published.

The summary note, and any translation thereof, shall also be supplemented if necessary to take into account the new information included in the supplement.

II. - Investors who have already agreed to purchase or subscribe for financial securities before the supplement is published shall have the right, exercisable within a time limit that shall be no shorter than two trading days after publication of the supplement, to withdraw their acceptance.

Article 212-32

For the types of financial securities listed below, the prospectus may consist of a base prospectus containing all relevant information about the issuer and the securities being offered to the public or admitted to trading on a regulated market:

1° Debt securities, including debt warrants in any form, issued under an offering programme;

2° Debt securities issued on a continuous or repeated basis by credit institutions:

- a) where the sums received from issue of the securities are placed in assets that provide sufficient coverage of the liabilities deriving from securities until their maturity date;
- b) where, in the event that the related credit institution is unable to meet its current liabilities, the sums referred to in a) are intended to repay the principal and interest falling due, without prejudice to the provisions of Articles L. 613-25 to L. 613-31-10 of the Monetary and Financial Code.

The information given in the base prospectus shall be supplemented, if necessary, with updated information on the issuer and on the securities being offered to the public or admitted to trading on a regulated market, in accordance with Article 212-25.

If the final terms of the offer are not included in either the base prospectus or supplemental note, the final terms shall be provided to investors and filed with the AMF for transaction, as soon as practicable and if possible before the offer is launched. In such case, the provisions of Point 1° of Article 212-17 shall be applicable.

Article 212-33

In the case of an offering programme, the previously filed base prospectus shall be valid for 12 months.

Article 212-38-1

The provisions of this Title apply to public offerings of shares in mutual and cooperative banks. These offerings shall be the subject of a prospectus that describes the characteristics of the issue and of the shares and that includes, inter alia, a presentation of the bank and the mutual network to which it belongs.

The details and content of the prospectus are set forth in an AMF instruction. The formats and modules referred to in the third paragraph of Article 212-7 are optional.

Where information equivalent to that in the registration document referred to in Article 212-13 has been filed with the AMF and posted on the website of the mutual or cooperative bank, it may be incorporated into the prospectus by reference.

Such offerings shall not be the subject of a prospectus if the shares are subscribed or acquired in connection with a product or service supplied by the mutual or cooperative bank.

CHAPTER II - ONGOING DISCLOSURE

SECTION 1 - OBLIGATION TO INFORM THE PUBLIC

Article 223-1 A

For the purposes of this section, "issuer" means any entity or legal person whose financial securities are admitted to trading on a regulated market or organised multilateral trading facility within the meaning of Article 524-1, or serve as underlyings for a forward financial contract or financial security admitted to trading on a regulated market.

Article 223-1

Information provided to the public must be accurate, precise and fairly presented.

Article 223-2

I. - Every issuer must disclose to the public as soon as possible any privileged information, as defined in Article 621-1, that directly concerns that issuer.

II. - The issuer may assume responsibility for deferring disclosure of privileged information in order to protect his legitimate interests, provided such non-disclosure is unlikely to mislead the public and provided the issuer is in a position to ensure confidentiality by controlling access to that information, in particular by:

1° implementing effective security measures to prevent access to that information by persons other than those who require access in order to perform their duties within the issuer;

2° taking the necessary steps to ensure that every person granted access to that information is aware of the legal and regulatory obligations associated with such access and has been warned of the penalties imposed for unauthorised use or distribution of that information;

3° introducing the necessary procedures to disclose that information immediately in the event the issuer has been unable to ensure confidentiality, without prejudice to the provisions of the second point of Article 223-3.

III. - The legitimate interests mentioned in II above may concern the following situations, among others:

1° Negotiations in progress or elements related thereto, if the act of making them public could affect the normal course or outcome of those negotiations. In particular, in cases where the issuer's financial viability is in grave and imminent danger, but the provisions of Book VI of the Commercial Code relating to distressed companies do not apply, disclosure may be deferred for a limited period if it could cause serious harm to the interests of existing or potential shareholders by compromising the outcome of negotiations aimed at ensuring the long-term financial recovery of the issuer.

2° Decisions taken or contracts approved by an issuer's executive body that require approval by another of the issuer's governing bodies to become effective, when the issuer's governance structure requires such separation of powers, if disclosure before the approval by both bodies, combined with a simultaneous announcement that such approval is yet to be given, would be likely to prevent a fair assessment of those decisions or contracts by the public.

Article 223-3

Whenever an issuer, or a person acting in the name or for the account of the issuer, communicates privileged information to a third party in the ordinary course of that party's work, profession or duties, within the meaning of the third point of Article 622-1, the issuer or agent shall ensure that such information is fully disclosed to the public, either simultaneously, if the communication was intentional, or promptly, if it was unintentional.

The provisions of the preceding sentence do not apply when the person who receives the information is bound by an obligation of confidentiality imposed by law, regulation, bylaw or contract.

Article 223-4

Issuers shall refrain from providing privileged information combined with advertising or commercial materials relating to its activities in such a way that the public could be misled.

Article 223-5

Any material change concerning privileged information already made public shall be disclosed promptly, by the same means used for the initial disclosure.

Article 223-6

Any person that is preparing a financial transaction liable to have a significant impact in the market price of a financial instrument, or on the financial position and rights of holders of that financial instrument, must disclose the characteristics of the transaction to the public as soon as possible.

If confidentiality is temporarily necessary to carry out the transaction and if the person mentioned in the preceding sentence is able to ensure such confidentiality, he may assume responsibility for deferring disclosure of those characteristics.

Article 223-7

Where a person has publicly disclosed his intentions and subsequently his intentions no longer conform to his initial declaration, he is required to inform the public promptly of his new intentions.

Article 223-8

All issuers must ensure that the same information disclosed abroad is disclosed simultaneously in France in accordance with the provisions of Article 223-1.

Article 223-9

All the information mentioned in Articles 223-2 to 223-8 must be disclosed to the public in the form of a news release distributed in accordance with Article 221-3.

Article 223-10

The AMF may request that issuers and persons mentioned in Articles 223-2 to 223-8 publicly disclose, in a timely fashion, information that the AMF deems necessary for investor protection and orderly markets. Failing such publication, the AMF itself may disclose the information.

Article 223-10-1

Issuers must ensure equal and simultaneous access in France to the information sources and channels that the issuer or its advisers make available specifically to investment analysts, particularly with regard to corporate finance transactions.

SECTION 2 - CROSSING OF SHAREHOLDING THRESHOLDS, DECLARATIONS OF INTENT AND CHANGES OF INTENT**Sub-section 1 - Major shareholdings****Paragraph 1 - Common provisions****Article 223-11**

These are calculated in relation to the total number of shares making up the capital of the company and the total number of voting rights attached to these shares.

The total number of voting rights is calculated on the basis of all the equities to which voting rights are attached, including equities whose voting rights have been suspended.

II. - Pursuant to Point 4°, Section I of Article L. 233-9 of the Commercial Code, the person required to make the notification referred to in Part I shall take account of the maximum number of issued shares that it is entitled to acquire on its own initiative alone, immediately or at the end of a maturity period, under an agreement or a financial instrument, without set-off against the number of shares that said person is entitled to sell under an agreement or a financial instrument. The financial instruments referred to in Point 4°, Section I of said article are, inter alia:

1° Bonds exchangeable for shares;

2° Futures and forward contracts;

3° Options, whether exercisable immediately or at the end of a maturity period, and regardless of the level of the share price relative to the option strike price.

Where the option can be exercised only if the share price reaches a threshold stipulated in the contract, it shall be treated in the same way as a share once this threshold is reached; if not, it is subject to the information requirement mentioned in the third paragraph of Section I of Article L. 233-7 of the Commercial Code.

Article 223-12

I. - Pursuant to Point 2° of Part II of Article L. 233-9 of the Commercial Code, the following shall not be treated as shares or voting rights held by the person required to provide the notification provided for in Part I of Article L. 233-7 of the aforementioned code: equities held in a portfolio managed by an investment service provider controlled by that person within the meaning of Article L. 233-3 of the Commercial Code in connection with an asset management service, if the provider is able to exercise the voting rights attached to these equities only on the instructions of its client or if it provides assurance that the asset management business is conducted separately from all other activities.

II. - Application of Part I of this Article and Point 1° of Part II of Article L. 233-9 of the Commercial Code shall be subject to the immediate submission of the following information to the AMF by the person required to provide the notification:

1° The list of the management companies or investment service providers, citing their competent supervisory authorities or, failing that, that no authority is responsible for their supervision, but without mentioning the issuers concerned;

2° A statement to the effect that the person required to provide the notification complies with the requirements of this article for each management company or investment service provider concerned.

Said person shall keep the list mentioned in Point 1° up to date.

III. - The person mentioned in Part II must be able to prove to the AMF at its demand that:

1° The person's organisational structures, along with those of the management company or the investment service provider, are set up in such a way that the provider exercises the voting rights independently and that the provider and the person required to provide the notification have established procedures and rules of conduct aimed at preventing the disclosure of information about the exercise of voting rights between said person and the management company or investment service provider;

2° The persons who set the procedures for exercising voting rights shall act independently;

3° If the person mentioned in Part II is a customer of the management company or the provider or if said person holds a share of the assets managed by the provider, there shall be a written agency agreement clearly establishing a mutually independent relationship between said person and the management company or the investment service provider.

IV. - The provisions of Article L. 233-9 of the Commercial Code shall not apply if the management company or the investment service provider is able to exercise voting rights only on the direct or indirect instructions of the person required to provide the notification mentioned in Point I the aforementioned Article L. 233-7 or of any other person controlled by that person within the meaning of the aforementioned Article L. 233-3.

For the purposes of this paragraph:

1° "Direct instruction" shall mean any instruction given by the person required to provide the notification or any person controlled by that person within the meaning of Article L. 233-3 of the Commercial Code, stipulating how the management company or the investment service provider should exercise the voting rights under given circumstances;

2° "Indirect instruction" shall mean any general or specific instruction given in any form by the person required to provide the notification or any person controlled by that person within the meaning of Article L. 233-3 of the Commercial Code that limits the discretion of the management company or the investment service provider in the exercise of the voting rights in order to serve the commercial interests of the person required to provide the notification or the controlled person.

Article 223-12 -1

Point II of Article L. 233-9 of the Commercial Code shall apply to investment providers whose registered offices are not located in States party to the European Economic Area Agreement and which would have been authorised under the terms of Article 5, paragraph 1 of Directive 85/611/EEC, or in the case of asset management, under the terms of Section A, Point 4 of Annex I to Directive 2004/39/EC if their registered offices, or in the case of investment service providers only, their central offices, were located in States party to the European Economic Area Agreement, when under the legislation of those States:

1° The management company or the investment service provider must be free, under all circumstances, to exercise the voting rights attaching to the assets under its management, independently of the person controlling it;

2° The management company or the investment service provider must not take into consideration the interest of the person controlling it or any person controlled by that person in the event of a conflict of interest;

3° The person required to provide the notification shall comply with the provisions of Point 1° of the last paragraph of Part II of Article 223-12 and file a statement with the AMF to the effect that it complies with the requirements stipulated in Points 1° and 2° for each management company or investment service provider concerned.

The person required to provide the notification shall be subject to the provisions of Part III of Article 223-12.

Article 223-13

I. - The notification requirements provided for in Parts I, II and III of Article L. 233-7 of the Commercial Code do not apply to equities:

1° Acquired solely for the clearing, settlement or delivery of financial instruments under the short-term settlement cycle lasting no more than three trading days after the transaction;

2° Held by an investment services provider in its trading book within the meaning of Directive 2006/49/EC of the Parliament and of the Council of 14 June 2006 on the capital adequacy of investment firms and credit institutions, provided that:

- b) The voting rights attached to these equities are not exercised nor otherwise used to intervene in the management of the issuer;

The provisions of Point 4°, Section I of Article L. 233-9 of the Commercial Code and of Section II of Article 223-11 shall apply as soon as the shares referred to in a) account for more than 5% of the capital or voting rights of the issuer.

3° Provided to or by the members of the European System of Central Banks (ESCB) in carrying out their functions as monetary authorities, provided that:

Article 223-31

The lists referred to in Article 222-16 shall be kept for at least five years after they are drawn up or updated.

SECTION 7 - STATEMENT OF INTENT IN THE EVENT OF PREPARATIONS FOR A TAKEOVER BID**Article 223-32**

Without prejudice to the provisions of Article 223-6, in particular when the market for the financial instruments of an issuer is subject to large price swings or unusual trading volumes, the AMF may require persons to publicly disclose their intentions within a set deadline, where there is reason to believe they are preparing a takeover bid, either alone or in concert with others within the meaning of Article L. 233-10 of the Commercial Code. This shall be the case, for example, in the event of discussions between the issuers concerned or the appointment of advisors with a view to preparing a public offer.

The information is publicly disclosed in a news release submitted in advance to the AMF for approval and in accordance with Article 221-3.

Where the persons mentioned in Article 223-32 state their intention to file a draft offer, the AMF sets the date on which they must publish a release describing the terms of the draft offer, or, depending on the circumstances, file a draft offer.

The news release referred to in the first paragraph should mention the financial terms of the draft offer, any agreements that could affect its execution, the equity interest held in the issuer in question, any conditions that must be satisfied before the draft offer is filed, and the proposed timetable.

The AMF may request any information it deems necessary.

If the terms of the draft offer are not disclosed or if the draft offer is not filed within the deadline mentioned in the first paragraph, the persons in question are deemed not to have the intention of filing a draft offer and are subject to the provisions of Article 223-35.

Article 223-34

When a person makes the characteristics of a draft offer public under the terms of Articles 223-6 or 223-33, including the nature of the offer and the planned price or exchange ratio, that person shall immediately notify the AMF and the AMF shall so notify the market by means of a publication. This publication shall mark the beginning of the pre-offer period, as defined in Article 231-2 (5°).

If the person referred to in the first paragraph abandons the planned offer, it shall immediately notify the AMF.

In the circumstances referred to in the previous paragraph, or if a draft offer is not filed within the deadline mentioned in Article 223-33, the AMF shall notify the market by means of a publication.

Article 223-35

During the period mentioned in the first paragraph, these persons may not place themselves in a situation in which they are obliged to file a draft offer. If they increase, by 2% or more, the number of equity securities and securities giving access to capital or voting rights that they hold in the issuer, they must report this immediately and indicate the objectives that they intend to pursue through to the expiry of the period.

The information mentioned in the previous paragraph shall be publicly disclosed according to the conditions and procedures set forth in Article 222-22.

The notice shall specify the reasons therefor and the consequences for shareholders and the public, following procedures that are identical to those stipulated in Article 221-3. The notice shall also include the timetable for the move.

If the issuer concerned by the first paragraph decides to apply for admission of its financial instruments to trading on an organised multilateral trading facility within the meaning of Article 524-1, after the general meeting stipulated in Article L. 421-14 of the Monetary and Financial Code, it shall immediately notify the public, following procedures that are identical to those stipulated in Article 221-3. TITLE III - TAKEOVER BIDS

CHAPTER I - GENERAL RULES AND COMMON PROVISIONS

SECTION 1 - SCOPE, DEFINITIONS AND GENERAL PRINCIPLES

Sub-section 1 - Scope

Article 231-1

This title applies to all public offers made to holders of financial instruments traded on a regulated market in a Member State of the European Union or a State party to the EEA Agreement, including France, where the AMF is the competent authority in the cases provided for in Parts I and II of Article L. 433-1 of the Monetary and Financial Code, by a person acting alone or in concert within the meaning of Articles L. 233-10 and L. 233-10-1 of the Commercial Code, with the aim of acquiring some or all of the financial instruments concerned.

It also applies to buyout offers of financial instruments that are no longer admitted to trading on a regulated market or on an organised multilateral trading facility within the meaning of Article 524-1.

It shall also apply to issuers of financial instruments that have been moved from trading on a regulated market to trading on an organised multilateral trading facility within the meaning of Article 524-1, for a period of three years starting from the admission date, under the terms of Article L. 433-5 of the Monetary and Financial Code.

The AMF may apply these rules, excepting those governing buyout offers with squeeze-outs, and squeeze-outs, to public offers for financial instruments issued by companies whose registered offices are not in a Member State of the European Union or a State party to the EEA Agreement, where these instruments are admitted to trading on a French regulated market.

For the purposes of this Title, the financial securities are those referred to in Section II of Article L. 211-1 of the Monetary and Financial Code and all equivalent instruments issued under foreign law.

For the purposes of this Title, the direct or indirect holding of a fraction of voting rights is assessed on the total number of voting rights, calculated on the basis of all shares to which voting rights are attached, including shares whose voting rights have been suspended.

Sub-section 2 - Definitions

Article 231-2

For the purposes of this Title:

1° The offeror is any natural or legal person or legal entity that files a draft offer or on whose behalf one or more investment services providers file such draft offer;

2° The target company is the issuer of the financial instruments to be acquired through the offer;

3° The persons concerned are the offeror, the target company, and any persons or entities acting in concert with one of the preceding parties;

4° The service providers concerned are investment services providers or the French or foreign institutions sponsoring the offer or advising the persons concerned by the offer;

5° The pre-offer period is the period of time between the publication by the AMF for the purposes of the first paragraph of Article 223-34 and the start of the offer period or, if a draft offer is not filed, the publication by the AMF for the purposes of the last paragraph of Article 223-34;

6° The offer period is the time between the publication by the AMF of the main provisions of the draft offer filed with the AMF, for the purposes of Article 231-14, and the publication of the outcome of the offer, or, where appropriate, the outcome of the re-opening of the offer for the purposes of Article 232-4;

7° The offer term is the time between the opening and closing dates of the offer as published by the AMF for the purposes of Article 231-32.

Sub-section 3 - General principles

Article 231-3

To allow an offer to be conducted in an orderly fashion in the best interests of investors and the market, the parties concerned shall respect the principles of free interplay of offers and counter-offers, equal treatment and information for all holders of the securities of the persons concerned by the offer, market transparency and integrity, and fairness of transactions and competition.

Article 231-4

The persons concerned by the offer shall comply with the rules of this title during the offer period.

Article 231-5

Once a draft offer has been filed, any restrictive clause agreed by the parties concerned by the offer or their shareholders that could have an impact on the assessment of the offer or its outcome, subject to assessment by the courts of its validity, must be disclosed to the parties concerned by the offer, the AMF and the public. If it was not possible to mention the clause in the offer document(s), because of the date on which the agreement was concluded or for another reason, the signatories shall, as soon as the agreement has been concluded, publish a news release detailing the content of the clause in accordance with Article 221-3.

Article 231-6

Save for the exceptions mentioned in Article 233-1, the offer must be for all the equity securities as well as any securities giving access to the capital and voting rights of the target company.

Article 231-7

Deleted by the Decree of 10 July 2009, Journal Officiel dated 17 July 2009, effective 1 October 2009.

SECTION 2 - NATURE OF THE OFFER AND CONDITIONS PRECEDENT

Article 231-8

An offer may consist of:

1° a single offer proposing a purchase of the target securities, an exchange for existing securities or securities to be issued, or a payment in cash and securities;

2° an alternative offer;

3° a principal offer with one or more non-severable subordinate options.

Where the securities provided in exchange are not liquid securities admitted to trading on a regulated market in a Member State of the European Union or a State party to the EEA Agreement, the offer must include a cash option.

If, in the twelve months before the offer is filed, the offeror, acting alone or in concert, has purchased, for cash, securities giving it more than 5% of the shares or voting rights of the target company, the offer must include a cash option.

Where the offer consists of an alternative offer or a single offer proposing payment in cash and securities, the AMF shall assess the validity of the offeror's designation of it as a public cash offer or public exchange offer.

The offeror may give holders the option of selling their securities at a later date, provided that the option is exercisable within a reasonable time, that it is subordinate to the principal offer, and that exercise of the option is unconditionally guaranteed by the institution sponsoring the offer as defined in Article 231-13. Any arrangements that consist in offering payment at a later date of the difference between the future market price and the future offer price must contain guarantees and advantages equivalent to those of a deferred sale.

Article 231-9

The offeror may stipulate a condition in its offer that a number of securities, expressed as a percentage of the share capital or voting rights, must be tendered in order for the transaction to be successful.

Article 231-10

An offeror making draft offers for two or more different companies may stipulate that if the threshold set pursuant to Article 231-9 is reached in one of the offers, it will declare the offer to have succeeded only if this threshold is reached in the other offer or offers. While the offers are open, the offeror may withdraw this threshold condition, notably in the case of a competing or improved offer on one of the target companies.

Article 231-11

If, under competition rules, notice of the draft offer must be given to the European Commission, the minister for economic affairs or the competent authority in this regard in another State party to the EEA Agreement or the United States of America, the offeror may stipulate the condition precedent of obtaining the decision provided for in Article 6-1 a) or b) of EC Regulation 139/2004, the authorisation provided for in Article L. 430-5 of the Commercial Code, or any authorisation of the same nature issued by the foreign State.

An offeror that seeks to assert such provisions shall provide the AMF with a copy of the notices to the authorities concerned or any document attesting to the steps taken to inform those authorities and shall keep the AMF informed of the progress of the procedure.

The offer shall lapse if the proposed transaction becomes subject to the procedure of Article 6-1 (c) of EC Regulation 139/2004, or is referred to the French competition authority (Conseil de la Concurrence) under the last paragraph of Part III of Article L. 430-5 of the Commercial Code, or becomes subject to a similar procedure before the competent authority of a foreign State. The offeror shall disclose whether it is seeking to pursue the intended transaction with the authorities to which the case has been referred.

Article 231-12

Where the proposed offer calls for remittal of securities to be issued, the irrevocability of the offeror's commitments entails an obligation to propose a resolution to the general meeting of the issuing company's shareholders authorising issuance of the securities under the conditions and clauses of the proposed offer, as consideration to persons tendering their securities to the offer, unless the company's governing body has already obtain an express delegation of authority to this effect.

Depending on the applicable provisions of law, regulation or bylaw governing the offeror, the AMF may authorise the offeror to make opening of the offer conditional on its being authorised by a general meeting of shareholders, provided that such a meeting has already been called before the draft offer is filed.

The AMF shall publish the reports filed with it under the terms of Articles 231-46 and 231-47.

Sub-section 2 - Special provisions for investment services providers

Article 231-49

Any investment services provider or custody account keeper involved in transmitting orders shall draw the attention of customers that cross one of the thresholds set in Articles 231-46 and 231-47 to the reporting requirements applying to them.

Paragraph 1 - Provisions applying to the service providers concerned

Article 231-50

Without prejudice to the provisions of Article L. 621-18-4 of the Monetary and Financial Code, if the financial instruments of the offeror are not admitted for trading on a regulated market, the service providers concerned shall draw up and keep an up-to-date list of the persons that have been given access to inside information relating to the offer.

The list shall include:

- 1° The name or business name of each of the persons;
- 2° The reason for their appearing on the list;
- 3° The date of their inclusion on the list.

Article 231-51

I. - The service providers concerned shall report their position in the securities targeted by the offer to the AMF on a daily basis if they have acquired a quantity of the securities of the target company representing 1% or more of the share capital since the beginning of the offer period, or the beginning of the pre-offer period, where appropriate, for as long as they hold that quantity of securities. The same requirement shall also apply to an acquisition of 1% or more of the securities other than shares targeted by the offer.

II. - The reports must specify:

- 1° The identity of the person filing the report and the person or entity that controls it within the meaning of the relevant provisions;
- 2° The number of securities held by the person reporting;
- 3° The number of securities that the service provider concerned shall hold under the terms of a forward agreement.

The reports must be filed with the AMF by the next trading day using the form defined in an AMF Instruction. The AMF shall be entitled to ask the reporting entity for any details or further information that it deems necessary.

Paragraph 2 - Provisions applying to other investment services providers

Article 231-52

The provisions of Articles 231-46 to 231-48 shall apply to investment services providers other than the service providers concerned, unless:

1° Their trading is in line with usual practices with regard to arbitrage or hedging of risks associated with customer transactions or market making;

2° The positions and changes in liabilities resulting from proprietary trading do not deviate significantly from the usual pattern.

In the cases referred to in 1° and 2° above, the provisions of Article 231-51 shall apply.

The criteria set forth in this article are assumed not to be met once the investment services provider comes to hold more than 5% of the capital or voting rights of the target company.

SECTION 13 - CHALLENGING THE EQUIVALENCE OF DEFENSIVE MEASURES

Article 231-53

Any person challenging the equivalence of the measures mentioned in Article L. 233-32 of the Commercial Code shall transmit simultaneously to the AMF and to the target company the arguments and documents on which the challenge is based. Once it has received these documents, the target company has ten trading days in which to present its comments to the AMF.

The AMF shall issue its decision within five trading days of the reply from the target company. The AMF may request any supporting documentation or further information that it deems necessary. In this case, the time period is suspended. It resumes once the information requested has been received.

The AMF shall publish its decision on its website.

SECTION 14 - SUSPENDING THE EFFECTS OF RESTRICTIONS ON THE EXERCISE OF VOTING RIGHTS AND EXTRAORDINARY POWERS TO APPOINT AND DISMISS DIRECTORS, MEMBERS OF THE SUPERVISORY BOARD, MEMBERS OF THE MANAGEMENT BOARD, CHIEF EXECUTIVE OFFICERS AND DEPUTY CHIEF EXECUTIVE OFFICERS

Article 231-54

The effects of statutory restrictions on the number of votes held by individual shareholders at general meetings, mentioned in the first paragraph of Article L. 225-125 of the Commercial Code, shall be suspended during the first general meeting following the close of the offer where the offeror, acting alone or in concert, has acquired more than two-thirds of the shares or voting rights of the target company.

Article 231-55

Where provided for by the articles of association, the effects of statutory restrictions on the exercise of voting rights attached to the equities of the company, and the effects of clauses in agreements concluded after 21 April 2004 providing for restrictions on the exercise of voting rights attached to the equities of the company, shall be suspended during the first general meeting following the close of the offer where the offeror, acting alone or in concert, has acquired more than one-half of the shares or voting rights of the target company.

Article 231-56

Where provided for by the articles of association, the extraordinary powers held by certain shareholders to appoint and dismiss directors, members of the Supervisory Board, members of the Management Board, Chief Executive Officers and Deputy Chief Executive Officers shall be suspended during the first general meeting following the close of the offer where the offeror, acting alone or in concert, has acquired more than one-half of the shares or voting rights of the target company.

CHAPTER II - STANDARD PROCEDURE

SECTION 1 - GENERAL PROVISIONS

Article 232-1

Where the offeror, acting alone or in concert, holds less than one-half of the shares or voting rights of the target company, only the standard offer procedure shall apply.

Article 232-2

The term of the offer is twenty-five trading days. If the draft reply document is filed after the compliance ruling is published, the period starting on the day after the dissemination of reply document and ending with the closing of the offer shall be twenty-five trading days, without exceeding thirty-five trading days from the opening of the offer.

Exceptionally, when the offeror asserts the provisions of Article 231-11, the closing date and timetable of the offer are set after the AMF has received the documents supporting the authorization by the competition authorities mentioned in the first point of Article 231-11.

In agreement with the AMF, the market operator concerned announces the conditions and deadlines for account-keeping institutions to deposit securities tendered to the offer and for delivery and settlement in securities or cash, as well as the date on which the outcome of the offer will be available.

Orders of persons wishing to tender their securities to the offer may be cancelled at any time up to and including the closing date of the offer.

Article 232-3

In principle, the outcome of the offer is published no later than nine trading days after the closing date.

If the AMF determines that the offer has succeeded, the market operator announces the terms of settlement and delivery for the securities acquired by the offeror. If the AMF determines that the offer has not succeeded, the market operator announces the date on which the target securities will be returned to the account-keeping institutions.

If the offer is subject to an acceptance threshold, the AMF publishes a provisional result as soon as the market operator notifies it of the total number of securities tendered for centralisation by authorised intermediaries.

Article 232-4

Unless it is unsuccessful, any offer made following the normal procedure shall be re-opened within ten trading days of publication of the final outcome.

The guarantee of the irrevocability of the offeror's commitments referred to in Article 231-13, shall also concern the re-opening of the offer.

The AMF shall publish the timetable for the re-opened offer, which must last ten or more trading days.

However, if the offeror proceeds directly to a squeeze-out in accordance with Articles 237-14 et seq., the initial offer need not be re-opened, on condition that a squeeze-out was mentioned in the offeror's statement of intentions and that it is filed no later than ten trading days after publication of the outcome of the offer.

SECTION 2 - COMPETING AND IMPROVED OFFERS

Article 232-5

At any time after the opening of the offer but no later than five trading days before it closes, a competing proposed offer on the securities of the target company or one of the target companies may be filed with the AMF.

Article 232-6

An offeror may improve upon the terms of its original offer or the most recent competing offer until no later than five trading days before the offer closes.

Article 232-7

To be declared compliant, a competing public cash offer or an improved cash offer must be at least 2% higher than the price stated in the public cash offer or the previous improved cash offer.

In all other cases, the AMF declares compliant any competing draft offer or improved offer which, assessed in the light of Articles 231-21 and 231-22, significantly improves upon the terms offered to holders of the target securities.

However, a competing or improved offer may be declared compliant if, without modifying the terms of its previous offer, the offeror removes the acceptance threshold below which the offer will not be declared successful.

Article 232-8

Where the AMF declares an improved offer to be compliant, it determines whether to postpone the closing date of the offer(s) and to void orders tendering securities to the earlier offer(s).

Article 232-9

Except when the terms of its offer are raised automatically, an offeror that raises its preceding offer must prepare an additional document to supplement the offer document submitted for AMF review in accordance with Article 231-20.

This supplemental document specifies how the terms of the new offer are improved relative to those of the preceding offer, indicating the changes of the various items required by Article 231-18.

The opinion and reasons therefor of the Board of Directors or Supervisory Board or, in the case of a foreign company, the competent governing body of the target company, including the information specified in Article 231-19, are communicated to the AMF. This information is made public as specified in Article 231-37.

Article 232-10

A competing offer is opened in accordance with the provisions of Article 231-32. Where the AMF determines the timetable for the competing offer, it aligns the closing dates of all competing bids on the furthest date, without prejudice to the provisions of Article 231-34.

Where a competing offer is opened, all orders to tender securities to the earlier offer shall be null and void.

Article 232-11

The offeror may withdraw its offer within five trading days of publication of the timetable for a competing offer or improved competing offer. If it does so, it must inform the AMF of its decision, which is made public.

The offeror may also withdraw an offer if it is frustrated or if the target company adopts measures that modify its substance, either during the offer or in the event that the offer is successful. The offeror may not exercise this right without prior authorisation from the AMF, which rules on the basis of the principles set forth in Article 231-3.

Article 232-12

When a period of more than ten weeks has elapsed since the public announcement of the opening of an offer, the AMF may, with a view to expediting comparison of competing offers and with due observance of the order of their filing, set deadlines for filing each successive improved offer.

The AMF announces its decision and specifies the implementation procedures. The deadline may not be less than three trading days from the publication of the AMF's decision on each improved offer.

Article 232-13

When a period of more than ten weeks has elapsed since the opening of an offer, the AMF may, with a view to hastening the outcome of the outstanding offers, decide to use a cut-off bid procedure.

The AMF sets a date by which each of the offerors must either inform the AMF that its offer is maintained on the same terms or file a final improved offer.

Where applicable, the AMF rules on the compliance of the improved offer(s) and sets the final offer closing date.

In such case, notwithstanding Article 232-6, no improved offer may be filed unless a new competing offer has been filed, declared compliant and opened.

SECTION 3 - TRADING IN THE SECURITIES CONCERNED BY THE OFFER**Sub-section 1 - Trading by the offeror and persons acting in concert with the offeror****Article 232-14**

During the offer period, the initiator of a public cash offer not contingent upon one of the conditions referred to in Articles 231-9 to 231-11, and the persons acting in concert with such offeror shall be authorised to purchase the securities of the target company.

Up until the cut-off date for placing higher bids set in Article 232-6 and when a trade is made at a higher price than the offer price, the offer price shall automatically be raised to 102% or more of the stipulated price or the price actually paid, regardless of the quantity of securities purchased and the price at which they were acquired, without the offeror being able to change the other terms and conditions of the offer. The same rule shall apply, when appropriate, to subscription rights for a new issue of equity securities by the company.

After the cut-off date and until the offer closes, the offeror and persons acting in concert with it may not buy the securities of the target company at a price higher than the offer price.

Sub-section 2 - Trading by the target company and persons acting in concert with it**Article 232-15**

Where the offer is to be settled entirely in cash, the target company may proceed with a share buyback programme if the resolution adopted at the shareholders' meeting that authorised the programme has expressly provided for this. If this is a measure designed to frustrate the offer, its implementation must be approved or confirmed by the shareholders' meeting.

Sub-section 3 - Trading when the offer has been re-opened**Article 232-16**

If the offer is settled exclusively in cash, the offeror may carry out the offer by purchasing the securities targeted by the offer at the offer price and only at that price.

By way of derogation to Article 231-41, the issuer of equity securities used to settle a public exchange offer may trade in its own securities as part of a share buyback programme under the terms of Article L. 225-209 of the Commercial Code.

CHAPTER III - SIMPLIFIED PROCEDURE**Article 233-1**

The simplified offer procedure may be used in the following cases:

1° an offer by a shareholder that already holds directly or indirectly, alone or in concert within the meaning of Article L. 233-10 of the Commercial Code, one-half or more of the target company's equity and voting rights;

2° an offer by a shareholder that, following an acquisition, holds directly or indirectly, alone or in concert within the meaning of Article L. 233-10 of the Commercial Code, one-half or more of the target company's equity and voting rights;

3° an offer for no more than 10% of the voting equity securities or voting rights of the target company, taking into account the voting equity securities and voting rights that the offeror already holds, directly or indirectly;

4° an offer by a person, acting alone or in concert within the meaning of Article L. 233-10 of the Commercial Code, for preference shares, investment certificates or voting rights certificates;

5° an offer by a company to buy back its own shares, pursuant to Article 225-207 of the Commercial Code;

6° an offer by a company to buy back its own shares, pursuant to Article 225-209 of the Commercial Code;

7° an offer by the issuing company for securities giving access to its equity;

8° an offer by the issuing company to exchange debt securities that do not give access to capital for equity securities or securities that do give access to its capital.

Article 233-2

The simplified public cash offer shall be carried out by purchasing securities on the terms and following the procedures stipulated at the opening of the offer.

In the case of a limited offer referred to in points 3°, 5° and 6° of Article 233-1 and in Articles 233-4 and 233-5, or in the case of simplified exchange offer, or if the circumstances and the procedures of the transaction warrant it, the offer shall be centralised by the market undertaking concerned or by the sponsor institution under the supervision of the market undertaking.

The offer period for a simplified offer may be limited to ten trading days in the case of a cash offer and to fifteen trading days in other cases, with the exception of a buyback offer pursuant to Article L. 225-207 of the Commercial Code.

Article 233-3

In the case of a cash offer under the terms of Point 1° of Article 233-1 and subject to the provisions of Articles 231-21 and 231-22, the price stipulated by the offeror may not, unless the AMF gives its consent, be lower than the price determined by calculating the average stock market prices, weighted by trading volume for sixty trading days prior to the publication of the notice referred to in the first paragraph of Articles 223-34 or, failing that, prior to publication of the notice of filing of the draft offer referred to in Article 231-14.

For the purposes of this calculation, the prices and volumes used shall be the ones on the regulated market where the shares of the target company are most liquid.

Article 233-4

In the case of an offer for investment certificates or voting rights certificates, the offeror may limit itself to acquiring a quantity of voting rights certificates or investment certificates equivalent to the number of such investment certificates or voting rights certificates, respectively, that it already holds.

Article 233-5

If the person making a simplified offer has been authorised to reserve the right to scale down the sale or exchange orders made in response to its offer, the scaling-down is done on a proportional basis, subject to any necessary adjustments.

Orders made in response to a buyback offer filed pursuant to Point 5° of Article 233-1 are scaled down in accordance with Decree 67-236 of 23 March 1967.

In such cases, the offeror may not trade in the securities concerned.

Article 233-6

By way of derogation to Article 231-41, the issuer of equity securities used to settle a simplified exchange offer may continue to trade in its own securities as part of a share buyback programme under the terms of Article L. 225-209 of the Commercial Code.

CHAPTER IV - MANDATORY FILING OF A DRAFT OFFER**Article 234-1**

For the purposes of this Chapter, equity securities shall mean voting securities if a company's equity capital consists partly of non-voting securities.

The fractions of capital or voting rights referred to in this Chapter are determined in accordance with the threshold calculation methods set by Articles L. 233-7 and L. 233-9 of the Commercial Code.

The financial instruments to be taken into account pursuant to point 4° of section I of Article L. 233-9 of the Commercial Code are:

1° Bonds exchangeable for shares;

2° Futures;

3° Options, whether exercisable immediately or at a future date, regardless of the level of the share price relative to the exercise price of the option; where the option can be exercised only on condition that the share price reaches a level specified in the contract, it is counted as a share once that level is reached.

The agreements to be taken into account are those referred to in point 4° of section I of Article L. 233-9 of the Commercial Code; where the agreement can be exercised only on condition that the share price reaches a level specified in the contract, the shares covered by the agreement are counted once that level is reached.

Article 234-2

Where a natural or legal person, acting alone or in concert within the meaning of Article 233-10 of the Commercial Code, comes to hold more than 30% of a company's equity securities or voting rights, such person is required, on its own initiative, to inform the AMF immediately thereof and to file a proposed offer for all the company's equity securities, as well as any securities giving access to its capital or voting rights, on terms that can be declared compliant by the AMF.

The proposed offer may not contain a clause requiring a minimum number of securities to be tendered in order for the offer to be declared successful. Subject to this proviso, the provisions of Chapter I and, as appropriate, Chapters II or III of this Title are applicable to mandatory tender offers.

Natural or legal persons acting alone or in concert within the meaning of Article 233-10 of the Commercial Code are subject to the requirements of the first paragraph when, as a result of a merger or an asset contribution, they come to hold more than 30% of a company's capital or voting rights.

Article 234-3

Abrogated

Article 234-4

The AMF may authorise, under terms that are made public, a temporary breach of the thresholds referred to in Articles 234-2 and 234-5 if the breach results from a transaction that is not intended to gain or increase control of the company, within the meaning of Article L. 233-2 of the Commercial Code, and if it lasts no longer than six months. The person(s) concerned shall undertake not to exercise the corresponding voting rights during the period of resale of the securities.

Article 234-5

The provisions of Article 234-2 apply to natural or legal persons, acting alone or in concert, who directly or indirectly hold between 30% and one-half of the total number of equity securities or voting rights of a company and who, within a period of less than twelve consecutive months, increase such holding by at least 2% of the company's total equity securities or voting rights.

Persons who, alone or in concert, hold directly or indirectly between 30% and one-half of a company's capital or voting rights must keep the AMF informed of any change in such holdings. The AMF shall make these disclosures public.

Article 234-6

When a proposed offer is filed pursuant to Articles 234-2 and 234-5, the proposed price must be at least equivalent to the highest price paid by the offeror, acting alone or in concert within the meaning of Article 233-10 of the Commercial Code, in the twelve-month period preceding the event that gave rise to the obligation to file a proposed offer.

The AMF may request or authorise a price modification if this is warranted by a manifest change in the characteristics of the target company or in the market for its securities, and notably in the following cases:

1° if events liable to materially alter the value of the securities concerned occurred in the twelve-month period before the draft offer was filed;

2° if the target company is in recognised financial difficulty;

3° if the price mentioned in the first paragraph results from a transaction that includes related items involving the offeror, acting alone or in concert, and the seller of the securities acquired by the offeror over the last twelve months.

In these cases, or in the absence of transactions by the offeror, acting alone or in concert, in the securities of the target company over the twelve-month period referred to in the first paragraph, the price is determined based on generally accepted objective valuation criteria, the characteristics of the target company and the market for its securities.

Article 234-7

The AMF may determine that there is no requirement to file a proposed offer if the thresholds referred to in Articles 234-2 and 234-5 are breached by one or more persons as a result of their having declared themselves to be acting in concert with:

1° one or more shareholders who already held, alone or in concert, the majority of a company's equity or voting rights, provided such shareholders remain predominant;

2° One or more shareholders that already held, alone or in concert, between 30% and one-half of a company's equity or voting rights, provided that such shareholders maintain a larger holding and that, upon the formation of this concert party, they do not exceed one of the thresholds referred to in Articles 234-2 and 234-5.

Where more than 30% of the capital or voting rights of a company whose equity securities are admitted to trading on a regulated market in a Member State of the European Union or a State party to the EEA agreement, including France, is held by another company and constitutes one of its essential assets, the AMF may determine that a proposed public offer need not be filed when a group of persons acting in concert acquires control of that other company, within the meaning of laws and regulations applicable to it, provided that one or more members of the concert party already had such control and remain predominant.

In all the above cases, as long as the balance of shareholdings within a concert party is not altered significantly relative to the situation at the time of the initial declaration, there is no need to make a public offer.

Article 234-8

The AMF may waive the mandatory filing of a tender offer if the person(s) concerned demonstrate to it that one of the conditions listed in Article 234-9 is met.

The AMF rules after examining the circumstances in which the threshold(s) have been or will be breached, the structure of ownership of the equity and voting rights and, where applicable, the conditions on which the transaction has been or will be approved by a general meeting of the target company's shareholders.

Article 234-9

The cases in which the AMF may grant a waiver are as follows:

1° Transmission by way of gift between natural persons, or distribution of assets by a legal person in proportion to the rights of its members.

2° Subscription to a capital increase by a company in recognised financial difficulty, subject to the approval of a general meeting of its shareholders.

3° Merger or asset contribution subject to the approval of a general meeting of shareholders.

4° Merger or asset contribution subject to the approval of a general meeting of shareholders, combined with an agreement between shareholders of the companies concerned establishing a concert party.

5° Reduction in the total number of equity securities or voting rights in the target company.

6° Holding of a majority of the company's voting rights by the applicant or by a third party, acting alone or in concert.

7° Resale or other comparable disposal of equity securities or voting rights between companies or persons belonging to the same group.

8° Without prejudice to section III of Article L. 433-3 of the Monetary and Financial Code, acquisition of control, within the meaning of applicable laws and regulations, of a company which directly or indirectly holds more than 30% of the capital or voting rights of another company whose equity securities are admitted to trading on a regulated market in a Member State of the European Union or a State party to the EEA agreement, including France, and which does not constitute an essential asset of the company over which control has been acquired.

9° Merger or contribution of a company which directly or indirectly holds more than 30% of the capital or voting rights of a company under French law whose equity securities are admitted to trading on a regulated market in a Member State of the European Union or a State party to the EEA agreement, including France, and which does not constitute an essential asset of the merged or contributed company.

Article 234-10

In the case of transactions subject to the approval of the target company's shareholders, the AMF may rule on a waiver application before a general meeting is held, provided it has precise information about the intended transaction.

In the other cases mentioned in Article 234-9 and in the situations referred to in Articles 234-4 and 234-7, the AMF may make its ruling before the relevant transaction is carried out, based on the nature, circumstances and timetable of the transaction as well as the supporting documents provided by the person(s) concerned.

The AMF is to be kept informed of the course of events and, if the transaction is not carried out according to the initial terms, may declare its previous decision to be null and void.

Where it grants a waiver or determines that there is no requirement to file an offer, the AMF publishes its decision on its website and discloses any commitments made by the applicant(s).

Article 234-11

For the application of the provisions of this chapter, the one-third threshold that applied before 1 February 2011 to holdings of capital and voting rights shall apply in place of the 30% threshold to any person, acting alone or in concert within the meaning of Article L. 233-10 of the Commercial Code, who on 1 January 2010 directly or indirectly held between 30% and one-third of the capital or voting rights, and shall continue to apply as long as the holding remains between these two thresholds.

The same applies to any person, acting alone or in concert within the meaning of Article L. 233-10 of the Commercial Code, who, after 1 January 2010, directly or indirectly held between 30% and one-third of the capital or voting rights as a result of a binding commitment entered into before 1 January 2010, and shall continue to apply as long as the holding remains between these two thresholds.

Persons acting alone or in concert within the meaning of Article L. 233-10 of the Commercial Code who on 1 February 2011 directly or indirectly held between 30% and one-third of the capital or voting rights and who are not covered by the foregoing paragraphs must reduce their holding below 30% of the capital and voting rights before 1 February 2012. If they fail to do so, they will be subject to the provisions of Articles 234-1 to 234-10.

All natural or legal persons concerned by these provisions shall report their holdings of capital and voting rights to the AMF without delay. The AMF publishes the list of persons who have made such declarations.

CHAPTER V - PUBLIC OFFERS FOR FINANCIAL INSTRUMENTS ADMITTED TO TRADING ON AN ORGANISED MULTILATERAL TRADING FACILITY

Article 235-1

Without prejudice to the provisions of the third paragraph of Article 231-1, the provisions of this chapter apply exclusively to companies whose equity securities are admitted to trading on an organised multilateral trading facility within the meaning of Article 524-1.

The provisions of Chapter I are applicable to public offers made under this chapter.

SECTION 1 - Mandatory filing of a proposed offer

Article 235-2

The provisions of Chapter IV, with the exception of Articles 234-5, 234-7 (2°), 234-7 paragraph 4, and 234-11, apply with a threshold of 50% instead of 30%.

Article 235-3

A mandatory public offer is effected by purchases made on the terms and conditions specified when the offer is opened, during a period of at least ten trading days or, if the circumstances and conditions of the operation so warrant, by centralisation of sell orders or exchange orders performed by the market operator or, under its supervision, by the sponsoring investment services provider.

Section 2 - BUYOUT OFFERS WITH SQUEEZE-OUT

Article 235-4

The provisions of Articles 236-1, 236-3 and 236-7 and the provisions of Chapter VII apply to companies whose securities are admitted to trading on an organised multilateral trading facility within the meaning of Article 524-1, or that are no longer admitted thereto.

CHAPTER VI - BUYOUT OFFERS WITH SQUEEZE-OUT

Article 236-1

Where the majority shareholder(s) hold, in concert within the meaning of Article 233-10 of the Commercial Code, 95 % or more of the voting rights of a company whose shares are or were admitted to trading on a regulated market in a Member State of the European Union or in a State party to the EEA Agreement, including France, any holder of voting equity securities who is not part of the majority group may apply to the AMF to require the majority shareholder(s) to file a draft buyout offer.

Once the AMF has made the necessary verifications, it rules on such application in the light of, inter alia, the state of the market for the securities concerned and the information provided by the applicant.

If the AMF declares the application to be acceptable, it notifies the majority shareholder(s), which must then file a draft buyout offer, within a time limit set by the AMF and drawn up in terms that can be deemed compliant by it.

Article 236-2

Where the majority shareholder(s) hold, in concert within the meaning of Article 233-10 of the Commercial Code, 95% or more of the voting rights of a company whose investment certificates and, if applicable, voting rights certificates, are or were admitted to trading on a regulated market in a Member State of the European Union or in a State party to the EEA Agreement, including France, any holder of such certificates who is not part of the majority group may apply to the AMF to require the majority shareholder(s) to file a buyout offer for those securities.

Once it has made the necessary verifications, the AMF rules on such application in the light of, inter alia, the state of the market for the securities concerned and the information provided by the applicant.

If the AMF declares the application to be acceptable, it notifies the majority shareholder(s), which must then file a draft buyout offer, within a time limit set by the AMF and drawn up in terms that can be deemed compliant by it.

Article 236-3

The majority shareholder(s) holding, in concert within the meaning of Article 233-10 of the Commercial Code, 95 % or more of the voting rights of a company whose shares are or were admitted to trading on a regulated market in a Member State of the European Union or in a State party to the EEA Agreement, including France, may file with the AMF a draft buyout offer for the equity securities, and any other securities giving access to the capital or voting rights in the company, that they do not already hold.

Article 236-4

The majority shareholder(s) holding, in concert within the meaning of Article 233-10 of the Commercial Code, 95 % or more of the voting rights of a company whose investment certificates and, if applicable, voting rights certificates are or were admitted to trading on a regulated market in a Member State of the European Union or in a State party to the EEA Agreement, including France, may file with the AMF a draft buyout offer for those securities.

Article 236-5

Where a public limited company (société anonyme) whose equity securities are admitted to trading on a regulated market is converted to a limited partnership with shares (société en commandite par actions), the person(s) that controlled it prior to conversion, or the active partners in the limited partnership with shares, are required to file a draft buyout offer once a resolution regarding the conversion has been adopted at a general meeting of shareholders. The draft offer cannot include a minimum acceptance condition and must be drawn up in terms that can be declared compliant by the AMF.

The offeror informs the AMF whether it reserves the right, depending on the result of the offer, to request that all equity securities and securities giving access to the capital and voting rights of the company be delisted from the regulated market on which they are traded.

Article 236-6

The natural or legal persons that control a company within the meaning of Article L. 233-3 of the Commercial Code must inform the AMF:

1° When they intend to ask an extraordinary general meeting of shareholders to approve one or more significant amendments to the company's articles or bylaws, in particular the provisions concerning the company's legal form or disposal and transfer of equity securities or the rights pertaining thereto;

2° When they decide in principle to proceed with the merger of that company into the company that controls it or with another company controlled by the latter; to sell or contribute all or most of the company's assets to another company; to reorient the company's business; or to suspend dividends for a period of several financial years.

The AMF evaluates the consequences of the proposed changes in the light of the rights and interests of the holders of the company's equity securities or voting rights and decides whether a buyout offer should be made.

The draft offer cannot include a minimum acceptance condition and must be drawn up in terms that can be declared compliant by the AMF.

Article 236-7

The public buyout offer shall be carried out by purchasing securities on the terms and following the procedures stipulated at the opening of the offer during ten or more trading days, or if the circumstances and the procedures of the transaction warrant it, the offer shall be centralised by the market undertaking concerned or by the sponsor institution under the supervision of the market undertaking.

By way of derogation to Article 231-41, the issuer of equity securities used to settle a public buyout offer may continue to trade in its own securities as part of a share buyback programme under the terms of Article L. 225-209 of the Commercial Code.

If the public buyout offer includes a securities settled leg and a cash settled leg, with no reduction in orders, the offeror may acquire the securities targeted under the terms and conditions stipulated in the cash settled leg, in derogation to the provisions of Article 231-41.

CHAPTER VII - SQUEEZE-OUTS

SECTION 1 - SQUEEZE-OUT FOLLOWING A BUYOUT OFFER

Article 237-1

At the close of a buyout offer carried out in accordance with Articles 236-1, 236-2, 236-3 or 236-4, securities not tendered by minority shareholders or holders of investment certificates or voting rights certificates may be transferred to the majority shareholder or group, provided that they represent not more than 5% of the shares or voting rights, in return for compensation.

Similarly, securities that give or could give access to capital may be transferred to the majority shareholder or group, provided that the equity securities that could potentially be created, through conversion, subscription, exchange, redemption or any other means, from untendered securities that give or could give access to the company's capital, plus existing but untendered equity securities, do not represent more than 5% of all the equity securities that exist and that could be created.

Article 237-2

Where a buyout offer is filed, the offeror informs the AMF whether it reserves the right to apply for a compulsory buyout once the offer has closed and the result is known, or whether it requests that a compulsory buyout be implemented once the buyout offer has closed.

In support of its proposed buyout offer, the offeror provides the AMF with a valuation of the securities of the target company, carried out using the objective methods applied in cases of asset disposals, that takes into account the value of the company's assets, its past earnings, its market value, its subsidiaries, if any, and its business prospects, according to a weighting appropriate to each case.

The AMF examines the draft offer in accordance with the provisions of Articles 231-21 and 231-22.

Article 237-3

Where the AMF declares a proposed buyout offer followed by a squeeze-out to be acceptable, the majority shareholder or group shall place a notice informing the public of the squeeze-out procedure in a newspaper carrying legal notices published in the vicinity of its registered office.

Article 237-4

The offeror designates a custody account-keeper to take charge of centralising the compensation payments (hereinafter "the centraliser").

Article 237-5

The offeror requesting the squeeze-out deposits the amount corresponding to the compensation for securities not tendered to the public buyout offer in a reserved account with the centraliser.

Compensation is calculated net of all expenses.

Article 237-6

Unallocated funds are held by the centraliser for ten years and paid to Caisse des Dépôts et Consignations at the end of this period. These funds are at the disposal of the legal beneficiaries, but revert to the French State after thirty years.

Article 237-7

The centraliser, acting on behalf of the majority shareholder or group and throughout the entire period during which it holds the funds, places an annual notice in a newspaper of national circulation inviting former shareholders who have not been compensated to exercise their rights.

Where the centraliser has paid out all frozen funds corresponding to compensation payable to securities holders that did not respond to the public buyout offer, it places an appropriate announcement in a newspaper of national circulation. It is then no longer required to place the annual notice mentioned above.

Article 237-8

If, when filing the public buyout offer, the offeror reserved the right to proceed with a squeeze-out after the offer, it informs the AMF within ten trading days of the close of the offer whether it intends so to proceed or waives that right. The offeror's decision is made public by the AMF.

If the offeror decides to proceed with a squeeze-out, it informs the AMF of the price it proposes to pay as compensation. This price cannot be lower than that of the buyout offer, and it shall be higher when events liable to alter the value of the securities concerned have occurred after the offer was declared compliant.

The AMF shall make the mandatory buyout public and specify the terms for implementing it, including the date on which it becomes effective. The time between the decision and the execution of the buyout cannot be less than the time referred to in Article R. 621-44 of the Monetary and Financial Code. This decision shall result in the delisting of the relevant securities from the regulated market where they had been traded.

Custody account-keeping institutions transfer any securities not tendered to the buyout offer into the name of the majority shareholder or group, which pays the corresponding compensation into a reserved account opened for this purpose in accordance with the provisions of Article 237-9.

Article 237-9

Where the offeror has chosen to proceed with a squeeze-out in accordance with the provisions of Article 237-8, the freezing of funds and crediting of compensation to holders that have not tendered their securities to the public buyout offer takes place at the date on which the AMF's decision becomes enforceable.

Article 237-10

If, when filing the public buyout offer, the offeror applies to the AMF for a squeeze-out to be implemented as soon as the offer closes, regardless of result, the notice published by the market operator to announce the opening of the buyout offer stipulates the conditions applying to the squeeze-out procedure, and in particular the date on which it takes effect.

As soon as the public buyout offer closes, the securities securities concerned shall be delisted from the regulated market(s) on which they are traded and, where appropriate, from the multilateral trading facilities where they were traded. At the same date, the custody account-keeping institutions transfer any securities not tendered to the buyout offer into the name of the majority shareholder or group, which pays the corresponding compensation into a reserved account opened for this purpose in accordance with the provisions of Article 237-11.

Article 237-11

Where the offeror requested a squeeze-out at the time the proposed buyout offer was filed, the funds are frozen the day after the offer closes.

At the date the funds are frozen, the custody account-keeper credits the accounts of securities holders affected by the squeeze-out with the compensation that is due them.

Article 237-12

During the offer period of a public buyout offer prior to a squeeze-out, only the investment service provider(s) designated by the offeror are authorised to acquire the securities concerned on the offeror's behalf.

Persons seeking to acquire securities subject to a public buyout offer followed by a squeeze-out must obtain them solely from the investment service provider(s) designated by the offeror.

Article 237-13

The sole beneficiaries of the facility whereby the offeror covers brokerage commissions up to an amount set by it, including, where applicable, stamp duty, shall be those sellers whose securities were registered on their account prior to the opening of:

1° a simplified tender offer in which the offeror has explicitly declared its intention, if it obtains 95% of the voting rights of the target company, to request initiation of a public buyout offer followed by a squeeze-out; or

2° a public buyout offer followed by a squeeze-out.

To this end, and in connection with the simplified tender offer referred to in Point 1°, the market operator concerned puts in place a procedure for centralising orders placed in response to such offer.

Requests for refunds must be accompanied by documentary evidence of the sellers' rights.

SECTION 2 - SQUEEZE-OUT FOLLOWING ANY PUBLIC OFFER**Article 237-14**

Without prejudice to the provisions of Article 237-1, following any public offer and within three months of the close of the offer, securities not tendered by minority shareholders may be transferred to the offeror, provided that they represent not more than 5% of the shares or voting rights, in return for compensation.

Similarly, securities that give or could give access to capital may be transferred to the offeror, provided that the equity securities that could potentially be created, through conversion, subscription, exchange, redemption or any other means, from untendered securities that give or could give access to the company's capital, plus existing but untendered equity securities, do not represent more than 5% of all the equity securities that exist and that could be created.

Implementation of the squeeze-out procedure provided for in this article is subject to the provisions of Articles 237-4 to 237-7 and to the following provisions.

Article 237-15

When it files the draft offer, the offeror informs the AMF whether it reserves the right, depending on the result of the offer, to implement a squeeze-out.

Article 237-16

I. - The AMF rules on whether the proposed squeeze-out is compliant, in accordance with Articles 231-21 and 231-22, except in one of the following two cases and provided that the squeeze-out includes the cash settlement proposed in the last offer:

1° The squeeze-out follows a public offer subject to the provisions of Chapter II;

2° The squeeze-out follows a public offer for which the AMF has the valuation mentioned in Part II of Article L. 433-4 of the Monetary and Financial Code and the report by the independent appraiser mentioned in Article 261-1.

II. - Where the AMF rules on whether the squeeze-out is compliant, the offeror provides, in support of its proposed squeeze-out, a valuation of the securities of the target company, carried out using the objective methods applied in cases of asset disposals, that takes into account the value of the company's assets, its past earnings, its market value, its subsidiaries, if any, and its business prospects, according to a weighting appropriate to each case.

Where a squeeze-out is to be implemented, the parties concerned must draw up a draft squeeze-out document in accordance with the conditions and procedures set out in Articles 231-16 to 231-20, except for the description of the offeror's intentions for the next twelve months. The squeeze-out document(s) are submitted to the AMF for approval in accordance with Articles 231-20 and 231-26 and made available to the public in accordance with Article 231-27.

Disclosures providing information on the legal, financial, accounting and other characteristics of the target company are filed with the AMF and made publicly available in accordance with the conditions and procedures set out in Articles 231-28 to 231-30. Content requirements for these disclosures are stipulated in an AMF instruction.

III. - Where the AMF does not rule on whether the squeeze-out is compliant, the offeror informs the AMF of its intention to implement the squeeze-out. The AMF publishes the implementation date for the squeeze-out. The offeror publishes a news release in accordance with Article 221-3 and is responsible for its distribution. Content requirements for these news releases are stipulated in an AMF instruction.

Article 237-17

Where the AMF declares a draft squeeze-out to be compliant or where the AMF does not rule on whether the squeeze-out is compliant when the majority shareholder or group informs the AMF of its intention to proceed with a squeeze-out, the shareholder or group shall place a notice informing the public of the squeeze-out in a newspaper carrying legal notices published in the vicinity of its registered office.

Article 237-18

The statement of compliance shall specify the date on which it becomes enforceable. The time period between the release and the enforcement of the statement cannot be less than the time period referred to in Article R. 621-44 of the Monetary and Financial Code.

The statement shall result in the delisting of the relevant securities from the regulated market where they are traded. The freezing of funds and crediting of compensation to holders that have not tendered their securities to the public offer takes place at the date on which the AMF's statement becomes enforceable.

Where the AMF does not rule on whether the squeeze-out is compliant, the provisions of the preceding paragraph shall apply as from implementation of the squeeze-out.

Custody account-keeping institutions transfer any securities not tendered to the last offer into the name of the majority shareholder or group, which pays the corresponding compensation into a reserved account opened for this purpose in accordance with the provisions of Article 237-5.

Article 237-19

As soon as the statement of compliance becomes enforceable, or, if the AMF does not rule on compliance, as soon as the squeeze-out is implemented, the relevant securities shall be delisted from the regulated market(s) where they were traded and, where appropriate, from the multilateral trading facilities where they were traded. At the same date, the custody account-keeping institutions transfer any securities not tendered to the buyout offer into the name of the majority shareholder or group, which pays the corresponding compensation into a reserved account opened for this purpose in accordance with the provisions of Article 237-11.

CHAPTER VIII - DISCLOSURE AND PROCEDURE FOR ORDERLY ACQUISITION OF DEBT SECURITIES THAT DO NOT GIVE ACCESS TO EQUITY

Article 238-1

This chapter applies to the acquisition of debt securities that do not give access to equity and are admitted to trading on a French regulated market or an organised multilateral trading facility.

SECTION 1 - DISCLOSURE OF ACQUISITIONS OF DEBT SECURITIES THAT DO NOT GIVE ACCESS TO EQUITY

Article 238-2

Where an issuer has acquired more than 10% of the securities representing a single bond issue on or off the market in one or more transactions, it shall so notify the market within four trading days by means of a news release to be disseminated in accordance with the procedures stipulated in Article 221-4. Further acquisitions of the same bond issue are subject to the same disclosure requirement for each additional 10% of the securities acquired in one or more transactions. The 10% threshold shall be calculated on the basis of the number of securities issued, including any subsequent issues granting identical rights to the holders. The number of securities used for calculating whether a threshold has been crossed is the number of securities bought less the number of securities sold.

Article 238-2-1

Issuers of debt securities that have bought back securities during the past half-year shall, within ten trading days after the close of the half-yearly or annual accounts, publish the number of securities remaining in circulation and the number of securities they hold in accordance with Article L. 213-1 A of the Monetary and Financial Code, for each of their bond issues. This information is to be posted on their website or disseminated in accordance with section II of Article 221-4.

SECTION 2 - PROCEDURE FOR ORDERLY ACQUISITION OF DEBT SECURITIES THAT DO NOT GIVE ACCESS TO EQUITY

Article 238-3

The orderly acquisition procedure shall be defined as an initiative by the issuer, its agent or a third party to set up a centralised facility that enables the issuer to offer all holders of a single issue the option of selling or exchanging some or all of the debt securities that they hold, while ensuring equal treatment of all holders.

Article 238-4

The procedure for orderly acquisition of debt securities shall be announced by means of a news release disseminated in accordance with the procedures stipulated in Article 221-4 and shall comply with the relevant market abuse rules defined in Book VI.

Article 238-5

An AMF Instruction shall stipulate the information to be included in the news release mentioned in Article 238-4 when the orderly acquisition procedure involves debt securities sold through a public offering in France.

TITLE IV - BUYBACK PROGRAMMES FOR SHARES LISTED ON A REGULATED MARKET AND TRANSACTION REPORTING

Article 241-1

Article 241-3

The issuer shall not be required to publish the programme description if the annual financial report referred to in paragraph I of Article L. 451-1 of the Monetary and Financial Code or the registration document drawn up in accordance with Article 212-13 includes all of the information that must appear in the programme description pursuant to Article 241-2.

Article 241-4

I. - Issuers in the course of conducting a share buyback programme:

1° Shall notify the market of all transactions carried out as part of the share buyback programme no later than the seventh trading day after their execution. This information, prepared in accordance with an AMF instruction, shall be posted to the issuer's website.

a) Cancellations of shares effected during the period since the last report, specifying the number and characteristics of the cancelled shares as well as the effective date of the cancellation;

This information is transmitted to the AMF electronically, in the format specified in an AMF instruction.

II. - The provisions of Point 1° of paragraph I shall not apply to transactions carried out by an investment service provider under a liquidity provision agreement that complies with the AMF decision of 1 October 2008 concerning acceptance of liquidity contracts as a market practice that the AMF deems acceptable.

If the issuer sends the AMF all of the information required for the monthly report referred to in point 2° of paragraph I at the same time as the report referred to in point 1° of paragraph I, the issuer shall not be subject to point 2° of paragraph I.

Article 241-5

Issuers may also use this time to decide to sell the shares through an investment service provider acting independently. An AMF instruction shall specify the general requirements for executing such sales and the reporting requirements for them.

TITLE V - MARKETING IN FRANCE OF FINANCIAL INSTRUMENTS TRADED ON A RECOGNISED FOREIGN MARKET OR A REGULATED MARKET OF THE EUROPEAN ECONOMIC AREA (EEA)

Article 251-1

Information provided to the public, regardless of the medium, with a view to trading in financial instruments on a recognised foreign market or regulated market of the European Economic Area must be accurate, precise and truthful. It must contain no false or deceptive statement that could mislead the client.

Article 251-2

Products proposed through an act of solicitation shall be suitable to the members of the public being solicited.

If there is no adequate assurance that clients are being informed of the associated risks, the AMF may order the interested party or any other person taking part in the distribution of such products, in any way, to halt the marketing or trading thereof.

Article 251-3

Before any transaction on a recognised foreign market in financial instruments, the market operator that runs that market shall draw up a disclosure document in the market itself and the various financial instruments that it proposes. This disclosure document, in French, must be made available to financial intermediaries by the market operator. It shall state or describe the following:

1° the foreign market is recognised by the Minister for the Economy, under the terms of Article D. 423-1 of the Monetary and Financial Code.

2° The various ways in which orders are placed and executed, when these have consequences for the person initiating the order.

3° The legal nature of the products, the technical characteristics thereof and, if applicable, the evidence supporting the advertised risks and returns.

4° The validity date of the aforementioned information.

This disclosure document must be provided by the financial intermediary to each prospective client, or transmitted to him electronically, before the placing of the client's first order to buy or sell a financial instrument admitted to trading on the recognised foreign market.

For transactions on a market in derivative financial instruments, if the client does not trade on that market in the ordinary course of business, this document must be sent by registered letter with return receipt, or via the Internet, with the financial intermediary recording the date on which the client viewed or downloaded it.

No one may receive, directly or indirectly, orders or funds from the client until seven days after the date that the disclosure document was delivered, viewed onscreen or downloaded, or before the financial intermediary has received a certification bearing the handwritten or electronic signature of the client and stating, "I have read the disclosure document relating to {name of the recognised market}, transactions on that market, and the commitments that I will take on by virtue of my participation in such transactions." This waiting period applies only to the first order, however.

Article 251-4

Before any transaction on a regulated market in derivative financial instruments in the European Economic Area, and in compliance with the obligations of Section 3 of Chapter I of Title 2 of Book III, the financial intermediary shall provide or transmit electronically to each client the following information:

- 1° A statement that the regulated market in derivative financial instruments appears on the list of regulated markets of the European Economic Area published in the Official Journal of the European Union.
- 2° The various ways in which orders are placed and executed, when these have consequences for the client.
- 3° The legal nature of the products, the technical characteristics thereof and, if applicable, the evidence supporting the announced risks and returns.

If the client does not trade in the market in question in the ordinary course of business, no one may receive orders or funds from him, directly or indirectly, before the financial intermediary has received a certification bearing his signature and stating, "I have read the disclosure document relating to {name of the EEA regulated market in derivative financial instruments}, transactions on that market, and the commitments that I will take on by virtue of my participation in such transactions." This certification is needed only for the first order.

Article 251-5

Any advertisement or message disseminated by the foreign market must include the information that it has been recognised by the Minister for the Economy, under the terms of Article D. 423-1 of the Monetary and Financial Code, or that it is on the list of regulated markets in the European Economic Area published in the *Official Journal of the European Union*.

All advertisements or messages disseminated by the financial intermediary with a view to trading in financial instruments on a recognised foreign market must contain the following information:

All advertisements or messages disseminated by the financial intermediary with a view to trading on a regulated market in derivative financial instruments of the European Economic Area must mention that the market appears on the list of such markets published in the *Official Journal of the European Union*.

Article 251-6

The AMF:

- 1° Shall receive, for information, the disclosure document drawn up by the market operator that runs the recognised foreign market.

2° Shall request that all recognised foreign markets keep it informed of any substantial changes in the way they operate and send it data on their activities in French territory, as specified in an AMF instruction.

3° May require the market operator that runs a recognised foreign market to make available to the AMF all information needed to support the claims or statements appearing in the disclosure document provided for in Article 251-3 and, if need be, may request modification thereof.

4° May require any person referred to in Article D. 423-3 of the Monetary and Financial Code to produce any elements likely to support the claims or representations made in the advertisements or messages referred to in Article 251-4, and to require their amendment, as needed.

Article 251-7

Only Articles 251-1, 251-2, 251-4 and 251-5 apply to recognised markets in derivative financial instruments on commodities in the European Economic Area, when such market is operated by a market operator that also runs a regulated market in the derivative financial instruments appearing on the list of such markets published in the Official Journal of the European Union.

TITLE VI - FAIRNESS OPINIONS

CHAPTER I - APPOINTING AN INDEPENDENT APPRAISER

Article 261-1

I. - The target company of a takeover bid shall appoint an independent appraiser if the transaction is likely to cause conflicts of interest within its Board of Directors, Supervisory Board or governing body that could impair the objectivity of the reasoned opinion mentioned in Article 231-19 or jeopardise the fair treatment of shareholders or bearers of the financial instruments targeted by the bid.

The situations described below, in particular, constitute such cases:

1° if the target company is already controlled by the offeror, within the meaning of Article L. 233-3 of the Commercial Code, before the bid is launched;

2° if the senior managers of the target company or the persons that control it, within the meaning of Article L. 233-3 of the Commercial Code, have entered into an agreement with the offeror that could compromise their independence;

3° if the controlling shareholder, within the meaning of Article L. 233-3 of the Commercial Code, does not tender its securities to a buyback offer launched by the company for its own securities;

4° if the offer is related to one or more transactions that could have a significant impact on the price or exchange ratio of the proposed offer;

5° if the offer pertains to financial instruments in multiple categories and is priced in a way that could jeopardise the fair treatment of shareholders or bearers of the financial instruments targeted by the bid;

6° if the non-equity financial instruments mentioned in Point 1° of Part II of Article L. 211-1 of the Monetary and Financial Code that give or could give direct or indirect access to the capital or voting rights of the offeror or of a company belonging to the offeror's group are provided as consideration for the takeover of the target company.

II. - The target company shall also appoint an independent appraiser before implementing a squeeze-out, subject to the provisions of Article 237-16.

Article 261-2

Any issuer that carries out a reserved capital increase at a discount to the market price greater than the maximum discount authorised for capital increases without pre-emptive subscription rights and giving a shareholder, acting alone or in concert within the meaning of Article L. 233-10 of the Commercial Code, control over the issuer within the meaning of Article L. 233-3 of the aforementioned code, shall appoint an independent appraiser who will apply the provisions of this title.

Article 261-3

Any issuer or offeror carrying out a takeover bid may appoint an independent appraiser who will apply the provisions of this title.

Article 261-4

I. - The independent appraiser must not be placed in a conflict of interest in relation to the parties concerned by the public offer or transaction and their advisors. An AMF instruction shall describe situations in which the independent appraiser is considered to be placed in a conflict of interest, although this shall not constitute an exhaustive list.

The independent appraiser shall not work repeatedly with the same sponsoring institution(s) or within the same group if the regular nature of such work could compromise his independence.

II. - The appraiser shall prepare a statement certifying that there are no known past, present or future ties between him and the parties concerned by the offer or transaction and their advisors that could compromise his independence or impair the objectivity of his assessment when carrying out the appraisal.

If there is the risk of a conflict of interest but the appraiser deems this unlikely to compromise his independence or impair the objectivity of his assessment, he shall mention this risk in his statement, including relevant supporting information.

CHAPTER II - APPRAISAL REPORT**Article 262-1**

I. - The independent appraiser prepares a report on the financial terms of the offer or transaction. Content requirements for the report are set out in an AMF instruction. In particular, the report contains the statement of independence mentioned in Part II of Article 261-4, a description of the verifications performed and a valuation of the company in question. The report's conclusion takes the form of a fairness opinion.

No other type of opinion shall count as a fairness opinion.

II. - Once appointed, the appraiser must have sufficient time to prepare the report mentioned in Part I, taking into account the complexity of the transaction and the quality of the information provided to him. The appraiser shall have at least fifteen trading days to prepare his report.

Article 262-2

I. - In the cases provided for in Article 261-2, the issuer shall distribute the report by the independent appraiser at least ten trading days before the general meeting convened to authorise the transaction, or, where the meeting has exercised its powers of delegation, as soon as possible after the decision by the Board of Directors or Management Board. The report shall be distributed by:

1° making it available free of charge at the issuer's registered office;

2° publishing a news release in accordance with Article 221-3;

3° publishing it on the issuer's website.

II. - An issuer that appoints an independent appraiser pursuant to Article 261-3 shall follow the procedures set forth in Part I when publishing the appraiser's report.

CHAPTER III - RECOGNITION OF PROFESSIONAL ASSOCIATIONS**SECTION 1 - REQUIREMENTS FOR AMF RECOGNITION****Article 263-1**

A professional association of independent appraisers may be recognised, at its request, by the AMF.

Article 263-2

I. - The professional association shall draw up a code of conduct setting out the basic principles with which its members must comply.

Members of the association may adapt these principles to reflect their size and organisation.

II. - The code of conduct shall set out, inter alia:

1° the principles governing the independence of appraisers;

2° the expertise and resources that appraisers must have;

3° the rules of confidentiality to which they are subject;

4° procedures for taking on and carrying out appraisals and quality controls to verify work done by association members.

III. - The code of conduct shall detail the disciplinary action applicable in the event of breaches.

IV. - The code of conduct may be consulted at any time at the association's registered office by any person who so requests. The code shall also be published on the association's website provided the association has such a site.

Article 263-3

The association must have the staff and technical resources needed to carry out its mission on an ongoing basis.

The technical resources shall include, inter alia, a data storage facility for the retention of documents, in particular reports by independent appraisers belonging to the association, for at least five years.

SECTION 2 - RECOGNITION PROCEDURE

Article 263-4

Recognition of a professional association shall be subject to prior filing of an application with the AMF containing:

1° the articles (*statuts*) of the association;

2° a *curriculum vitae* and an extract from the judicial record (*casier judiciaire*) for each of the association's legal representatives;

3° a three-year projected budget for the association;

4° a draft code of conduct;

Investment services providers shall establish and maintain an effective conflicts of interest policy, set out in writing and appropriate to their size and organisation and to the nature, scale and complexity of their business.

Where an investment services provider is a member of a group, its conflicts of interest policy must also take into account any circumstances, of which it is or should be aware, that may give rise to a conflict of interest as a result of the structure and business activities of the other members of the group.

Article 313-21

I. - The conflicts of interest policy established in compliance with Article 313-20 must specifically:

- 1° Identify, with reference to the investment services provider's investment services, ancillary services and other activities, the circumstances which constitute or may give rise to a conflict of interest entailing a material risk of damage to the interests of one or more clients when providing an investment service or an ancillary service or management of a collective investment scheme;
- 2° Specify procedures to be followed and measures to be adopted in order to manage such conflicts.

II. - The procedures and measures provided for in Point 2° shall be designed to ensure that relevant persons engaged in different business activities involving a conflict of interest of the kind specified in Point 1° carry on those activities at a level of independence appropriate to the size and activities of the investment services provider and of the group to which it belongs, and to the materiality of the risk of damage to clients' interests.

The procedures to be followed and measures to be adopted shall include such of the following as are necessary and appropriate for the investment services provider to ensure the requisite degree of independence:

- 5° Measures to prevent or control the simultaneous or sequential involvement of a relevant person in separate investment or ancillary services or activities where such involvement may impair the proper management of conflicts of interest;

6° Measures to ensure that a relevant person from a portfolio management company may only provide paid advisory services in that capacity and on behalf of the portfolio management company to companies issuing the securities held by the collective management schemes under the company's management or the securities that it plans to acquire, regardless of whether it is the company concerned or the collective investment scheme under management that pays for those services.

If the adoption or the practice of one or more of those measures and procedures does not ensure the requisite degree of independence, investment services providers shall adopt such alternative or additional measures and procedures as are necessary and appropriate for those purposes.

Article 313-22

Investment services providers shall keep and regularly update a log of the kinds of investment service or ancillary service and other activity carried out by it or on its behalf where a conflict of interest entailing a material risk of damage to the interests of one or more clients has arisen or, in the case of ongoing activities, is likely to arise.

CIS unit holders or shareholders shall be informed, using a durable medium, of the decision taken by the investment services provider.

Professional clients may ask investment services providers to treat them as retail clients in all their dealings or for specific financial instruments, investment services or transactions.

If the provider agrees to such a request, an agreement shall be drawn up on paper or in another durable medium that sets out the financial instruments, investment services and transactions concerned.

Sub-section 2 - Professional client treatment option

Article 314-6

Retail clients may waive some of the protection provided by the conduct of business rules referred to in this Chapter.

In this case, investment services providers may treat retail clients as professional clients, subject to compliance with the criteria and procedure mentioned below. However, retail clients must not be presumed to have market knowledge and experience that are comparable to those of the clients referred to in Sub-section 1 of this Section.

The lower level of protection provided by the conduct of business rules shall not be deemed valid unless the investment services provider conducts an adequate assessment of the client's skill, experience and knowledge to obtain reasonable assurance that, with regard to the transactions and services considered, the client is able to make investment decisions and understand the risks incurred.

The aptitude criteria applied to the directors and senior managers of authorised undertakings on the basis of financial Directives may be considered as one way of assessing a client's skill and knowledge. In the case of a small undertaking that does not meet the criteria in 2 of I of Article D. 533-11 of the Monetary and Financial Code, the assessment should be made of the person authorised to carry out transactions in the name of the undertaking.

The assessment must find that at least two of the following criteria are satisfied:

- 1° The person must hold a portfolio of financial instruments worth more than EUR 500,000.
- 2° The person must have carried out an average of at least ten major trades in financial instruments per quarter over the previous four quarters.
- 3° The person must have held a professional position in the financial sector for at least one year that required knowledge of investments in financial instruments.

An AMF Instruction shall specify the terms and conditions for the application of this Article.

Article 314-7

The clients referred to in Article 314-6 may not waive the protection afforded by the conduct of business rules unless they follow the procedure set out below:

- 1° The client shall notify the investment services provider in writing of his wish to be treated as a professional client at all times, or for a specific investment service or transaction, or else for a specific type of transaction or product.
- 2° The investment services provider shall provide a clear written explanation of the protections and compensation rights that the client may be waiving.
- 3° The client shall make a written declaration that is separate from the contract that he is aware of the consequences of waiving the abovementioned protections.

Before deciding to accept the waiver, the investment services provider shall be required to take all reasonable measures to ascertain that the client wishing to be treated as a professional client meets the criteria set out in Article 314-6.

Sub-section 3 - Eligible counterparties

Article 314-8

Eligible counterparties referred to in Article L. 533-20 of the Monetary and Financial Code may ask investment services providers to treat them as professional clients or retail clients in all their dealings or for specific financial instruments, investment services or transactions.

If the provider accepts this request, it shall treat the eligible counterparty as a professional client or a retail client, as the case may be.

Article 314-9

If one of the entities referred to in Article 314-8 asks to be treated as a client, without specifically asking to be treated as a retail client, and if the investment services provider accepts that request, the provider shall treat the said entity as a professional client.

However, if the said entity specifically asks to be treated as a retail client, and if the investment services provider accepts that request, the provider shall treat the said entity as a retail client.

SECTION 6 - HANDLING AND EXECUTING ORDERS

Sub-section 1 - General provisions

Paragraph 1 - Principles

Article 314-65

I. - If a client passes a limit order for shares admitted to trading on a regulated market that is not executed immediately under the prevailing market conditions, the investment services provider shall, unless explicitly instructed otherwise by the client, take measures to facilitate execution of the order as soon as possible by making the order public immediately in a way that is easily accessible to other market participants under the conditions stipulated in Article 31 of Regulation (EC) 1287/2006 of 10 August 2006.

II. - The investment services provider shall be deemed to satisfy the provisions of I if it transmits the order to a regulated market or a multilateral trading facility.

III. - The provisions of I shall not apply to limit orders that are large in scale compared with normal market size, as defined in Article 20 of Regulation (EC) 1287/2006 of 10 August 2006.

Article 314-66

I. - Investment services providers shall comply with the following requirements for the execution of client orders:

- 1° They shall ensure that client orders are registered and routed rapidly and accurately;

2° They shall transmit or execute client orders rapidly in their order of arrival, unless the nature of the order or prevailing market conditions do not make this possible, or the interests of the client call for a different action;

3° They shall inform retail clients of any major problems that could affect the proper transmission and execution of orders as soon as they become aware of such problems.

II. - Where investment services providers are given the task of supervising or organising the settlement of an executed order, they shall make all reasonable arrangements to ensure that the client financial instruments or funds received in settlement of the executed order are rapidly and correctly allocated to the account of the appropriate client.

III. - Investment services providers must not misuse information about client orders pending execution and they shall be required to take all reasonable measures to prevent misuse of such information by any of the relevant persons referred to in Article 313-2.

IV. - Investment services providers managing collective investment schemes or providing portfolio management services shall define the planned allocation of the orders they give beforehand. As soon as they learn that they orders have been executed, they shall transmit to the collective investment scheme depositary or the account keeper exact instructions for the allocation of the orders executed to the beneficiaries. This allocation shall be final.

Paragraph 2 - Grouped orders

Article 314-67

I. - Investment services providers must not group client orders with other client orders or with transactions for their own account prior to transmission or execution, unless the following conditions are met.

1° The grouping of orders and transactions is unlikely to be detrimental overall for any of the clients whose orders have been included;

2° Each client whose orders may be grouped is informed that the grouping may have a detrimental effect for him compared to the execution of an individual order;

3° An order allocation policy has been established and is effectively applied to ensure by means of sufficiently specific procedures an equitable allocation of grouped orders and transactions, explaining how, in each case, the order quantities and prices determine the allocations and the treatment of partially executed orders.

II. - Where an investment services provider groups an order with one or more other client orders and the grouped order is partially executed, the provider shall allocate the corresponding transactions in accordance with its order allocation policy referred to in 3° of I.

Article 314-68

I. - Any investment services provider that has grouped a transaction for its own account with one or more client orders shall refrain from allocating the corresponding transactions in a way that is detrimental to a client.

II. - In cases where an investment services provider groups a client order with a transaction for its own account and the grouped order is partially executed, the client shall have the priority for the allocation of the corresponding transactions rather than the investment services provider.

However, if the investment services provider is able to demonstrate reasonably that, without the grouping of orders, it would not have been able to execute the order on such advantageous terms, or even at all, it may then allocate the transaction for its own account proportionately, in accordance with its order allocation policy referred to in 3° of I of Article 314-67.

III. - Investment services providers shall establish procedures under their order allocation policies referred to in 3° of I of Article 314-67 to prevent transactions for their own account executed in combination with client orders from being reallocated using procedures that are unfavourable to clients.

Sub-section 2 - Best execution obligation

Paragraph 1 - Principles

Article 314-69

For the purposes of I of Article L. 533-18 of the Monetary and Financial Code, investment services providers executing client orders shall take account of the following criteria to determine the relative importance of the factors referred to in I of the said Article:

- 2° The characteristics of the order concerned;
- 3° The characteristics of the financial instruments covered by the order;

Paragraph 2 - Execution of retail client orders

Article 314-71

I. - Where investment services providers execute orders on behalf of retail clients, best execution shall be determined on the basis of the total cost.

The total cost shall be the price of the financial instrument, plus the costs relating to execution, including all the expenses incurred by the client that are directly linked to the execution of an order, along with the charges specific to the execution venue, clearing and settlement charges and all other charges that may be paid to third parties participating in the execution of an order.

II. - In order to ensure best execution when several competing execution venues are able to execute an order involving a financial instrument, investment services providers shall evaluate and compare the results that could be obtained for the client by executing the order in each of the execution venues included in the execution policy referred to in II of Article L. 533-18 of the Monetary and Financial Code that is able to execute the said order.

As part of this evaluation, investment services providers shall consider their own commissions and costs that they charge for executing an order in each of the eligible execution venues.

III. - Investment services providers shall not structure or charge their commissions in a way that introduces unfair discrimination between execution venues.

Paragraph 3 - Execution policy

Article 314-72

Investment services providers shall be required to provide their retail clients with the following information about their execution policy in good time, prior to the provision of services:

- 1° The relative importance that the investment services provider attributes to the factors referred to in I of Article L. 533-18 of the Monetary and Financial Code based on the criteria referred to in Article 314-69 or the process by which the relative importance of these criteria is determined;

- 3° A clear warning that specific instructions given by a client may prevent the investment services provider from taking the measures called for and applied under its execution policy with regard to the items covered by such instructions.

This information shall be provided in a durable medium and published on a website, provided that the requirements laid down in Article 314-27 are met.

Paragraph 4 - Supervision of execution policies

Article 314-73

Investment services providers shall supervise the effectiveness of their arrangements for order execution and their policy on this matter in order to detect any deficiencies and to remedy them as appropriate.

In particular, they shall periodically verify whether the execution systems stipulated under their order execution policies obtain the best possible result for the client or whether they need to modify their execution arrangements.

Investment services providers shall notify clients of any material changes in their order execution arrangements or policies.

Article 314-74

Investment services providers shall conduct an annual review of their order execution arrangements and policies.

Such a review must also be conducted whenever a material change occurs affecting the investment services provider's ability to continue obtaining best execution for its clients on a consistent basis using the execution venues stipulated under its order execution policy.

Sub-section 3 - Obligations of providers that receive and transmit orders or manage portfolios or collective investment schemes

Article 314-75

The relative importance of these factors shall be determined with reference to the criteria defined in Article 314-69, and, in the case of retail clients, the requirement laid down in I of Article 314-71.

Investment services providers sending orders to another entity for execution shall meet the obligations referred to in I or II and shall not be required to take the measures referred to in the preceding paragraph in cases where they follow specific instructions from their clients.

V. - Investment services providers shall establish and implement policies that enable them to comply with the obligation referred to in IV. Such policies shall select the entities to which orders for each class of instruments are transmitted for execution. The selected entities must have order execution mechanisms that enable the investment services providers to comply with their obligations under the terms of this Article when they transmit orders to that entity for execution. Investment services providers shall provide their clients or unit holders or shareholders in collective investment schemes that they manage with appropriate information about their policies developed for the purposes of this paragraph. In the case of collective investment schemes, this information shall be included in the management report.

VI. - Investment services providers shall monitor the effectiveness of the policies established for the purposes of V on a regular basis, especially with regard to the quality of the execution provided by the entities selected under their policies.

Where appropriate, they shall remedy any deficiencies brought to light.

2° It is consistent with the investment management objective as set forth in the prospectus.

3° The share of outperformance allocated to the management company must not induce that company to take excessive risk with regard to the investment strategy, investment objective and risk profile set forth in the prospectus of the collective investment scheme.

Article 314-79

All fees and commissions paid by clients or by collective investment schemes for transactions in portfolios under management, with the exception of subscription and redemption transactions relating to collective investment schemes or investment funds, shall be trading costs. They include:

Article 314-97

Where investment services providers provide portfolio management for a retail client whose portfolio includes an uncovered open position in a contingent liability transaction, they shall also report to the retail client any losses exceeding any predetermined threshold, agreed between the provider and the client, no later than the end of the business day on which the threshold is exceeded or, in a case where the threshold is exceeded on a non-business day, the close of the next business day.

Sub-section 3 - Reporting on collective investment scheme management

Article 314-98

Article 314-99

Portfolio management companies must provide holders with all necessary information about the management of the collective investment schemes.

An AMF Instruction shall specify the terms and conditions on which annual reports shall indicate the frequency of the transactions carried out by collective investment schemes.

Collective investment schemes' annual reports must contain, where relevant, information about the financial instruments in the portfolio that have been issued by the portfolio management company or entities from its group. The annual reports must also mention, where relevant, collective investment schemes and investment funds managed by the portfolio management company or entities from its group.

Article 314-100

Portfolio management companies shall draw up a document titled "Voting Policy", which shall be updated as necessary and sets out the terms and conditions on which they intend to exercise the voting rights attached to the securities held by collective investment schemes that they manage.

In particular, this document shall describe:

- 1° The organisational structure within the portfolio management company that enables it to exercise such voting rights. It shall specify which bodies within the portfolio management company are responsible for examining and analysing the resolutions put forward and which bodies are responsible for deciding how the votes shall be cast.
- 2° The principles to which the portfolio management company intends to refer in determining in which cases it will exercise the voting rights. These principles may include holding thresholds that the portfolio management companies set for taking part in voting on resolutions submitted to general meetings. In such cases, portfolio management companies shall explain their choice of threshold. These principles may also concern the nationality of the issuing companies whose securities are held by collective investment schemes managed by the portfolio management company, the investment policy of the schemes, and the use of securities financing transactions by the portfolio management company.
- 3° The principles to which the portfolio management company intends to refer when exercising voting rights. The portfolio management company's document shall present its voting policy, heading by heading, corresponding to the types of resolution submitted at general meetings. The headings shall cover, *inter alia*:

 - g) Any other specific type of resolution that the portfolio management company wishes to identify.
- 4° A description of procedures to detect, prevent and manage conflicts of interest that could affect the portfolio management company's independent exercise of voting rights.
- 5° An indication of the way in which it customarily exercises voting rights, such as by physically attending general meetings, using proxies without indicating a specific proxy holder, or voting by mail.

This document shall be made available to the AMF. It may be viewed on the asset management company's website or at its registered office under the terms and conditions specified in the prospectus. It shall be freely available to CIS unit holders or shareholders upon request.

Article 314-101

In a report drawn up within four months of the end of its financial year and appended to the management report of the board of directors or executive board, as the case may be, portfolio management companies shall report on how they have exercised voting rights in the past year.

This report shall specify, *inter alia*:

- 1° The number of companies in which the portfolio management company exercised voting rights, compared with the total number of companies in which it had voting rights;
- 2° The cases in which the portfolio management company considered that it could not adhere to the principles set forth in its voting policy document;
- 3° The conflicts of interest that the portfolio management company had to deal with in exercising voting rights attaching to securities held by the collective investment schemes that it manages.

This report shall be made available to the AMF. It must be available for viewing on the portfolio management company's website or at its registered office under the terms and conditions specified in the prospectus.

Where a portfolio management company has not exercised any voting rights during the financial year, further to the voting policy it has drawn up under Article 314-100, it does not prepare the report stipulated in this article but shall ensure that clients and investors can access said voting policy on its website.

Article 314-102

At the request of the AMF, portfolio management companies shall disclose to the AMF how they voted, or whether they abstained from voting, on each resolution and the reasons for those votes or abstentions.

To any holder of scheme units or shares who so requests, portfolio management companies shall make available disclosures relating to the exercise of voting rights on each resolution submitted to the general meeting of an issuer, whenever the number of that issuer's securities held by the scheme managed by the portfolio management company reaches or exceeds the holding threshold specified in the voting policy document referred to in Article 314-100.

These disclosures must be available for viewing at the registered office of the portfolio management company and on its website.

Article 314-103

In the annual reports of venture capital funds (FCPR), portfolio management companies shall report on their practice for the use of voting rights attaching to securities held in the funds.

The measures referred to in Articles 314-100, 314-101 and 314-102 shall apply for securities held by venture capital funds that are traded on a regulated market of a State party to the European Economic Area agreement or on a recognised foreign market.

Article 314-104

The measures referred to in Articles 314-100, 314-101 and 314-102 shall apply where management companies for Employee Investment Funds (FCPE) have been empowered to exercise the voting rights attaching to securities held by the funds.

Sub-section 4 - Reporting on financial instruments held on behalf of clients

Article 314-105

I. - Investment services providers holding financial instruments on behalf of clients shall send their clients a statement in a durable medium of their instruments at least once a year, unless the same information has already been provided in another periodic information notice.

II. - The statement of the clients' assets referred to in I must include the following information:

- 1° Details of all the financial instruments that the investment services provider held for the client at the end of the reporting period;
- 2° The extent to which the client's financial instruments were used for any securities financing transactions;

If the portfolio contains one or more transactions that are pending finalisation, the information referred to in Point 1° may be dated on either the transaction date or the settlement date, provided that such date is the same for all the data of this type given in the statement.

III. - Investment services providers holding financial instruments and providing portfolio management service may include the statement of client assets referred to in I in the periodic statements that they provide to the same clients under the terms of Article 314-91.

CHAPTER V - OTHER PROVISIONS**SECTION 1 - PRODUCTION AND DISSEMINATION OF INVESTMENT RECOMMENDATIONS****Article 315-1**

For the purposes of this Section, "investment recommendations" shall mean the general investment recommendations referred to in Article 313-25, along with the investment research produced and disseminated by investment services providers.

They shall be disseminated promptly to ensure their newsworthiness.

Sub-paragraph 1 - Identification of producers of investment recommendations and general standard for fair presentation of recommendations for dissemination**Article 315-2**

- 2° The identity of the regulatory authority with jurisdiction over the investment services provider.

Article 315-3

Investment services providers and investment analysts shall make their best efforts to ensure that:

- 2° All sources are reliable. If this is not the case, the investment recommendation shall state so clearly.
- 3° All projections, forecasts and price targets are clearly indicated as such, and the principal assumptions made in order to produce and use them are indicated.
- 4° All important sources for the investment recommendation are disclosed, including the issuer concerned and, where applicable, the fact that the recommendation was communicated to that issuer and its conclusions were modified as a consequence of such communication.
- 5° Any basis or method used to value a financial instrument or an issuer of a financial instrument, or to establish a price target for a financial instrument, is summarised in an appropriate manner.
- 6° The meaning of any recommendation made, such as "buy", "sell" or "hold", as well as any time horizon associated with such recommendation, is adequately explained, and any appropriate risk warning (including a sensitivity analysis of the assumptions used) is indicated.
- 7° The expected frequency of updates to the recommendation is disclosed, as is any material change in the policy with regard to the issuer.
- 8° The date on which the investment recommendation was first released for dissemination is clearly and prominently indicated, as are the date and time of day of any actual price mentioned for a financial instrument.
- 9° Where an investment recommendation differs from a recommendation issued during the previous twelve months regarding the same financial instrument or the same issuer, this change and the date of the earlier recommendation are indicated clearly and prominently.

Article 315-4

Investment services providers and investment analysts shall make their best efforts to be able to demonstrate, at the request of the AMF, that any one of their investment recommendations was reasonable at the time it was produced.

Sub-section 2 - Disclosure of conflicts of interest

Article 315-5

Disseminated investment recommendations shall disclose any relations and circumstances concerning the investment analyst or investment services provider that one can reasonably believe likely to impair the objectivity of the recommendation. In particular, when the provider, analyst or any person who participated in the preparation of the recommendation has a significant financial interest in one or more of the financial instruments recommended, or a significant conflict of interest with the issuer recommended, this fact shall be disclosed.

Article 315-6

The information to be disclosed regarding the investment services provider or related entities in compliance with Article 315-5 shall include, as a minimum:

- 1° Any interests held by them or conflicts of interest involving them, knowledge of which was accessible or reasonably expected to be accessible to persons who took part in preparing the recommendation.
- 2° Any interests held by them or conflicts of interest involving them that were known to persons that did not take part in preparing the recommendation but had access, or can reasonably be expected to have had access, to the recommendation before it was disseminated to clients or to the public.

Where natural or legal persons working under the authority or on behalf of the provider take part in preparing the recommendation, the information to be disclosed includes, in particular and where applicable, the disclosure that their remuneration is tied to the investment services referred to in 3, 6-1 and 6-2 of Article L. 321-1 of the Monetary and Financial Code, or to the related services referred to in 3 and 5 of Article L. 321-2 of the same Code, provided by the investment services provider or any related entity.

Article 315-7

- 1° Major shareholdings between the investment services provider and any related entity, or between the provider and the issuer, in at least the following cases:
 - a) The investment services provider or any related entity holds more than 5% of the issued share capital of the issuer.

- 2° The investment services provider, alone or with other entities, is linked to the issuer through other significant financial interests.

- 4° The investment services provider or any related entity has, during the previous twelve months, been lead manager or co-lead manager in a public offering of the issuer's financial instruments.
- 5° The investment services provider or any related entity is party to any other agreement with the issuer concerning provision of the investment services referred to in 3, 6-1 and 6-2 of Article L. 321-1 of the Monetary and Financial Code or the related services referred to in 3 and 5 of Article L. 321-2 of the same Code, provided such mention would not entail divulging confidential commercial information and provided such agreement has been in effect during the previous twelve months or has given rise during the same period to the payment of compensation or to the promise of payment of compensation.
- 6° The investment services provider and the issuer have agreed that the provider will produce and disseminate investment recommendations on the said issuer as a service to the issuer.

Article 315-8

Disseminated investment recommendations shall disclose, in general terms, the effective administrative and organisational arrangements, including information barriers, made within the investment services provider to prevent and avoid conflicts of interest with respect to investment recommendations.

Article 315-9

On a quarterly basis, the investment services provider shall publish a breakdown of the recommendations it has disseminated. This breakdown shows the proportion of recommendations that are “Buy”, “Hold”, “Sell” or equivalent terms, separately for all recommendations and for recommendations pertaining to issuers to which the provider has furnished the investment services referred to in 3, 6-1 and 6-2 of Article L. 321-1 of the Monetary and Financial Code, or the related services referred to in 3 and 5 of Article L. 321-2 of the same Code, to a significant extent during the previous twelve months.

Sub-section 3 - Adaptation of disclaimer procedures**Article 315-10**

The investment services provider shall establish a procedure adapting the provisions of Articles 315-3, 315-5 and 315-7 so that they are not disproportionate when applied to oral investment recommendations.

Article 315-11

Where the provisions of Article 315-2, 4°, 5° and 6° of Article 315-3, and Articles 315-5 to 315-9 are disproportionate compared to the length of a disseminated investment recommendation, the investment services provider may make clear and prominent reference within the recommendation to the place where such disclosures can be directly and easily accessed by the public, for example, by providing a direct link to the disclosures on the investment services provider's website.

Sub-section 4 - Dissemination of investment recommendations produced by third parties**Article 315-12**

The provisions of Articles 327-4 to 327-8 shall apply to investment services providers disseminating investment recommendations produced by others.

Article 315-13

When investment services providers disseminate investment research and recommendations produced by third parties, they must comply with the following requirements:

- 1° They must indicate clearly and prominently their own identity and the name of their competent authority.
- 2° They must meet the requirements imposed on the producer in the fourth sentence of Article 315-6 and in Articles 315-7 to 315-11, if the producer of the investment research has not previously disseminated it via a channel to which a large number of persons have access.

Sub-section 5 - Transparency in investment research disseminated from abroad**Article 315-14**

The provisions of Articles 315-1 to 315-8 and 315-10 to 315-12 shall apply to research disseminated from abroad that is accessible to investors customarily resident or established in France, whenever such research relates to:

- 1° Issuers whose financial instruments are admitted to trading on a regulated market within the meaning of Article L. 421-1 of the Monetary and Financial Code, or for which application for such admission has been made; or
- 2° Issuers whose securities are admitted to trading on an organised multilateral trading facility within the meaning of Article 524-1.

SECTION 2 - Management of inside information and restrictions to be applied within authorised providers**Sub-section 1 - Rules to prevent undue circulation of inside information****Article 315-15**

Authorised providers shall establish and maintain effective and adequate procedures to control the circulation and use of inside information within the meaning of Articles 621-1 to 621-3, taking into account the activities conducted by the group to which the authorised provider belongs and the organisation adopted by that group. These procedures, called "information barriers", shall provide for:

- 1° Identification of business segments, divisions, departments or any other entities likely to possess inside information;
- 2° Organisation, in particular physical organisation, so as to separate entities within which the relevant persons referred to in subparagraph II of Article 313-2 are likely to possess inside information;
- 3° Prohibition of disclosure of inside information by the persons possessing it to other persons, except as provided for in subparagraph 1 of Article 622-1 and after informing the compliance officer;
- 4° The conditions in which the investment service provider may authorise a relevant person assigned to a given entity to provide assistance to another entity, whenever one of the two entities is likely to possess inside information. The compliance officer shall be informed whenever the relevant person assists the entity possessing inside information;
- 5° The manner in which the relevant person benefiting from the authorisation provided for in 4° is informed of the temporary consequences thereof on the performance of his regular duties.
The compliance officer shall be informed when this person returns to his regular duties.

Sub-section 2 - Watch list

Article 315-16

To ensure compliance with the abstention requirement set forth in Articles 622-1 and 622-2, authorised providers shall establish and maintain an appropriate procedure for monitoring the issuers and financial instruments on which they have inside information. Such monitoring shall cover:

- 1° Transactions in financial instruments by the authorised provider for its own account;
- 2° Personal transactions, as defined in Article 313-9, made by or on behalf of the relevant persons referred to in the first subparagraph of Article 313-10;
- 3° General investment recommendations, within the meaning of Article 313-25, disseminated by the authorised provider.

To this end, the compliance officer shall draw up a watch list of the issuers and financial instruments on which the authorised provider has inside information.

The relevant entities shall inform the compliance officer at once when they believe they possess inside information.

In such case, the issuer or the financial instruments to which the inside information pertains shall be put on the watch list, under the supervision of the compliance officer.

The watch list shall indicate the reason for adding an issuer or financial instrument to the list and the names of the persons who have access to the inside information about it.

The provisions of the foregoing subparagraph shall not apply where the authorised provider, in its capacity as issuer of financial instruments, maintains the list provided for in Article 223-27.

The relevant entities shall inform the compliance officer when they believe that information they had previously reported pursuant to the third subparagraph has ceased to be inside information.

The contents of the watch list are confidential. Dissemination of items on the watch list is restricted to the persons designated by name in the procedures referred to in the first subparagraph of Article 315-15.

Article 315-17

The investment services provider shall exercise supervision in accordance with the procedures set forth in Article 315-16. It shall take appropriate measures if it detects an anomaly.

The investment services provider shall keep a record on a durable medium of the measures it has taken in the event of an anomaly or, if it takes no measures, of the reasons for so doing.

Sub-section 2 - Restricted list

Article 315-18

Authorised providers shall establish and maintain an appropriate procedure for monitoring compliance with any restrictions that apply to:

- 1° Transactions in financial instruments by the authorised provider for its own account;

2° Personal transactions, as defined in Article 313-9, made by or on behalf of the relevant persons referred to in the first subparagraph of Article 313-1;

3° General investment recommendations, within the meaning of Article 313-25, disseminated by the authorised provider.

II. - To this end, the compliance officer shall establish a restricted list. This list includes those issuers or financial instruments in which the authorised provider must restrict its activities, or the activities of relevant persons, because of:

1° Legal or regulatory provisions to which the authorised provider is subject other than those resulting from the abstention requirements set forth in Articles 622-1 and 622-2;

2° Undertakings made on the occasion of a financial offering.

When an authorised provider deems it necessary to prohibit or restrict the performance of an investment service, an investment activity or an ancillary service in respect of certain issuers or financial instruments, those issuers and financial instruments shall also be included on the restricted list.

Article 315-19

Authorised providers shall determine, based on the restricted list, which entities are subject to the restrictions referred to in Article 315-18 and how those restrictions shall apply.

They shall inform the relevant persons affected by the restrictions of the list and the nature of the restrictions.

Sub-section 4 - Listing of a company's securities on a regulated market in financial instruments

Article 315-31

The authorised provider advising a company on an initial listing on a financial instrument market and proposing a contract to provide services in this respect (hereinafter "lead manager") shall ensure that, prior to signing such contract, the senior managers of said company have received information describing the listing process and the legal and regulatory obligations of the company being listed.

To properly inform and prepare the company's senior managers, the lead manager shall ensure that there is sufficient time between the signing of the contract and the date the listing actually takes place. This period shall not be less than three months.

Article 315-32

The lead manager shall establish a written agreement with the company on the nature and cost of the services the lead manager proposes to provide in preparing and carrying out the initial listing and monitoring the market in the securities once listed. The authorised provider shall specify the tasks incumbent on the company in connection with its initial listing.

Article 315-33

The authorised provider must make a valuation of the company in accordance with the principles set forth in Article 314-3. To this end, the authorised provider must use recognised valuation methods and must base its valuation on objective data pertaining to the company itself, the markets in which it does business, and the competition that it faces.

Article 315-34

The lead manager is responsible for reaching a detailed agreement with the company or the seller of the shares put on the market regarding a possible over-allotment clause for increasing the size of the offering beyond that initially planned, in accordance with the requirements of Article L. 225-135-1 of the Commercial Code. The terms and conditions of such clause must be described in the prospectus.

The use of such clause by the authorised provider for any purpose other than to cover higher than expected demand is incompatible with the principle of fairness mentioned in the third sentence of Article 314-3.

Article 315-35

In allotting securities, the lead manager, in cooperation with the company concerned, ensures that the various categories of investors, other than those referred to in Article 315-37, are treated fairly. When several allotment procedures intended specifically for individual investors are applied concurrently, the lead manager shall ensure that the allotment percentages resulting therefrom are substantially equivalent.

The lead manager shall make its best efforts to satisfy demand for the securities from individual investors to a meaningful extent. This objective is deemed to have been met when there is a procedure, centralised by the market operator and characterised by an allotment proportional to applications submitted, under which at least 10% of the overall offering amount is put on the market and made accessible to individual investors.

The lead manager shall endeavour to avoid an obvious imbalance, to the detriment of individual investors, between the allotment for such investors and the allotment for institutional investors. Thus, when a placing procedure intended specifically for institutional investors coexists with one or more procedures intended specifically for individual investors, the lead manager shall endeavour to provide for a transfer mechanism to avoid an imbalance of the kind mentioned above.

Article 315-36

Any authorised provider that receives and transmits orders from clients that do not have direct access to the placing procedure but seek to participate in that procedure must inform such clients of the conditions under which the authorised provider's allotment will be apportioned among such clients.

Article 315-37

In a placing, the lead manager ensures that for any tranche reserved for a specified category of investors connected with the issuer (e.g. suppliers or clients), the characteristics of such tranche, in particular the number of securities reserved, the investors concerned, and the allotment conditions, are indicated in the prospectus and that the public is informed as quickly as possible of any changes in those characteristics.

If natural persons connected with the company (shareholders, senior managers, employees or third parties whom such persons are authorised to represent) are allowed to submit orders to the placing, the lead manager ensures that information equivalent to that referred to in the above paragraph is disclosed.

The publication of the transactions referred to in Article L. 533-24 of the Monetary and Financial Code shall be as close to real time as possible, under reasonable business conditions and in a form that is easily accessible for other market participants.

Such information shall be made public in accordance with the procedures set forth in Regulation (EC) 1287/2006 of 10 August 2006.

SECTION 5 - REPORTING TRANSACTIONS TO THE AMF**Article 315-46**

I. - Investment services providers shall report to the AMF on the transactions they carry out on any financial instrument admitted to trading on a regulated market in a State party to the European Economic Area agreement or on an organised multilateral trading facility within the meaning of Article 524-1, regardless of where and how said transactions are executed.

This requirement also applies to the French-based branches of an investment services provider that are authorised in a State party to the European Economic Area agreement other than France with respect to the transactions they carry out on French territory. Such branches also have the option of informing the AMF of reports relating to transactions executed outside French territory.

Transactions carried out by an investment services provider's branch that is based in a State party to the European Economic Area agreement other than France need not be reported to the AMF if they are reported to the competent authority of said state.

II *bis*. - The obligation referred to in I shall also apply to transactions by the entities referred to in I other than asset management companies in a financial instrument not admitted to trading on a regulated market in a State party to the European Economic Area agreement or on an organised multilateral trading facility within the meaning of Article 524-1 if the value of that instrument depends on a financial instrument admitted to trading on such a market or facility.

II. - The transactions referred to in paragraph I include transactions undertaken for own account by an entity mentioned therein that have been entrusted for execution to another investment services provider authorised in a State party to the European Economic Area agreement or by an equivalent foreign institution.

III. - The report shall pertain to the transactions specified in Article 5 of Regulation (EC) No 1287/2006 of 10 August 2006 and shall be made once the transaction has been effected or by the following business day at the latest.

IV. - The provisions of this article shall not apply where the entity provides the services of receiving and transmitting orders for third parties, as defined in Article D. 321-1 of the Monetary and Financial Code.

V. - The implementing arrangements for this article will be set out in an AMF Instruction.

Article 315-47

The content of the report referred to in Article 315-46 is specified in an AMF Instruction.

Article 315-48

I. - Subject to the provisions of paragraph II, the entities referred to in Article 315-46 shall report their transactions to the AMF, in accordance with the technical procedures specified in an AMF instruction, either

- 1° directly, using the direct procedure established with the AMF and described in an AMF instruction, or
- 2° by appointing a third party to implement said procedure.

II. - The entities referred to in paragraph I of Article 315-46 are not required to report their transactions to the AMF if the report referred to in Article 315-47 is sent to the AMF, in accordance with the technical procedures specified in an AMF instruction, either:

- 1° by a regulated market or a multilateral trading facility in a State party to the European Economic Area agreement, for transactions effected on their systems, provided that the rules of said facility distinguish between own-account dealing and transactions undertaken on behalf of its members, or

Article 315-52

The portfolio management company shall appoint a member of management to be responsible for implementing the anti-money laundering and terrorist financing system stipulated in Article L. 561-32 of the Monetary and Financial Code.

This manager may delegate some or all of the implementation under the following conditions:

The manager shall remain responsible for the delegated activities.

Article 315-53

The portfolio management company shall ensure that the reporting party and correspondent referred to in Articles R. 561-23 and R. 561-24 of the Monetary and Financial Code have access to all the information they need to perform their duties. The company shall provide them with the appropriate tools and resources to comply with their obligations relating to the prevention of money laundering and terrorist financing.

The abovementioned reporting party and correspondent shall also be informed of:

- 2° Implementing vigilance measures, such as:
 - a) The requirements and procedures for accepting new clients and occasional clients;
 - b) Due diligence for identifying and obtaining knowledge about clients, beneficial owners and the purpose and nature of the business relationship. The frequency of these information updates shall be specified;

f) Managing free cash;

g) Monitoring receipts and dealing with disputes, if any.

3° Responsibility for determining the execution price may be delegated to an investment services provider running a multilateral trading facility or to a major market undertaking.

Paragraph 4 - Supervision and revocation of authorisation

Article 321-45

The AMF conducts documentary audits and on-site inspections to monitor compliance with the commitments made in the authorisation application.

Article 321-46

Before the authorisation referred to in Article L. 214-47 of the Monetary and Financial Code is revoked, the management company is asked to explain itself or is given formal notice to remedy the situation at issue.

The AMF shall inform the management company of its decision by letter, stating the grounds for such decision.

If authorisation is revoked, the management company may not pursue its activities, other than those necessary to ensure continuity of day-to-day management of the real estate investment companies for which it is responsible, until such activities are transferred to another management company, as provided in this Article.

The revocation of authorisation of a management company of a real estate investment company takes effect two months after notification thereof.

Where authorisation is revoked, a general meeting is called at each of the real estate investment companies concerned within two months of the revocation decision in order to choose another management company.

Sub-section 2 - Conduct of business rules and other professional obligations

Article 321-47

Within six months of the end of its financial year, the management company must send the AMF a copy of its annual financial statements and management report.

Article 321-48

Management companies shall apply Articles 315-51 to 315-58.

SECTION 3 - MANAGEMENT COMPANIES OF FORESTRY INVESTMENT COMPANIES

Sub-section 1 - Authorisation

Paragraph 1 - Authorisation

Article 321-49

Authorisation of a management company, which is provided for in Article L. 214-67 of the Monetary and Financial Code, shall be subject to prior filing of an application with the AMF containing the elements stipulated in an AMF instruction.

In the light of this filing and the criteria set forth in Article L. 214-68 of the Monetary and Financial Code, the AMF assesses the organisation and technical and human resources of the management company, the skill, fitness and properness of its senior managers, and the provisions for ensuring transaction security.

The AMF may ask the applicant to supply any additional information that it needs to take a decision.

The management company may not conduct any business until the AMF authorises it to do so.

Article 321-50

Before issuing such authorisation, the AMF seeks the opinion of the Centre National Professionnel de la Propriété Forestière.

Article 321-51

After authorisation has been issued, the management company informs the AMF immediately of any changes affecting the key elements of its initial filing.

The AMF assesses whether the changes could affect the issued authorisation.

Paragraph 2 - Organisation**Article 321-52**

The management company must give sufficient warranties as regards its organisation, its technical and human resources, and the skill, fitness and properness of its senior managers.

It must act solely in the interest of investors and must not engage in any activity that could lead to a conflict of interest.

Paragraph 3 - Delegation of powers**Article 321-53**

I. - Delegations that have been given are referred to in the documents submitted to the AMF.

The following responsibilities may not be delegated:

- 1° Setting objectives for inflows, the terms and conditions for capital increases, and the terms and conditions for marketing the units;

- 7° Monitoring logging and other work and sales of wood.

III. - Investment management of cash and equivalent assets may be delegated solely to management companies of forestry investment company or to portfolio management companies.

Paragraph 4 - Supervision and revocation of authorisation**Article 321-54**

The AMF may at any time conduct documentary audits and on-site inspections to monitor compliance with the commitments made in the authorisation application.

Article 321-55

Before authorisation is revoked, the management company of a forestry investment company is asked to explain itself or is given formal notice to remedy the situation at issue.

The AMF informs the management company of its decision by letter, stating the grounds for such decision.

If authorisation is revoked, the management company may not pursue its activities, other than those necessary to ensure continuity of day-to-day management of the forestry investment companies for which it is responsible, until such activities are transferred to another management company, as provided in this Article.

The revocation of authorisation of a management company of a forestry investment company takes effect two months after notification thereof.

Where authorisation is revoked, a general meeting is called at each of the forestry investment companies concerned within two months of the revocation decision in order to choose another management company.

Sub-section 2 - Conduct of business rules and other professional obligations**Article 321-56**

A forestry investment company may not place more than 10% of its liquid assets in the interest-bearing notes (*bons de caisse*) and debt securities of any single issuer.

Article 321-57

Management companies shall apply Articles 315-51 to 315-58.

CHAPTER II - CUSTODY ACCOUNT-KEEPERS**SINGLE SECTION - RULES OF CONDUCT AND OTHER PROFESSIONAL OBLIGATIONS:
PERFORMANCE REQUIREMENTS OF CUSTODY ACCOUNT-KEEPERS****Sub-section 1 - General provisions****Paragraph 1 - Obligations relating to the fight against money laundering and financing of terrorism****Article 322-1**

A custody account-keeper must have an organisational structure and procedures to meet the vigilance and reporting requirements for the prevention of money laundering and terrorist financing, as set forth in Title VI of Book V of the Monetary and Financial Code and its implementing regulations.

Paragraph 2 - Relations with customers**Article 322-2**

The operating principles for customer accounts in financial instruments are set forth in the agreement between the custody account-keeper and the account holder.

This agreement identifies the respective rights and obligations of the parties. It specifies the manner in which the account-holder is provided with statements showing the nature and number of financial instruments held in the account.

Article 322-3

Before a financial instrument account is opened in the name of a natural person, the custody account-keeper verifies that person's identity as well as, if applicable, the identity of the person on whose behalf the customer is acting.

The authorised provider verifies that the customer has the requisite capacity and authority to open such account.

If the customer is a legal person, the provider verifies that the representative of the said legal person is duly empowered to act, either by virtue of being a legal representative of the customer or under a mandate or delegation of powers to the representative. To this end, the provider requests the production of any documents enabling it to verify that the said representative has been duly empowered.

The custody account-keeper may require natural and legal persons subject to the law of another State to present an affidavit of foreign law attesting that the contemplated transactions are lawful under the legislation of that State.

The financial instrument account must mention the items of identification provided by the persons in whose name it is opened and any special provisions or situations affecting the exercise of their rights.

Article 322-4

The custody account-keeper must in all circumstances meet the following obligations:

- 1° The custody account-keeper does its utmost to safeguard the financial instruments in its custody and, to this end, ensures that all financial instruments and movements affecting them are booked in strict accordance with applicable rules and procedures. The custody account-keeper also does its utmost to facilitate the exercise of rights attached to financial instruments in its custody.
- 2° The custody account-keeper may not make any use of the financial instruments and attached rights in its custody, nor transfer title thereto, without the express consent of the holder. The custody account-keeper organises its internal procedures to ensure that any movement affecting the financial instruments it holds in custody on behalf of third parties is justified by a properly recorded transaction in a third-party account.
- 3° The custody account-keeper has an obligation to return any financial instruments held in book entry form on its books.

If such instruments exist only in book-entry form, the custody account-keeper responsible for making those entries transfers the instruments to the custody account-keeper that the account holder designates. Such transfer is carried out as quickly as possible provided the account holder has fulfilled his own obligations.

Subject to the accounting provisions set forth in Article 322-17, the custody account-keeper ensures that the assets of its customers, including those of any collective investment scheme for which it is custodian, are segregated from its own assets on the books of any central securities depositories of which it is a member.

When the custody account-keeper uses the services of an agent, as provided for in Article 322-39, it ensures that the same segregation is made on the books of the agent.

Administered registered financial instruments shall be held in book entry form with the issuer in the name of the owner, in accordance with the information provided by the custody account-keeper that administers the instruments.

Article 322-5

The custody account-keeper must inform each holder of a financial instrument account as quickly as possible of:

- 1° Corporate actions requiring a response from the holder;
- 2° Items needed for preparing the account holder's tax return;
- 3° Events affecting the account holder's rights in respect of the financial instruments in custody, whenever the account-keeper has reason to believe the account holder is unaware of them;
- 4° Executed trades or other movements in the financial instruments or cash held in the account holder's name.

However, when the account holder is enrolled in a retirement savings plan and has elected to have certain transactions made repeatedly and systematically on his account, the custody account-keeper may inform the holder of the execution of those transactions once every six months.

The custody account-keeper issues to any account holder that so requests an attestation specifying the nature and number of financial instruments held in the holder's account as well as any particulars thereon. A statement of this kind is sent periodically, at least once a year.

Article 322-6

The custody account-keeper ensures that, barring any legal or regulatory provision to the contrary, any movement of financial instruments affecting the account of an account holder is carried out only on the instruction of that account holder, his representative, or, in certain cases such as inheritances, an authorised third party.

If the holder has entrusted the management of his portfolio to an agent under an investment mandate, the custody account-keeper obtains an attestation signed by both the account holder and the agent, drawn up in accordance with a model specified in an AMF instruction.

Any transaction or event creating new rights or altering the existing rights of an account holder gives rise to a record entry as soon as such rights arise or are modified.

When the transaction consists of a movement of cash or rights and a corresponding movement of financial instruments, both movements are booked at the same time.

Article 322-7

The provisions of Articles 516-1 to 516-14 apply to custody account-keepers.

Paragraph 3 - Resources and procedures**Article 322-8**

The custody account-keeper must have resources and procedures that comply with the requirements of this Section. These requirements relate to matters such as human resources, information systems, accounting, customer protection and the compliance and internal control system.

The custody account-keeper must at all times be able to show that these requirements are being met.

Sub-paragraph 1 - Human resources**Article 322-9**

A description of the various functions and job positions is drawn up, specifying the skills and qualifications needed for each function or position.

A detailed organisation chart of the custody account-keeping departments is drawn up. It is accompanied by a document describing the role and responsibilities of each of the units identified on the chart.

The custody account-keeper ensures that staff assigned to manage the information system have the skills called for by the quality standards of the information technology (IT) profession.

Article 322-10

An annual training plan is established for staff. It must be suited to their training needs and to the specific function of custody account-keeping of financial instruments.

Pursuant to this plan, all means of training required for proper conduct of the custody account-keeping activities are implemented and evaluated on a regular basis.

Article 322-11

The custody account-keeper acquires adequate human resources to respond to changes in the capital markets and the technological environment as well as to a durable or temporary increase in the volume of business.

Sub-paragraph 2 - Information system resources**Article 322-12**

The custody account-keeper has an information processing system suited to its size, its specific characteristics and the volume of transactions that it processes. It has the hardware and software needed to provide the requisite level of performance and security.

Article 322-13

The custody account-keeper has a list of the persons allowed access to its information systems and ensures that all such access is monitored.

All instances of access to the custody account-keeper's information systems are logged, and a record is kept of the changes to data processing routines resulting from each access.

Article 322-14

The general architecture of the information processing system used for custody account-keeping activities is documented. A list of hardware and software used in the system is drawn up and kept up to date.

Article 322-15

The custody account-keeper checks the quality of information processing on a regular basis. Such quality assessment is based on the criteria specified in the contracts or service agreements between the users and the IT live-production unit. Indicators are developed to measure and monitor the frequency of information processing incidents.

Article 322-16

Both physical and logical security is ensured for all information processing and data exchange systems.

In particular, the custody account-keeper ensures that data centres are physically protected and that access to the information processing systems is rigorously monitored using the means referred to in Article 322-13. A back-up plan is drawn up and appropriate procedures are put in place to ensure business continuity.

Sub-paragraph 3 - Accounting procedures**Article 322-17**

The custody account-keeper describes its accounting organisation in an appropriate document.

For the purpose of ascertaining and monitoring the rights of account holders, financial instrument accounts are kept according to the rules of double-entry book-keeping.

The terminology of these accounts and the operating rules applicable to them are specified in an AMF instruction. For purposes of control, this terminology classifies financial instruments belonging to collective investment schemes, to other clients and to the custody account-keeper itself into distinct categories.

Article 322-18

An ordinary individual financial instrument account shall not be in debit on the settlement date of any instrument sold therefrom.

The custody account-keeper shall establish procedures to:

- 1° identify any trade or disposal that could lead to a debit balance on the financial instrument account at the settlement date;
- 2° preventing the occurrence of such debit balance.

Article 322-19

Transactions are recorded on the books of account as soon as the custody account-keeper has knowledge of them.

Article 322-20

When transactions remain to be confirmed between the custody account-keeper and its counterparties, the corresponding commitments are recorded in off-book entries if they do not give rise to entries on the books of account.

Article 322-21

The accounting department provides all information needed to manage the settlement of transactions.

Article 322-22

Every book entry is justified either by

- 1° a written document, or by
- 2° unalterable electronic data.

Article 322-23

In respect of holders of accounts in administered registered financial instruments, the authorised intermediary serving as custody account-keeper is at all times able to show that the book entries for such holdings correspond exactly to those on the books of the issuing entity.

A daily record is kept of changes in registered owner that have not been transmitted to the central depository within the required time limit and are still to be transmitted.

Article 322-24

Processing procedures are organised in such a way as to ensure complete entry, reliability and safeguarding of basic data, in particular data relating to account holders, financial instruments held in custody, counterparties and corporate actions and events affecting such instruments.

Article 322-25

The processing system is able to produce the following documents for each of the financial instruments held in custody:

- 1° record of movements in the financial instruments;
- 2° record of financial instrument accounts opened under all classes of the chart of accounts.

These records are retained for the period required by applicable regulations.

Article 322-26

Data relating to customers and the transactions they make is treated and safeguarded in accordance with the obligation of professional secrecy set forth in Article 314-1.

Article 322-27

The custody account-keeper establishes an audit trail linking the cash and securities entries corresponding to a given transaction, by means of either common references or rules of administration.

Article 322-28

The accounting system for financial instruments is designed to provide evidence of the overall balance in each financial instrument on the basis of the balances in each holder's account and the balances on transactions in progress (balance audit trail) and to allow reconstruction of each balance from the detailed transactions that gave rise to it (book entry audit trail).

Such justifications may be performed on a daily basis.

Article 322-29

The accounting system for financial instruments is organised to enable verification of the accuracy of the processing procedures.

For each financial instrument, the following are checked daily:

- 1° Equality between the total of all credit entries to accounts and the total of all debit entries;
- 2° Balance between accounts with credit balances and accounts with debit balances.

The accounting system for financial instruments is also organised to enable verification of the data by means of appropriate procedures.

Article 322-30

The accounting system for financial instruments implements procedures for ongoing verification of the accuracy of available asset account balances, with the aid of documentation of the corresponding assets provided by the central depository, the custody account-keepers having custody of the financial instruments, and the legal persons that issued them by means of a public offer of securities. Any discrepancy is substantiated.

Article 322-31

The date on which receipt or delivery of financial instruments is normally expected is recorded. The recorded date takes into account the specific characteristics of cross-border transactions.

For all of the financial instruments concerned, a report on net fails in financial instruments and in cash is provided daily to the department with operating responsibility for counterparty payment and settlement transactions.

For the purposes of this Article, net fails include:

- 1° Transactions that have not been agreed within the scheduled time period.
- 2° Pending deliveries and payments relating to transactions that have been "agreed" with the counterparties but have not been completed within the scheduled time period.

The report on net fails is broken down by counterparty, and each line of the report shows the originally scheduled settlement date.

Confirmation by the counterparties of identified net fails in financial instruments or in cash is sought on a regular basis.

Sub-paragraph 4 - Customer services and investor protection

Article 322-32

Delivery of financial instruments subsequent to a transaction made by an authorised service provider for its own account, whether or not in relation to transactions made by its customers, is subject to systematic checking of availability from the service provider's own account so that no use is made of financial instruments recorded in the name of third parties. If sufficient financial instruments are not available in that account, the custody account-keeper must resort to borrowing the instruments in question.

Article 322-33

Whenever the custody account-keeper resorts to borrowing financial instruments as provided for in Article 322-32, it ensures that the financial instruments in question are received not later than the day on which those instruments are to be withdrawn from the available asset account for the purpose of making the delivery mentioned in that Article.

When the borrowed financial instruments are to be returned, the custody account-keeper ensures that it holds a sufficient quantity of financial instruments in its own account before doing so.

Article 322-34

Any movement of financial instruments in custody that is not completed within the time limits set by the market rules or the rules of payment and settlement systems is detected immediately by the information system and brought to the attention of the relevant department in order to bring the situation into compliance with requirements.

Article 322-35

Where an expected delivery of financial instruments is not received by the scheduled date, the custody account-keeper contacts the counterparty as soon as possible to claim the financial instruments in question.

Concomitantly, the missing quantity of financial instruments in custody is reconstituted either by borrowing or, if need be, by purchase, according to the terms and conditions set forth in the market rules or the rules of the payment and settlement system in question or according to the contract provisions agreed with the account holder.

Article 322-36

Whenever a customer is notified of the terms on which his stock market order has been executed, the notice shall include details of fees or commissions charged by the service providers involved including the account-keeper.

For transactions in foreign currencies, the price at which the foreign currency order was executed, the amount of fees charged in foreign currency, and the exchange rate at which the transaction was booked are indicated.

Article 322-37

The authorised provider entrusted with centralising payment of dividends reinvestable in shares ensures, in concert with the issuing entity, ensures that defined procedures for payment of coupons are in place when the operation begins and are communicated to those shareholders that:

- 1° Do not wish to reinvest in shares (indicate whether immediate payment is an option, as opposed to payment at a later date);
- 2° Have not sent in their response during the option period (official payment date).

Amounts corresponding to payments received by the service provider for the account of a customer, in particular dividends without a reinvestment option, interest on debt securities and repayments of principal, are credited to the customer's cash account as soon as the funds in question have become available to the custody account-keeper.

Article 322-38

The custody account-keeper transmits shareholders' requests for preparatory documents in advance of a general meeting to the issuer, or itself makes such documents available to the shareholders, provided that the issuer has met its contractual obligations in this regard to the custody account-keeper.

Sub-paragraph 5 - Relations with other service providers

Article 322-39

The custody account-keeper may appoint another entity as its agent for performing all or part of the tasks related to its custodial activity. When the custody account-keeper appointing an agent is not an issuing entity, such agent must be another custody account-keeper.

A custodial agency agreement is drawn up between the two parties (principal and agent). This agency agreement specifies, *inter alia*:

- 1° The tasks entrusted to the agent;
- 2° The respective responsibilities of the principal and the agent;
- 3° The procedures to be implemented by the principal to ensure oversight of the operations carried out by the agent.

Where an agent is responsible for keeping the client accounts of the principal on an individual basis, that agent shall ensure that the principal is following the procedures established pursuant to the second sub-paragraph of Article 322-18. If the agent finds that these procedures have not been implemented, it shall not proceed with settlement.

However, if the agent is unable to prevent completion of settlement because of technical factors relating to the operation of the settlement system, it shall ensure that no financial instrument belonging to clients is used for such purpose without the express agreement of those clients as called for in point 2° of Article 322-4.

Article 322-40

The custody account-keeper may, simultaneously with a custodial agency agreement or independently of such agreement, engage a third party to provide it with technical resources.

Article 322-41

When the custody account-keeper appoints an agent or engages a third party as described in Articles 322-39 and 322-40, it conducts an assessment of the resources and procedures employed and the risks incurred. This assessment is available for review by the AMF.

The liability of the custody account-keeper to the holder of a financial-instrument account is not affected by the appointment of another custody account-keeper as agent or by the engagement of a third party to provide technical resources.

However, when a custody account-keeper holds financial instruments issued under foreign law in custody for the account of a qualified investor as defined by applicable law and regulations, the custody account-keeper may agree to share liability with that investor.

Article 322-42

Relations between the custody account-keeper and the service providers assuming the functions of broker-dealer or clearer for the same investor are governed by conventions or contracts that specify the obligations of each party, so that any disputes over settlement or adjustment of securities transactions can be resolved as efficiently as possible.

Article 322-43

Risks relating to the implementation of payment and settlement processes for financial instruments must be assessed.

Article 322-44

When, on the instruction of an account holder, the custody account-keeper is to transfer a portfolio of financial instruments to another custody account-keeper, under the terms set forth in point 3° of Article 322-4, it provides as quickly as possible to the new custody account-keeper all the information needed by the latter, in particular information relating to the precise identification of the account holders concerned and the figures needed to fill out tax returns.

Article 322-45

The security of financial instruments held in custody outside France, for the account of customers and through the medium of an agent as referred to in Article 322-39, is ensured by a signed agreement between the custody account-keeper and the agent. This agreement specifies or provides for, *inter alia*:

- 1° The terms and conditions under which account(s) will be kept in the name of the custody account-keeper on the books of the agent;
- 2° The obligation of the agent to provide as quickly as possible all information relating to movements on the account(s) of the custody account-keeper, as well as periodic reports on the financial instruments on deposit;
- 3° Implementation of the requirement mentioned in the seventh paragraph of Article 322-4 (segregation);
- 4° Observance of local practices.

Sub-paragraph 6 - Control of the custody account-keeping activity

Article 322-46

The head of compliance shall ensure that the custody account-keeper complies with applicable regulations.

The head of compliance shall ensure the quality of procedures specific to custody account-keeping and the reliability of the tools used for monitoring and managing that activity.

The head of compliance shall have regularly updated documentation describing the departmental organisation, operating procedures and all risks incurred by carrying on the account-keeping activity.

The head of compliance shall be able to view the main internal management reports and shall be a recipient of anomaly reports and complaints lodged by customers or trade partners, in particular those relating to malfunctions and possible breaches of professional ethics.

Article 322-47

The head of compliance shall organise the control of the custody account-keeping activity so as to distinguish between:

- 1° Measures that ensure day-to-day control of operations;
- 2° Measures that, by means of recurring or unannounced inspections and detailed audits of operating procedures, ensure the consistency and effectiveness of the operating controls.

Article 322-48

The head of compliance shall be associated with the validation of any new accounting framework and reviews the updating of the chart of accounts.

Article 322-49

The head of compliance shall ensure that there is ongoing monitoring of counterparty risks, both credit risks and transaction risks. He shall verify that secure relations with counterparties are underpinned if necessary by the signed conventions or contracts referred to in Article 322-42.

Article 322-50

The head of compliance shall establish rules for supervising positions deemed sensitive in regard to the continuity and integrity of processing or the confidentiality of transactions.

Article 322-51

The head of compliance shall ensure that procedures exist to guarantee that customer instructions are followed and that corporate actions in financial instruments are carried out properly as regards both timely execution and updating of financial-instrument and cash accounts.

Article 322-52

The head of compliance shall ensure the effectiveness of forward-looking procedures intended to manage flows in financial instruments and cash and thereby prevent net fails and violations of the requirements of point 2° of Article 322-4.

In the event that net fails nevertheless occur, the investment services supervisor monitors the status of such net fails and the time required to clear them.

Sub-paragraph 7 - Provisions relating to sale and redemption of financial instruments

Article 322-53

The custody account-keeper shall see to it that the following provision is implemented: if any French shares sold are not credited to the seller's account on the order execution date, the seller shall be liable to the buyer for compensation equal to the amount of any dividends paid on the shares during the period from the order execution date to the settlement date.

Article 322-54

Service providers that hold, in the name of their customers, financial instruments issued by a French entity that are redeemable by random draw, must communicate to each depositor, before the drawing, the certificate, series, or tranche numbers of the instruments held in the depositor's account.

Service providers retain, in the name of each customer, copies of the statements called for in the preceding sentence and the notices informing the depositor that financial instruments held in the depositor's account have been redeemed by random draw.

Sub-section 2 - Provisions governing domiciliation of negotiable debt securities and Treasury bills

Article 322-55

Before any issue of negotiable debt securities (*titres de créances négociables*), a written agreement is concluded between the issuer and a domiciling institution responsible for ensuring the regularity of the conditions of issue.

Authorised domiciling institutions are those indicated in the ministerial order implementing Decree 92-137 of 13 February 1992 and the implementing regulations therefor.

The domiciling institution is responsible for, *inter alia*, ensuring that the amount of the issue corresponds exactly to the instructions received from the issuer. It must report the characteristics of the issue to the issuer in the manner specified by the aforementioned agreement.

The domiciling institution acts as transfer and paying agent for the issue and must fulfil the requirements for statistical reporting to the Banque de France set forth in the aforementioned ministerial order and implementing regulations.

Article 322-56

When an issuer decides to have the issuance account for an issue of negotiable debt securities kept at a central depository, the issuer informs the central depository as to which domiciling institution the issuer has appointed to transmit its instructions. The central depository opens a separate account for each issue. The central depository is responsible for ensuring that the number of securities issued is equal to the number of securities recorded on its books in the names of the custody account-keepers.

Article 322-57

When an issuer decides not to have the issuance account for an issue of negotiable debt securities kept at a central depository, its domiciling institution is responsible for ensuring that the number of securities issued is equal to the number of securities recorded on its books in the names of the other custody account-keepers.

Article 322-58

Only the provisions set forth in Articles 322-55 and 322-56 apply to Treasury bills.

Sub-section 3 - Provisions governing administration of registered financial instruments

Paragraph 1 - General provisions

Article 322-59

In accordance with point 1° of Article L. 542-1 of the Monetary and Financial Code, legal entities that issue financial instruments by means of a public offer are authorised to engage in the activity of custody account-keeping for those financial instruments.

The term "pure registered financial instrument" (*instrument financier nominatif pur*) means a registered financial instrument that the owner entrusts to be administered by the issuer.

The term "administered registered financial instrument" (*instrument financier nominatif administré*) means a registered financial instrument that the owner entrusts to be administered by a custody account-keeper. The custody account-keeper shall record the assets corresponding to the financial instruments held in book entry form with the issuer in an administration account as provided in Article R. 211-4 of the Monetary and Financial Code.

Article 322-60

When a holder of registered financial instruments elects to entrust the administration of those instruments to an authorised intermediary, as allowed by Article 4 of Decree 83-359 of 2 May 1983, the holder enters into an agency agreement with the intermediary that conforms to a model specified in an AMF instruction. The authorised intermediary notifies the issuer of such agency agreement.

When an agency agreement for administration by an authorised intermediary is terminated, that intermediary duly informs the issuer of such termination.

Article 322-61

Issuing entities keep separate books of account for each class of securities they have issued.

These books of account record pure registered financial instruments so as to distinguish them from administered registered financial instruments, as defined in Article 322-59.

A general ledger with entries made in chronological order records all transactions involving each class of financial instruments issued.

A general account opened for each issue under the heading "Issue of Registered Financial Instruments" records, on the debit side, all registered financial instruments issued by the issuer.

The corresponding credits appear in the individual accounts of holders of pure and administered registered financial instruments as well as the various accounts of registered financial instruments awaiting transfer.

Article 322-62

Recognition for the benefit of holders of rights detached from registered financial instruments is made exclusively by the custody account-keepers of administered registered financial instruments when the relevant instruments are of the administered registered type, and exclusively by the issuing entities when the relevant instruments are of the pure registered type.

Such rights are in "bearer" form if they arise from administered registered financial instruments and in "pure registered" form if they arise from pure registered financial instruments.

Regardless of the form in which they are recorded, such rights circulate in bearer form.

Article 322-63

The current accounts of issuers at the central depository for the issue record holdings of the issuer's instruments in the form of pure registered financial instruments.

The current accounts of authorised intermediaries at the central depository for the issue record separately the assets of holders of financial instruments held in bearer form and in administered registered form.

Current accounts at the central depository for the issue in financial instruments that exist exclusively in registered form, available only to investment service providers authorised to execute orders for third parties or to trade for their own account, record movements in financial instruments resulting from transactions carried out by those intermediaries on a regulated market.

Article 322-64

In the event of a change in ownership of administered registered financial instruments, a change in mode of account administration, or any other change affecting an entry in the account of a holder of an administered registered financial instrument, each custody account-keeper concerned by such change prepares the registered instrument message in the holder's name mentioned in the first paragraph of Article L. 211-19 of the Monetary and Financial Code and, if applicable, proceeds with the agreed payment and delivery of financial instruments.

When a holder of registered financial instruments instructs a custody account-keeper to manage the account he has opened with an issuer whose financial instruments are admitted to the operations of a central depository, that issuer prepares a registered instrument message. When it keeps an administration account, the custody account-keeper alone is authorised to receive orders from the holder for the instrument in question; accordingly, it draws up the registered instrument messages as specified in the preceding sentence.

A registered instrument message is evidenced by a set of computerized data, prepared in conformity with the standards set by an AMF instruction and intended for electronic transmission.

Article 322-65

In the event of a change in ownership of an administered registered financial instrument following execution of a stock market order from the holder, the custody account-keeper concerned sends the registered instrument message to the central depository not later than the second trading day following the order execution date. The central depository in turn sends the registered instrument message to the issuer not later than the following trading day, specifying the date on which it recorded the message.

Not later than the trading day following receipt of the registered instrument message, the issuer updates its accounting records. Not later than the second trading day following receipt of the registered instrument message, the issuer sends the message back to the central depository. The depository sends the registered instrument message to the intermediary concerned not later than the trading day after it received it.

The date of the movements recorded by the issuer in its accounts is the date specified by the central depository and mentioned in the first paragraph above.

Article 322-66

The custody account-keeper responsible for preparing a registered instrument message subsequent to a change in mode of administration of the account of a financial instrument holder sends the registered instrument message to the central depository not later than the second trading day following the date on which it recorded the change in the holder's account on its books. The central depository sends the registered instrument message to the custody account-keeper concerned not later than the trading day after it received it.

Article 322-67

Registered instrument messages circulate via central depositories.

The operating rules and implementing instructions of central depositories establish the technical standards that determine the data content of registered instrument messages and organise the circulation thereof.

Article 322-68

The operating rules establish the penalties to which custody account-keepers and issuers are subject if registered instrument messages are not prepared within the required time limits. The rules consequently specify the time limits and the amounts of the penalties for failing to meet them. Depending on the specific technical constraints associated with delivery and settlement procedures and future changes thereto, the rules may provide for time limits longer than those referred to in Article 322-65, up to the maximum time limits set in Articles 322-69 and 322-70.

Article 322-69

When there has been a change of holder of an administered registered financial instrument following execution of a stock market order by that holder, and the intermediary custody account-keeper concerned has received the order and transmitted it to a trader or executed the order itself, the time limit for the custody account-keeper to avoid the penalty may not exceed three trading days following the order execution date.

When there has been a change of holder of an administered registered financial instrument following execution of a stock market order by that holder, and the intermediary custody account-keeper concerned has provided neither reception-transmission nor execution service for that order, the time limit for the custody account-keeper to avoid the penalty may not exceed three trading days following the theoretical date for closing the transaction on its books.

Article 322-70

For the issuing entity that receives the registered instrument message referred to in Article 322-64, the time limit for avoiding the penalty may not exceed three trading days following the record date mentioned in the first paragraph of Article 322-65.

Article 322-71

If a registered instrument message is rejected by an issuing entity and the intermediary custody account-keeper must send a corrected message, the time limit for the custody account-keeper to avoid the penalty for late sending of the corrected message may not exceed seven trading days following the record date of the rejection at the central depository.

Article 322-72

For any registered instrument message not referred to in Articles 322-65 and 322-66 for which the sending deadline is not dictated by the terms and conditions of a collective transaction in financial instruments, the time limit for the intermediary custody account-keeper to avoid the late sending penalty may not exceed three trading days following the date of the event giving rise to the message as indicated on the message itself.

The time limit for the issuing entity receiving the message to avoid the penalty may not exceed three trading days following the record date mentioned in the first paragraph of Article 322-65.

Paragraph 2 - Performance requirements applicable to entities making public offers of financial securities or effecting admission of such securities to trading on a regulated market and recording such securities in pure registered accounts**Article 322-73**

The line reporting relationship of the departments responsible for the custody account-keeping function shall be shown on the general organisation chart of an issuer effecting transactions involving a public offer of securities or admission of securities to trading on a regulated market and recording the securities issued in pure registered accounts.

Article 322-74

In compliance with Article 322-18, procedures must be established to identify transactions that result in a debit balance in the account of a holder of pure registered financial instruments and could not be prevented prior to accounting treatment.

If the account of a holder of pure registered financial instruments shows a debit balance, a procedure to rectify the situation is implemented as soon as possible.

Article 322-75

Processing procedures are organised in such a way as to ensure the recording of registered instrument messages by name in chronological order as well as the complete entry, reliability and safeguarding of basic data, in particular data relating to account holders, financial instruments held, intermediaries and corporate actions affecting securities.

Article 322-76

In accordance with Article 322-26, data relating to holders of pure registered financial instruments and the transactions they make is treated and safeguarded in compliance with the obligation of professional secrecy set forth in applicable regulations.

Article 322-77

In accordance with Article 322-28, the accounting system for financial instruments is designed to provide justification of the overall balance in each financial instrument based on the balances of each holder of pure registered financial instruments and the balance of pending transactions (balance audit trail) and to allow reconstruction of each balance from the detailed transactions that gave rise to it (book entry audit trail). Such justifications may be done on a daily basis.

Article 322-78

A report of net fails at the custody account-keeper is provided monthly to the supervisor referred to in Article 322-84.

The net fails referred to in Article 322-31 are transactions rejected by the custody account-keeper and not rectified by the intermediaries. Such transactions include:

- 1° Trades in a financial instrument that is issuer-registered (*essentiellement nominative*);
- 2° Changes relating to the identity of the holder;
- 3° Transfers, disposals, and corrections of account headings;
- 4° Miscellaneous transactions in financial instruments;
- 5° Portfolio transfers.

The report on net fails is broken down by counterparty, and each line of the report shows the accounting reference for the transaction.

All net fails are rectified as soon as possible.

If need be, the issuer/custody account-keeper and the intermediaries implement a bilateral reconciliation procedure in order to resolve net fails.

Article 322-79

Before making any entry on its books in the name of a new holder of pure registered financial instruments, the custody account-keeper:

- 1° Verifies the identity of the new holder;
- 2° Ensures that the prospective holder is legally entitled and qualified to open the account;
- 3° When the prospective holder is a legal person rather than a natural person, verifies that the representative of such legal person has the capacity to act on its behalf, either as its legal representative or under a delegation of authority or power of attorney; to this effect, the custody account-keeper requests the production of any document enabling it to verify the authorization or designation of the representative.
- 4° Enters into an account opening agreement with the holder.

Article 322-80

The account opening agreement referred to in Article 322-2 specifies:

- 1° The identity of the holder of pure registered financial instruments;
- 2° If a legal person, the means by which the custody account-keeper is kept informed of the name(s) of the person(s) authorised to act in the name of the said legal person;
- 3° If a natural person, an indication of whether such person is a resident of France, a resident of another State party to the European Economic Area agreement, or a resident of a third country; and, if applicable, the identity of any person(s) authorised to act in the name of the said natural person;
- 4° If an order reception and transmission service is to be provided to the holder, the characteristics of orders that may be directed to the custody account-keeper; the method by which orders will be received and transmitted; the means by which the holder will be informed when transmission of the order could not be completed; and upon execution of the order, the content of the notice to the holder and the means by which the notice will be sent;
- 5° The means by which the holder will be informed of movements recorded in the holder's account.

Article 322-81

Whenever a stock market order is received from a holder of pure registered financial instruments, the custody account-keeper, before transmitting that order for execution on the market, verifies that the conditions necessary for executing it are effectively fulfilled. In particular, there must be:

- 1° For a purchase of securities, a sufficient cash balance or, failing that, sufficient overdraft cover;
- 2° For a sale of securities, a sufficient balance of the securities to be sold.

Article 322-82

When, on the instruction of an account holder, the custody account-keeper is to transfer a portfolio of pure registered financial instruments to another custody account-keeper, under the conditions set forth in point 3° of Article 322-4, it provides to the new custody account-keeper as quickly as possible all the information needed by the latter, such as information relating to the precise identification of the account holders concerned and the figures required for tax returns, in particular information on the cost basis for tax purposes.

Article 322-83

Whenever an issuer has recourse to an agent, pursuant to Article 322-39, and decides to change agents, the issuer sees to it that the new agent makes arrangements with the agent it replaces for the effective transfer of archived records concerning the issuer.

Article 322-84

The custody account-keeper designates by name a person responsible for ensuring compliance with the rules governing the conduct of custody account-keeping and, if applicable, order reception and transmission service. This supervisor performs the functions provided for in Articles 322-46 to 322-52.

The role of the supervisor includes, *inter alia*, identifying the applicable rules mentioned in the preceding paragraph, compiling a collection of all these rules, disseminating these rules to the staff members involved, monitoring compliance with these rules, and providing assistance in these matters to staff members on an as-needed basis, independently of audit engagements.

The supervisor has appropriate autonomy of decision. The human and technical resources at the supervisor's disposal are sufficient to accomplish his mission and suited to the nature and volume of the activities conducted.

Each year the supervisor prepares a report containing a description of the supervisory organisation, a list of tasks carried out in performance of his mission, any observations he has seen fit to make, and a description of measures adopted to follow up on his remarks. This report is transmitted to the management of the custody account-keeper and to the executive body of the issuer.

The supervisor does everything necessary to establish and implement specific procedures and tools for monitoring and managing the custody account-keeping activity. He satisfies himself that these procedures and tools are effective and reliable.

The supervisor ensures that the departments in charge of processes related to financial instrument delivery receive on a timely basis all the information needed to complete the transactions properly. In the event of net fails, the investment services supervisor monitors the status of such transactions and the time needed to clear them.

Sub-section 4 - Provisions relating to custody account-keeping in connection with an employee savings scheme

Article 322-85

This Sub-section concerns custody account-keeping for UCITS units or shares acquired in connection with an employee savings scheme. It also concerns other financial instruments acquired as part of such a scheme.

For the purposes of this Sub-section,

- 1° "Units" mean units or shares of UCITS offered as part of an employee savings scheme;
- 2° "Funds" mean the UCITS whose units or shares are offered as part of an employee savings scheme;
- 3° "Holders" mean the beneficiaries of an employee savings scheme;
- 4° "Management companies" mean portfolio management companies and open-end investment companies that have not delegated the management of their assets.

Paragraph 1 - Account opening agreement

Article 322-86

Before opening a financial instrument account for an employee savings scheme, the custody account-keeper verifies the identity of the employing entity (the "employer") and the validity of the power accorded to its representative.

The account opening agreement referred to in Article 322-2 is drawn up, subject to the provisions of the third paragraph, between the employer that has set up a savings scheme for its employees and other holders and the custody account-keeper specified in the savings plan or participation agreement.

Whenever, in connection with an employee savings scheme, the employer is itself an issuing entity that performs custody account-keeping and keeps accounts on holders of pure registered financial instruments, it is not required to enter into an account opening agreement with such holders or to have its agent enter into such an agreement.

Article 322-87

Before opening the individual accounts referred to in Article 322-89, the custody account-keeper asks the employer or the agent that maintains the employer's register of administrative rights (hereinafter the "registrar") to send it the list of beneficiaries of the employee savings scheme. Failing provision of such list, accounts are not opened.

Article 322-88

The account opening agreement stipulates:

- 1° The mode of transmission of deposit, redemption and transfer orders as well as orders to change investment choices, and the role of the custody account-keeper as regards order execution.

Orders are transmitted directly to the custody account-keeper when it is the employer's agent for receiving and checking the authenticity of orders, or via the employer's intermediary, in which case the intermediary is responsible for checking order authenticity.

- 2° The procedures for updating individual information on holders, including holders leaving the employer, and the processing associated with loss of employee status. The agreement provides that a holder who loses employee status remains covered by this agreement or by any other agreement that subsequently takes its place.
- 3° The role of the custody account-keeper in providing information to the employer and the holders and the manner in which such information is to be provided, without prejudice to the legal and regulatory provisions regarding the employer's responsibilities for disclosure to holders. Such information concerns the investment of savings plan assets and deposits, transactions in financial instruments, changes of custody account-keeper, individual transfers, changes of holders' asset allocations, and other individual transactions by holders.

The custody account-keeper, if it is not also the registrar, reaches agreement with the registrar on procedures for sending holders statements showing the nature and number of financial instruments held in their account, as required in Article R. 443-5 of the Labour Code and in Article 322-5.
- 4° The amount, frequency and means of payment of fees payable by the employer and the holder.
- 5° The extent of the custody account-keeper's right of use in regard to holders' personal records on file.
- 6° The existence of agreements governing the custody account-keeper's relations with the other parties concerned in the employee savings scheme, as provided for in Articles 322-91 to 322-93.
- 7° The time limits for redemptions by the holder, unless specified by regulation or fund by-laws.
- 8° The time limits for investment of amounts deposited for the account of holders. These time limits run from receipt of the information on fund allocation and the corresponding cash flow by the custody account-keeper.

Paragraph 2 - Accounts

Article 322-89

The account-keeper keeps an account of fund units in the name of each holder. As required by Article 322-3, this account indicates the items of identification supplied for the holder in whose name it was opened and any specific circumstances affecting the exercise of that holder's rights. These items of identification and specific indications are transmitted by the employer.

Two accounts kept in the name of the same holder may not be merged except upon formal request by the employer.

A holder's account may not be closed unless all of the assets held in it have been liquidated and no further rights are receivable.

The account-keeper also keeps "pending transaction" accounts for the purpose of receiving amounts paid in by the employer or holders and booking amounts payable to holders.

Article 322-90

When, pursuant to Article 322-40, a custody account-keeper engages a third party to provide technical resources, the custody account-keeper ensures that the third party implements the provisions of this Sub-section.

When the custody account-keeper engages a third party to make the accounting entries relating to holders, the custody account-keeper is not required to duplicate those entries in its own information system.

When, pursuant to Article 322-39, an open-end investment company (SICAV), acting as custody account-keeper, keeps accounts on holders of pure registered instruments and appoints an agent for this purpose, the investment company ensures that the agent implements the provisions of this Sub-section.

In accordance with Article 322-41:

- 1° The custody account-keeper mentioned in the first paragraph does not shed its responsibilities towards the employer and the holders when a third party provides resources to it.
- 2° The investment company mentioned in the third paragraph does not shed its responsibilities towards the employer and the holders when it appoints an agent to perform custody account-keeping.

Paragraph 3 - Relations between the custody account-keeper and the other parties concerned in an employee savings scheme

Article 322-91

The custody account-keeper enters into an agreement with the management company and the entity that keeps the account of fund units issued. This agreement stipulates the information exchanges that will permit or enable:

- 1° The management company to make investments or divestments in the funds;
- 2° The custody account-keeper to record the number of units held by each employee, once the net asset values of the funds have been communicated to it by the management company;
- 3° The entity keeping the unit issuance account to create or cancel units and, if necessary, reconcile the difference between the number of units transmitted by the custody account-keeper and the number indicated on its books.

Article 322-92

If the custody account-keeper is not the fund custodian, it enters into an agreement with the custodian stipulating the information exchanges that will enable:

- 1° The custody account-keeper and the fund custodian to organise flows of payments so as to comply with the settlement time limits specified in the account opening agreement or set by regulations or fund by-laws;
- 2° The fund custodian to receive the information needed to perform its oversight role.

Article 322-93

When, in compliance with applicable regulations, the custody account-keeper is to make a transfer of units or cash held by a holder by or by all holders collectively to another custody account-keeper, it provides to the new custody account-keeper as quickly as possible, and not later than such transfer, all information needed by the latter, such as information relating to the precise identification of the account holders concerned and the figures required for tax returns, in particular information on the cost basis for tax purposes.

Paragraph 4 - Deposit and redemption transactions, changes to investment choices, and individual holder transfers

Sub-paragraph 1 - Deposits

Article 322-94

The custody account-keeper provides the bank routing and account numbers (*relevés d'identité bancaire*) of the "pending transaction" account(s) referred to in Article 322-89 to the employer and receives deposits to this (these) account(s).

Upon receipt of instructions for allocating the amounts deposited by holder and by fund, and after confirming receipt of the corresponding amounts in the pending transaction account concerned, the custody account-keeper debits that account and credits the fund accounts at the next net asset value date. It informs the management company that it has done so. At the same time, it calculates the number of individual units on the basis of the net asset value(s) provided by the management company of the fund(s) concerned and makes the corresponding accounting entries.

The custody account-keeper sends a summary of the subscriptions stated in cash values and units to the custodian, the management company and the entity keeping the unit issuance account.

It sends the transaction details to the holders and to the employer or its registrar.

Article 322-95

If the custody account-keeper has not received allocation instructions by holder and by fund for amounts deposited by the employer, it puts these amounts into the default fund for this purpose as specified by the savings plan or in the participation agreement. The units thereby created ("units pending allocation") are held on behalf of holders by the custody account-keeper in a joint possession account.

Allocation of the units or cash to individual holders takes place only when the employer or its registrar sends the custody account-keeper the information needed for this purpose.

If no default fund is specified, the custody account-keeper keeps the amounts received in cash until it receives allocation instructions.

Sub-paragraph 2 - Redemptions

Article 322-96

When holders decide to make redemptions, the custody account-keeper:

- 1° Receives the redemption instructions after their authenticity has been verified by the employer or its registrar.
- 2° Determines, based on the net asset value provided by the management company for each fund, the amounts payable to the holders, or to any beneficiaries taking their place, and debits the holders' accounts by the corresponding numbers of units.
- 3° Sends a summary of the redemptions stated in cash values and units to the custodian, the management company and the entity keeping the unit issuance account.
- 4° Sends the transaction details to the holders and to the employer or its registrar.
- 5° Sends or issues instructions to send the corresponding payments to holders in settlement of their redemptions.

Sub-paragraph 3 - Changes of investment choices

Article 322-97

When holders change their investment choices, the custody account-keeper:

- 1° Receives holders' instructions to change their choice of investments, after those instructions have been authenticated by the employer or its registrar.
- 2° Carries out those instructions as a series of redemption and subscription orders, on the terms and conditions specified in the preceding three Articles and taking into account the specific rules and regulations concerning changes of holders' choices of investments under an employee savings scheme.
- 3° Sends the transaction details to the holders and to the employer or its registrar.

Sub-paragraph 4 - Transfers

Article 322-98

When holders make individual transfers, the custody account-keeper:

- 1° Receives holders' individual transfer instructions, after those instructions have been authenticated by the employer or its registrar.
- 2° If necessary, determines the amounts to be transferred, based on the net asset value provided by the management company.
- 3° Sends a summary of the transfers to the custodian, the management company and the entity keeping the unit issuance account, stating the amounts in cash and in units and the overall balance of units in each fund held by the holders.
- 4° Sends the new custody account-keeper all the information that it needs and at the same time transfers the assets concerned to the new custody account-keeper.
- 5° Sends the transaction details to the holders and to the employer or its registrar.

Paragraph 5 - Accounting procedures

Article 322-99

By exception to the provisions of Article 322-17, the custody account-keeper for financial instruments acquired in connection with an employee savings scheme may choose not to keep beneficiaries' accounts according to the principle of double-entry book-keeping, provided it has a specific control procedure that offers equivalent security.

Article 322-100

The justifications mentioned in the first paragraph of Article 322-28 must be capable of being performed upon each valuation of the fund.

At the request of the entity keeping the unit issuance account, the custody account-keeper participates in the process of reconciling the number of units that it holds and the number of units shown in the unit issuance account.

Article 322-101

As part of the control procedures required in Article 322-29, the custody account-keeper verifies, for each fund and upon each valuation:

- 1° The data on the number of units: the balance of credit and debit transactions on holders' accounts must be equal to the corresponding total number of units recorded for the fund.
- 2° The data on the amounts debited or credited: the balance of amounts received from and paid to holders must be equal to the balance on the pending transaction accounts and to the total of the corresponding deposits or withdrawals on the account of each fund.
- 3° The correspondence between the amounts to be credited or debited to a fund account and the number of units created or cancelled.

Article 322-102

The net fails referred to in Article 322-31 mean the following transactions, when not completed within normal time limits:

- 1° Deposits received and to be allocated to a fund;
- 2° Payments to holders;
- 3° Various operations at the level of the fund (e.g. merger);
- 4° Account transfers;
- 5° Reconciliation of the difference between the number of units transmitted by the custody account-keeper to the entity keeping the unit issuance account and the number shown in that account.

If necessary for the resolution of net fails, the custody account-keeper implements a reconciliation procedure with the various parties concerned (the employer, the management company, the entity keeping the unit issuance account, the registrar, etc.).

When the natural or legal person producing and disseminating investment research in the exercise of its profession or the conduct of its business is a credit institution that is not an investment service provider, or a natural person working under the authority or on behalf of such credit institution, and it disseminates research produced by a third party, such person is bound by the following obligations:

- 1° It indicates clearly and prominently the name of the regulatory authority with jurisdiction over it.
- 2° It complies with the requirements imposed on the producer in the fourth paragraph of Article 315-6 and in Articles 315-7 to 315-11, if the producer of the research in question has not previously disseminated it via a channel that gives a large number of people access to the information.
- 3° It complies with the requirements imposed on the producer in Articles 315-2 to 315-11 if it has substantially modified the analysis.

CHAPTER VIII - DISSEMINATION OF INVESTMENT RESEARCH FROM ABROAD**SINGLE SECTION - TRANSPARENCY IN INVESTMENT RESEARCH DISSEMINATED FROM ABROAD****Article 328-1**

The provisions of the second and third paragraphs of Article 315-1, Articles 315-2 to 315-8, and 315-10 to 315-13 shall apply to research disseminated from abroad that is accessible to investors customarily resident or established in France, whenever such research relates to:

- 1° Issuers whose financial securities are admitted to trading on a regulated market within the meaning of Article L. 421-1 of the Monetary and Financial Code, or for which application for such admission has been made; or
- 2° Issuers whose securities are admitted to trading on an organised multilateral trading facility within the meaning of Article 524-1.

CHAPTER IX - INVESTMENT RECOMMENDATIONS PRODUCED OR DISSEMINATED IN CONNECTION WITH A JOURNALISTIC ACTIVITY**Article 329-1**

The companies referred to in 1° of Article L. 621-31 of the Monetary and Financial Code that are not members of the association provided for in Article L. 621-32 of the Monetary and Financial Code, as well as professional journalists other than those mentioned in 2° of Article L. 621-31 of the Monetary and Financial Code, shall be subject to the provisions of this chapter when they produce or disseminate investment recommendations, as defined in Articles R. 621-30-1 to R. 621-30-4 of the Monetary and Financial Code, in connection with their journalistic activity.

Article 329-2

Investment recommendations shall comply with the following presentation rules:

- 1° Facts are distinguished from interpretations, estimates and analyses;
- 2° Rumours are distinguished from confirmed information;
- 3° All projections, forecasts, price targets and their underlying assumptions shall be labelled as such.

Article 329-3

It must be possible to identify the journalists referred to in Article 329-1 who produce the investment recommendation.

Such identification, including where a pseudonym is used, must be accessible to the public without disproportionate requirements.

The investment recommendation itself must include the disclosures provided for in the first and second paragraphs. However, where these requirements are disproportionate in relation to the length of the disseminated investment recommendation, the mandatory information should be mentioned directly in the body of the publication (the article, the box containing legal notices or a special box) or the address of an appropriate website should be given in the same place.

For non-written investment recommendations, the obligations provided for in the first and second paragraphs may be fulfilled by referring to the arrangements for obtaining this information directly from an easily accessible public dissemination medium, especially a website.

Article 329-4

The AMF can ask the producer companies referred to in Article 329-1 to give details of the care they have taken and the methods they have used to ensure that the recommendation is reasonable.

Article 329-5

Journalists and the publisher of press publications, the publisher of radio or television services, the publisher of online public communication services or the press agency, referred to in Article 329-1, shall inform readers, listeners or viewers in a manner stipulated by the person legally responsible for publication (*directeur de la publication*), or failing this the legal representative of the company, and within a time period compatible with the editorial schedule, of any significant interest in one or more financial instruments that are the subject of the investment recommendation or any significant conflicts of interest with respect to an issuer to which the recommendation relates, where such interests or conflicts of interest are accessible or reasonably expected to be accessible to the persons involved in the preparation of that recommendation.

In particular, the public shall be informed of the fact that the publisher of press publications, the publisher of radio or television services, the publisher of online public communication services or the press agency:

- 1° Has significant financial interests in the financial instruments that are the subject of the investment recommendation or in related financial instruments;
- 2° Is part of the same consolidation, within the meaning of the Seventh Council Directive 83/349/EEC of 13 June 1983 or internationally recognised accounting standards, as an issuer whose financial instruments are admitted to trading on a regulated market;
- 3° Is controlled directly or indirectly, within the meaning of Article L. 233-3 of the Commercial Code, by a natural person who controls said issuer directly or indirectly.

However, these disclosure requirements do not apply to shareholders agreements that are not subject to a statutory or regulatory disclosure obligation.

The investment recommendation itself must include the disclosures referred to in this article. However, where these requirements are disproportionate in relation to the length of the disseminated investment recommendation, the mandatory information should be mentioned directly in the body of the publication (the article, the box containing legal notices or a special box) or the address of an appropriate website should be given in the same place.

For non-written investment recommendations, the obligations provided for in the first and second paragraphs may be fulfilled by referring to the arrangements for obtaining this information directly from an easily accessible public dissemination medium, especially a website.

Article 329-6

Where a publisher of press publications, a publisher of radio or television services, a publisher of online public communication services or a press agency, referred to in Article 329-1, disseminates an investment recommendation produced by a third party, the identity of that party shall be clearly and prominently indicated in the recommendation.

The publisher or agency must also indicate any substantial alterations to the disseminated investment recommendation and, where such alterations would change the direction of the recommendation, all the information referred to in Articles 329-3 and 329-5. Where the publisher or the agency disseminates an investment recommendation which it has substantially altered, the location of the investment recommendation and the obligatory disclosures relating to it must also be mentioned, provided these are public.

Where a publisher of press publications, a publisher of radio or television services, a publisher of online public communication services or a press agency, referred to in Article 329-1, disseminates a summary of an investment recommendation produced by a third party, he shall ensure that it is clear and not misleading. The publisher or agency must also indicate the procedures for accessing the investment recommendation or the obligatory disclosures, provided these are public.

GENERAL REGULATION OF THE AUTORITÉ DES MARCHÉS FINANCIERS

BOOK IV - COLLECTIVE INVESTMENT PRODUCTS

TITLE I - COLLECTIVE INVESTMENT SCHEMES

Article 411-1

1. The term "collective investment scheme" designates an open-ended investment company (société d'investissement à capital variable - SICAV) or a common fund (fonds commun de placement - FCP);
2. The term "holder" designates the holder of units in an FCP or shares in a SICAV;
3. Where SICAVs do not delegate the overall management of their portfolio as stipulated in Article L. 214-7 of the Monetary and Financial Code, they shall meet all the conditions applying to management companies and discharge the obligations applying to such companies.
4. References to "members of the board of directors or the executive board of the SICAV" shall be understood to include, where applicable, the chairman of a simplified joint-stock company or the senior managers designated by the articles of incorporation to carry out the duties of the board of directors in accordance with the provisions of Article L. 227-1 of the Commercial Code.

CHAPTER 1 - UNDERTAKINGS FOR COLLECTIVE INVESTMENT IN TRANSFERABLE SECURITIES COMPLYING WITH DIRECTIVE 2009/65/EC OF 13 JULY 2009

Article 411-2

The provisions of this Chapter apply to all collective investment schemes governed by of Book II, Title I, Chapter IV, Section 1, Sub-section 1 of the Monetary and Financial Code, as well as to their management companies and depositaries.

SECTION 1 - AUTHORISATION

Article 411-3

A collective investment scheme authorised as an undertaking for collective investment in transferable securities that complies with Directive 2009/65/EC of 13 July 2009 (UCITS) is harmonised and cannot transform itself into a collective investment scheme that does not comply with the said Directive.

Sub-section 1 - SICAVs

Article 411-4

The articles of incorporation of a SICAV are signed by the first shareholders in person, or by a specially empowered agent. The said articles stipulate the names of the first shareholders and the amounts paid in by each of them, and, where applicable, the names of the first directors or the names of the members of the executive board and the supervisory board, as well as the names of the first statutory auditor and, where applicable, the substitute auditor, named in accordance with the conditions stipulated in Article L. 214-7-2 of the Monetary and Financial Code.

A SICAV cannot set up sub-funds and issue different share classes unless its articles of incorporation explicitly provide for it to do so.

Article 411-5

The articles of incorporation, along with the deposit certificate for the initial capital issued by the depositary, shall be filed with the registry of the commercial court with jurisdiction over the registered office of the SICAV.

If the articles of incorporation provide for the SICAV to be an umbrella fund, the depositary also issues a certificate for each sub-fund to the management company. The management company sends the said certificates to the AMF.

An AMF Instruction stipulates the minimum information disclosures required in the articles of incorporation of a SICAV.

Article 411-5-1

The articles of incorporation provided for in Article L. 214-4 of the Monetary and Financial Code stipulate the principles for distributing the SICAV's distributable sums, the procedures for subscriptions and redemptions and, where applicable, the procedures governing the rights attaching to different share classes. The procedures for distributing the SICAV's distributable sums may be defined in the prospectus.

Article 411-6

I. Authorisation of a SICAV, which is provided for under Article L. 214-3 of the Monetary and Financial Code and, where applicable, the authorisation of each sub-fund provided for under the same Article is subject to prior filing of an application with the AMF containing the elements stipulated in an AMF Instruction.

Without prejudice to the provisions of III, the AMF notifies the SICAV whether its authorisation has been granted or refused within one month of the filing of the application.

If the AMF does not respond for one month following the acknowledgement of receipt of the application, authorisation is deemed to be granted.

If the AMF asks for further information that requires the management company to submit a supplementary information sheet, the AMF serves written notice stipulating that it shall receive the items requested within sixty days. If it fails to receive the said items within this period, the authorisation application is deemed to be rejected. The AMF issues a written acknowledgement of receipt when it has received all the information requested. The acknowledgement of receipt stipulates a new authorisation period, which cannot be longer than the one referred to in the previous paragraph.

II. - The period referred to in I is reduced to eight worked days after the AMF issues the acknowledgement of receipt of the authorisation application if the SICAV applying for authorisation is comparable to a collective investment scheme (CIS) that has already been authorised by the AMF.

The AMF assesses the comparability of the SICAV applying for authorisation, called the "comparable SICAV", and the CIS previously authorised by the AMF, called the "reference CIS", with respect to the following:

1. The reference CIS and the comparable SICAV are managed by the same management company or the same delegated investment manager, or by investment management companies or delegated investment managers belonging to the same corporate group, and subject to the AMF's assessment of the information provided by the management company of the comparable SICAV, in accordance with the requirements stipulated in an AMF Instruction;
2. The reference CIS has been authorised by the AMF and incorporated less than eighteen months before the date of receipt by the AMF of the authorisation application for the comparable SICAV. At the reasoned request of the management company of the comparable SICAV, the AMF may accept a reference CIS that has been incorporated for more than eighteen months at the date of receipt of the authorisation application for the comparable SICAV;
3. The reference CIS has not undergone any changes other than those referred to in an AMF Instruction.

At the reasoned request of the management company of the comparable SICAV, the AMF may allow a CIS that has undergone changes other than those referred to in the instruction to be a reference CIS;

4. Subscribers to the comparable SICAV shall meet the requirements for subscribing and purchasing the reference CIS;
5. The investment strategy, risk profile, operating rules and articles of incorporation of the comparable SICAV shall be similar to those of the reference CIS.

If one of the incorporation documents of the comparable SICAV is different from that of the reference CIS, it shall be clearly identified in the authorisation application for the comparable SICAV, in accordance with the procedures stipulated in an AMF Instruction.

The authorisation application of the comparable SICAV shall be filed electronically.

If the AMF asks for further information that requires submission of a supplementary information sheet, the AMF serves such notice, stipulating that the items requested must arrive within sixty days. If it fails to receive the said elements within this period, the authorisation application is deemed to be rejected. The AMF issues a written acknowledgement of receipt when it has received all of the information requested. The acknowledgement of receipt stipulates a new authorisation period of eight worked days or less.

If the comparable SICAV or the reference CIS do not comply with the requirements referred to in this Article, the AMF notifies the applicant, stipulating that the supplementary information required to compile an authorisation application under the procedures described in I shall be received within sixty days. If it fails to receive all of the supplementary information within this period, the authorisation application is deemed to be rejected. When all of the supplementary information has been received, the AMF issues a written acknowledgement of receipt and examines the authorisation application for the SICAV under the conditions and procedures referred to in I. The acknowledgement of receipt stipulates a new authorisation period of one month or less.

III. - If the SICAV has not appointed a management company, it will be notified whether authorisation has been granted or refused within three months of submitting an application.

Article 411-7

In order to grant the authorisation for the SICAV provided for in Article L. 214-3 of the Monetary and Financial Code, the AMF examines the articles of incorporation of the SICAV, the investment strategy used to attain the investment objective of the CIS, its charge structure and any share classes, as presented in the founding documents.

The AMF also examines the choice of depositary and the application of the management company to manage the SICAV.

If the management company is established in another European Union Member State, the AMF will rule on the application of the management company to manage the SICAV's portfolio in accordance with Article L. 214-7-1 of the Monetary and Financial Code.

The AMF ensures that there is no legal impediment that prevents the SICAV covered by this chapter from marketing its shares in France, such as a provision in its articles of incorporation.

Article 411-8

The management company or the SICAV, where applicable, shall send the AMF the deposit certificate for the initial capital of SICAV immediately after the funds are deposited and within sixty days at the latest after the SICAV is authorised.

For SICAVs that are umbrella funds, this certificate shall be sent to the AMF within:

1. Sixty days of the date of authorisation of the SICAV for at least one of the sub-funds; and
2. One hundred and eighty days of the date of notification of the authorisation for the other sub-funds.

The deposit certificate shall name the sub-fund(s) that it covers.

If the AMF does not receive the certificate within these time periods, it declares the authorisation null and void under the conditions set out in an AMF Instruction.

Where warranted by special circumstances, the SICAV may make a reasoned request for an extension of the deadline for depositing the funds, which shall reach the AMF before the date on which the authorisation is to be declared null and void, and mention the requested deadline. The AMF will notify the SICAV or the management company of its decision within eight worked days of receiving the request.

Article 411-9

The marketing of shares in a SICAV and, where applicable, one or more sub-funds, cannot start until the AMF has served notice of its authorisation. This notification is sent to the management company or the SICAV itself, where applicable, under the conditions set out in an AMF Instruction.

Sub-section 2 - Common funds (FCPs)**Article 411-10**

I. - Authorisation of an FCP, which is provided for under Article L. 214-3 of the Monetary and Financial Code and, where applicable, the authorisation of each sub-fund provided for under the same Article is subject to prior filing of an application with the AMF containing the elements stipulated in an AMF Instruction.

The investment company will be notified whether authorisation for the FCP has been granted or refused within one month of filing the application.

If the AMF does not respond for one month following acknowledgement of receipt of the application, authorisation is deemed to be granted.

If the AMF asks for further information that requires the management company to submit a supplementary information sheet, the AMF serves written notice stipulating that the elements requested must arrive within sixty days. If it fails to receive the said elements within this period, the authorisation application is deemed to be rejected. The AMF issues a written acknowledgement of receipt when it has received all of the information requested. The acknowledgement of receipt stipulates a new authorisation period, which cannot be longer than those stipulated in the second and third paragraphs.

II. - The period referred to in I is reduced to eight worked days after the AMF issues an acknowledgement of receipt of the authorisation application if the FCP applying for authorisation is comparable to a CIS that has already been authorised by the AMF.

The AMF assesses the comparability of the FCP applying for authorisation, called the "comparable FCP", and the CIS previously authorised by the AMF, called the "reference CIS", with respect to the following:

1. The reference CIS and the comparable FCP are managed by the same management company or the same delegated investment manager, or by investment management companies or delegated investment managers belonging to the same corporate group, and subject to the AMF's assessment of the information supplied by the management company of the comparable FCP in accordance with the requirements stipulated in an AMF Instruction;
 2. The reference CIS has been authorised by the AMF and incorporated less than eighteen months before the date of receipt by the AMF of the authorisation application for the comparable FCP. At the reasoned request of the management company of the comparable FCP, the AMF may accept a reference CIS that has been incorporated for more than eighteen months at the date of receipt of the authorisation application for the CIS;
 3. The reference CIS has not undergone any changes other than those referred to in an AMF Instruction.
- At the reasoned request of the management company of the comparable FCP, the AMF may allow a CIS that has undergone changes other than those referred to in the instruction to be a reference CIS;
4. Subscribers to the comparable FCP shall meet the requirements for subscribing or purchasing the reference CIS;
 5. The investment strategy, risk profile, operating rules and fund rules of the comparable FCP shall be similar to those of the reference CIS.

If one of the founding documents of the comparable FCP is different from that of the reference CIS, it shall be clearly identified in the authorisation application for the comparable FCP in accordance with the requirements set out in an AMF Instruction.

The authorisation application for the comparable FCP shall be filed electronically.

If the AMF asks for further information that requires submission of a supplementary information sheet, the AMF serves such notice, stipulating that the items requested must arrive within sixty days. If it fails to receive the said elements within this period, the authorisation application is deemed to be rejected. The AMF issues a written acknowledgement of receipt when it has received all of the information requested. The acknowledgement of receipt stipulates a new authorisation period of eight worked days or less.

If the comparable FCP or the reference CIS do not comply with the requirements referred to in this Article, the AMF notifies the applicant, stipulating that the supplementary information required to compile an authorisation application under the procedures described in I must be received within sixty days. If it fails to receive all of the supplementary information within this period, the authorisation application is deemed to be rejected. When all of the supplementary information

has been received, the AMF issues a written acknowledgement of receipt and examines the authorisation application for the SICAV under the conditions and procedures referred to in I. The acknowledgement of receipt stipulates a new authorisation period of one month or less.

Article 411-11

In order to grant the authorisation for the FCP provided for in Article L. 214-3 of the Monetary and Financial Code, the AMF examines the fund rules of the FCP, the investment strategy used to attain the investment objective of the CIS, its charge structure and any unit classes.

The AMF also examines the choice of depositary and the application of the management company to manage the FCP.

If the management company is established in another European Union Member State or another State party to the European Economic Area, the AMF will rule on the application of the management company to manage the FCP's portfolio in accordance with Article L. 214-8-1 of the Monetary and Financial Code.

The AMF ensures that there is no legal impediment that prevents the FCP covered by this chapter from marketing its shares in France, such as a provision in its fund rules.

The AMF also ensures that a depositary institution has been designated for the CIS' assets.

Article 411-12

The management company shall send the AMF the deposit certificate for the funds of the FCP immediately after the deposit of the funds and within sixty days of the date of the authorisation for the FCP.

For FCPs that are umbrella funds, this certificate shall be sent to the AMF within:

1. Sixty days of the date of authorisation of the FCP for at least one of the sub-funds; and
2. One hundred and eighty days of the date of notification of the authorisation for the other sub-funds.

The deposit certificate shall name the sub-fund(s) that it covers.

If the AMF does not receive the certificate within these time periods, it will declare the authorisation null and void under the conditions set out in an AMF Instruction.

Where warranted by special circumstances, the management company may make a reasoned request an extension of the deadline for depositing the funds, which must reach the AMF before the date on which the authorisation is to be declared null and void, and mention the requested deadline. The AMF will notify the management company of its decision within eight worked days of receiving the request.

Article 411-13

The fund rules provided for in Article L. 214-8-1 of the Monetary and Financial Code set the term of the FCP and the minimum amount of its initial assets, which cannot be less than the amount stipulated in Article D. 214-21 of the Monetary and Financial Code.

The fund rules also stipulate the procedures for distributing the distributable sums of the FCP, the subscription and redemption procedures and, where applicable, the procedures governing the rights attaching to the different unit classes. The procedures for distributing the FCP's distributable sums may be defined in the prospectus.

The FCP cannot set up sub-funds unless its fund rules specifically provide for it to do so.

An AMF Instruction shall define the contents of the sections in the FCP's fund rules.

Article 411-14

The marketing of FCP units and, where applicable, sub-fund units, cannot start until the AMF has served notice of its authorisation. The notice will be sent to the management company of the FCP under the conditions set out in an AMF Instruction.

Subscriptions may start once this notice has been received.

The founders shall undertake to complete, where applicable, subscriptions before the end of the period stipulated in the abovementioned Instruction for reaching the minimum amount stipulated in the FCP fund rules. The time period starts upon notification of the FCP's authorisation.

As soon as the amount referred to in the previous paragraph has been reached, the management company will determine the first net asset value. The corresponding deposit certificate issued by the depositary shall be sent to the AMF immediately.

If the FCP is an umbrella fund, the depositary shall issue a deposit certificate for each sub-fund.

Sub-section 3 - Modifications

Article 411-15

Two types of modifications can occur in the life of CIS:

1. Modifications that require authorisation, which are called "transfers";
2. Modifications that do not require authorisation, which are called "changes".

The procedures for notifying holders and the conditions under which holders can redeem their units or shares are set out in an AMF Instruction.

Paragraph 1 - Transfers

Article 411-16

An AMF Instruction defines the conditions under which the AMF authorises transfers affecting a CIS. The authorisation period is eight worked days.

Article 411-17

If a CIS or a sub-fund, where applicable, is liquidated, the statutory auditor produces a report on the valuation of the assets and on the liquidation terms, as well as transactions that have taken place since the end of the previous accounting year. This report is made available to the holders. It is sent to the AMF.

Paragraph 2 - Changes

Article 411-18

CISs that undergo changes shall report them in accordance with the procedures set out in an AMF Instruction.

Sub-section 4 - Constituting and transferring new sub-funds

Article 411-19

The prior authorisation of the AMF is required for constituting and transferring sub-funds as stipulated in Article L. 214-3 of the Monetary and Financial Code, in accordance with a procedure set out in an AMF Instruction.

SECTION 2 - GENERAL RULES

Sub-section 1 - Subscription and redemption rules

Article 411-20

In accordance with the provisions of Articles L. 214-7 and L. 214-8, FCP units or SICAV shares are issued at the request of holders and at the net asset value, plus or minus charges and fees, as the case may be.

However, the CIS may stop issuing units or shares under the provisions of the second paragraph of Article L. 214-7-4 and the second paragraph of Article L. 214-8-7 of the Monetary and Financial Code. In this case, the prospectus defines objective conditions that trigger a temporary or definitive closure of subscriptions, such as reaching a maximum number of units or shares to be issued, a maximum amount of assets or the end of a given subscription period.

Shares and units are redeemed on the basis of their net asset values, under the conditions set out in Articles 411-123 to 411-125.

If redemptions are temporarily suspended under the terms of the first paragraph of Article L. 214-7-4 or the first paragraph of Article L. 214-8-7 of the Monetary and Financial Code, the CIS or, where applicable, the management company shall immediately disclose the reasons and the procedures for the suspension of redemptions to the AMF and to all of the authorities of the European Union Member States where the units or shares are marketed.

Sub-section 2 - Minimum asset amount

Article 411-21

When the assets of a SICAV or an FCP fall below 300,000 euros, redemption of the SICAV shares or FCP units is suspended.

If the assets remain under the amounts stipulated in the first paragraph for thirty days, the CIS in question is wound up or subject to one of the transactions provided for in Article 411-15.

If the CIS is an umbrella fund, the provisions of this Article apply to each sub-fund.

The provisions of this Chapter do not apply to the collective investment schemes mentioned in Article R. 214-28 of the Monetary and Financial Code.

Sub-section 3 - Classes of FCP units and SICAV shares

Article 411-22

The prospectus cited in Article 411-113 may provide for different unit or share classes within the same CIS or within the same sub-fund. These classes may:

1. Be subject to different rules for distributing income;
2. Be denominated in different currencies;
3. Be subject to different management charges;
4. Be charged different subscription and redemption fees;
5. Have different par values;
6. Come with automatic partial or full risk hedging, as defined in the prospectus. This hedging is achieved using financial instruments that reduce the impact of hedging transactions on the other unit classes in the CIS to a minimum;
7. Be reserved for one or more marketing networks.

Subscriptions of a given unit or share class may be reserved for a category of investors defined in the prospectus using objective criteria, such as a subscription amount, a minimum holding period or any other commitment given by the holder.

SECTION 3 - OPERATING RULES

Sub-section 1 - Contributions in kind

Article 411-23

Contributions in kind, which may include only the assets stipulated in Article L. 214-20 of the Monetary and Financial Code, are valued under the conditions stipulated in Articles 411-24 to 411-33.

Sub-section 2 - Accounting and financial provisions

Paragraph 1 - Valuation

Article 411-24

The management company establishes, implements and enforces policies and procedures to compute the net asset value accurately on the basis of its accounting records and to ensure proper execution of subscription and redemption orders at that net asset value.

Article 411-25

The financial instruments, derivatives, securities and deposits listed as the assets of a CIS or held by the CIS are valued every day that the net asset value is determined, under the conditions set out in the prospectus.

Article 411-26

The financial instruments, derivatives, securities and deposits that are not traded on a regulated market referred to in Article L. 421-1 of the Monetary and Financial Code, or on a lawfully operating regulated market in a country that is neither a member of the European Union nor a party to the Agreement on the European Economic Area, as long as the said market has not been ruled out by the AMF, shall be valued each time the net asset value is determined in accordance with Article 411-27, as long as the maturity at issue is greater than three months.

Article 411-27

The management company shall value the financial instruments, derivatives, securities and deposits for which no prices have been observed or quoted on the day the net asset value is determined.

Article 411-28

Each category of financial instruments, derivatives, securities and deposits listed as the assets of a given CIS shall be subject to the same valuation rules.

Article 411-29

The net asset value per unit or share is obtained by dividing the net assets of the collective investment scheme by the number of units or shares.

The management company makes the net asset value available and communicates it to any person who requests it.

The net asset value shall be sent to the AMF on the same day as it is determined in accordance with the procedures set out in an AMF Instruction.

If a CIS issues different unit or share classes, the net asset value of each unit or share class are obtained by dividing the portion of net assets corresponding to the unit or share class in question by the number of units or shares in that class. The procedures for calculating the net asset values for CIS unit or share classes shall be explained in the prospectus.

Article 411-30

If CIS unit or share classes are denominated in different currencies, only one currency of account shall be used to recognise the assets of the CIS or the sub-fund.

Article 411-31

Articles 411-24 to 411-33 apply to each sub-fund of a CIS that is an umbrella fund.

Even if separate accounts are kept, each category of financial instruments, derivatives, securities and deposits listed as the assets of sub-funds of the same class in the same CIS is subject to the same valuation rules.

Article 411-32

The beneficiary's claim on the CIS mentioned in Article R. 214-19, II, 2 of the Monetary and Financial Code shall be calculated using the following procedures:

1. The claim is calculated on the basis of all of the financial liabilities of the CIS resulting from transactions in financial instruments and derivatives mentioned in Article L. 211-36, 1 to 3 of the Monetary and Financial Code, before considering the goods and rights that make up the security interest;
2. The management company obtains disclosure of the amount of the claim calculated by the beneficiary of the security interest;
3. The management company establishes an internal procedure for daily monitoring of the value of the claim reported by the beneficiary of the security interest in accordance with 2;
4. The internal procedure referred to in 3 includes an arrangement for reducing any differentials in value found. The procedure establishes the thresholds that trigger the arrangement depending on the nature of the claim and it defines the decisions to be made to reduce the valuation differential found.

Article 411-33

The procedures for valuing the goods and rights that make up the security interest granted by the CIS referred to in the sixth paragraph of Article R. 214-19, II of the Monetary and Financial Code, are as follows:

1. The goods and rights that make up the security interest are valued in compliance with the valuation rules used by the CIS to value its assets and off-balance sheet items;

2. The management company obtains disclosure of the value of the goods and rights that make up the security interest as calculated by the beneficiary of the security interest;
3. The management company establishes an internal procedure for daily monitoring of the value of the goods and rights that make up the security interest, as reported by the beneficiary of the security interest in accordance with 2;
4. The internal procedure referred to in 3 includes an arrangement for reducing any differentials in value found. The procedure establishes the thresholds that trigger the arrangement and it defines the decisions to be made to reduce the valuation differential found.

Paragraph 2 - Annual financial statements

Article 411-34

The accounts of the CIS shall be kept in such a way that all of its assets and liabilities can be identified directly at any time.

Article 411-35

At the end of each accounting year, the board of directors or the executive board of the SICAV or the management company of the FCP compiles an inventory of the various assets and liabilities of the CIS. The depositary sends the certificate provided for in Article 323-10 to the management company.

If the contributions in kind involve one or more sub-funds in a CIS, the statutory auditor shall produce a report for each sub-fund concerned.

Paragraph 4 - Charges paid by the CIS

Article 411-41

If the compensation of the depositary's delegates, the management company and the companies related to it as defined in Article R. 214-43 of the Monetary and Financial Code that perform tasks on behalf of the CIS or act as counterparties in transactions by the CIS is charged directly to the assets of the CIS, such charges shall be within the limit of the maximum charges of the CIS, as defined in the prospectus, except for the proportion charged by the CIS in which the investment is made.

Article 411-42

Article 411-43

The statutory auditor's fees are set by mutual agreement between the auditor and the management company in consideration of the programme of audit tasks deemed to be necessary.

Sub-section 3 - Mergers

Article 411-44

I. - This sub-section applies to mergers of French CIS covered by this chapter and foreign CIS that comply with Directive 2009/65/EC of 13 July 2009, or mergers of two French CIS covered by this chapter where at least one of them has been subject to the notification provided for in Article 411-136.

This sub-section applies to the sub-funds of such CIS.

A merger of a French CIS covered by this chapter that does not meet the requirements provided for in the first paragraph is subject to the procedure described in Chapter II, Section 1, sub-section 1.

II. - Mergers may take one of the two following forms:

The consequences of this transaction are as follows:

- a) The assets and liabilities of the merging CIS are transferred to the receiving CIS or, where applicable, to the depositary of the foreign receiving CIS;
 - b) The holders of the merging CIS become holders of the receiving CIS and, where applicable, they are entitled to a cash payment of up to 10% of the net asset value of their units or shares in the merging CIS;
 - c) The merging CIS ceases to exist on the date the merger takes effect.
2. Or a merger where a new CIS, called the "receiving CIS", is set up by two or more CIS or CIS sub-funds, called "merging CIS", which then transfer all of their assets after or at the time of their winding up in exchange for the attribution of units or shares in the receiving CIS to their holders and, possibly, a cash payment of up to 10% of the net asset value of such units or shares.

The consequences of this transaction are as follows:

- a) The assets and liabilities of the merging CIS are transferred to the newly set up receiving CIS or, where applicable, to the depositary of the foreign receiving CIS;

- b) The holders of the merging CIS become of holders of the newly set up receiving CIS and, where applicable, they are entitled to a cash payment of up to 10% of the net asset value of their units or shares in the merging CIS;
- c) The merging CIS cease to exist on the date the merger takes effect.

Article 411-45

If the CIS is managed by an management company, legal costs, as well as the costs of advisory and administrative services related to preparing and implementing the merger are not charged to the merging CIS, or the receiving CIS, or to their holders.

Article 411-46

A French CIS subject to the merger procedure provided for in this sub-section shall apply the internal procedures described by Chapter II, Section 1, Sub-section 1 of this Book.

The merging CIS and the receiving CIS draft a "joint merger proposal" containing the information stipulated by an AMF Instruction, as well as supplementary information that they may add.

Article 411-47

The depositaries of the merging CIS and the receiving CIS issue a "compliance statement" after verifying the compliance of the following information in the "joint merger proposal" with the legal and regulatory requirements in force and with the provisions of the fund rules or articles of incorporation of their respective CIS:

- a) Identification of the form of the merger and the CIS concerned;
- b) Planned date for the merger to take effect;
- c) Rules applying to the asset transfer and to the exchange of units or shares.

Article 411-48

If the merging CIS is French, the reports on the execution terms of the merger are prepared by the statutory auditors of the merging CIS and the receiving CIS. However, one of the statutory auditors may produce a single report on behalf of the CIS concerned.

The report(s) shall validate the following:

- a) The criteria used to value the assets and, where applicable, the liabilities on the day when the exchange ratio referred to in Article 411-60 is calculated;
- b) Where applicable, the cash payment per unit or share;
- c) The method used to calculate the exchange ratio, and the actual exchange ratio set on the day the ratio referred to in Article 411-60 is calculated.

Copies of the statutory auditors' reports shall be made available on request and free of charge to the holders of the CIS concerned.

The reports shall also be made available to the AMF and, where applicable, the competent authorities supervising the foreign CIS.

Article 411-49

If the merging CIS is French, it shall submit the following to the AMF:

1. The joint merger proposal, duly approved by the merging CIS and the receiving CIS;
2. The updated version of the prospectus and the key investor information document of the receiving UCITIS, if it is established in another European Union Member State;
3. The compliance statements from the depositaries of the merging CIS and the receiving CIS referred to in Article 411-47;
4. Information about the proposed merger that the receiving and merging CIS intend to provide to their respective holders.

This information shall be provided in French and, if the receiving CIS is established in another European Union Member State, in one of the official languages of that Member State or in a language accepted by the competent authorities of that Member State.

Article 411-50

If the receiving CIS is established in another European Union Member State and the AMF has received all of the information referred to in Article 411-49, the AMF immediately transfers copies of this information to the competent authorities of the home Member State of the receiving CIS. The AMF and the competent authorities of the home Member State of the receiving CIS each examine the potential impact of the proposed merger on the holders of the merging CIS and the receiving CIS to determine whether appropriate information shall be provided to the holders.

If the AMF deems it necessary, it may issue a written demand for clarification of the information aimed at the holders of the merging CIS.

If the competent authorities of the home Member State of the receiving CIS deem it necessary, they may issue a written demand, within fifteen working days of the day of receipt of the copies of all the information referred to in Article 411-49, requiring the receiving CIS to amend the information to be provided to its holders.

In this case the competent authorities of the home Member State of the receiving CIS notify the AMF of their dissatisfaction with the information.

They shall notify the AMF within twenty working days of the day of receipt of the notification, if they deem the amended information aimed at the holders of the receiving CIS to be satisfactory.

Article 411-51

If the merging CIS is French, the AMF authorises the proposed merger, if the following conditions are met:

1. The proposed merger complies with the requirements of the provisions of this sub-section;
2. Notification regarding the receiving CIS has been received under the terms of the second paragraph of II in Article L. 214-1 of the Monetary and Financial Code for marketing of its units or shares in France and in all of the European Member States where the merging CIS is marketed;

The AMF and, if the receiving CIS is established in another European Union Member State, the competent authorities of the home Member State of the receiving CIS deem that the information to be provided to the holders is satisfactory, or they do not give any sign of their dissatisfaction under the terms of the fourth paragraph of Article 411-50.

Article 411-52

If the AMF deems that the application is incomplete, it will ask the merging CIS for supplementary information within ten working day of the day of receipt of the information referred to in Article 411-49.

The AMF will notify the merging CIS of its decision whether to authorise the merger within twenty working days of the day of receipt of all the information referred to in Article 411-49.

If the receiving CIS is established in another European Union Member State, the AMF shall notify the competent authorities of the home Member State of the receiving CIS of its decision.

Article 411-53

If the AMF authorises the merger, the merging CIS and the receiving CIS shall provide their respective holders with a document containing helpful and accurate information about the proposed merger, referred to in an AMF Instruction.

The purpose of this document is to enable unit holders to make an informed judgment about the impact of the merger on their investment and to exercise the rights attributed to them by Article 411-56.

The information contained in this document shall be written in a concise manner and in non-technical language that enables holders to make an informed judgment of the impact of the proposed merger on their investment.

If the merger is a cross-border merger, the merging UICITS and the receiving CIS respectively shall explain in plain language any terms or procedures relating to the other CIS which differ from those commonly used in its country.

The information provided to holders of the merging CIS shall meet the needs of investors who have no prior knowledge of the features of the receiving CIS or of the manner of its operation. It shall draw their attention to the key investor information of the receiving CIS and emphasise the desirability of reading it.

The information to be provided to the unit holders of the receiving CIS shall focus on the operation of the merger and its potential impact on the receiving CIS.

This document shall be sent at least thirty days before the cutoff date for requesting repurchase, redemption or conversion of units or shares free of charge, in accordance with Article 411-56.

Article 411-54

If the merging CIS or the receiving CIS has been the subject of a notification for the marketing of its units or shares in another European Union Member State, the information referred to in Article 411-53 shall be provided in the official language or one of the official languages of the home Member State of the CIS concerned, or in a language accepted by the competent authorities. The CIS required to provide the information is responsible for its translation, which shall be faithful to the original information.

Article 411-55

The merging CIS and the receiving CIS shall provide their holders with the document referred to in Article 411-53 on paper or in another durable medium within the meaning of Article 314-26.

If the information is provided using a durable medium other than paper, the following conditions shall be fulfilled:

1. The provision of information is appropriate to the context in which the business between the unit holder and the merging CIS or the receiving CIS is, or is to be, carried on;
- 2° The unit holder to whom the information is to be provided, when offered the choice between information on paper or in another durable medium, shall specifically choose that other medium.

Provision of information by means of electronic communications is treated as appropriate to the context in which the business between the merging CIS or the receiving CIS and the unit holder is, or is to be, carried on if it is demonstrated that the unit holder has regular access to the Internet. The provision by the unit holder of an e-mail address for the purpose of carrying on that business such dealings is deemed to meet this requirement.

Article 411-56

The unit holders of the merging CIS and the receiving CIS shall obtain, without any charge other than those retained by the CIS to meet disinvestment costs, the repurchase or redemption of their units or, where possible, to convert them into units in another CIS with similar investment policies and managed by the same management company or by any other company with which the management company is linked by common management or control, or by a substantial direct or indirect holding

This right can be exercised as of the date on which unit holders of the merging CIS and the receiving CIS are notified of the proposed merger under the terms of Article 411-53 and expires five working days before the day on which the exchange ratio referred to in Article 411-60 is calculated.

Article 411-57

An updated version of the key investor information document, incorporating the changes relating to the planned merger, shall be sent to holders of the merging CIS and the receiving CIS immediately.

Article 411-58

Between the date on which the document referred to in Article 411-53 is provided to the holders and the entry into effect of the merger, the said document and the updated key investor information document of the receiving CIS shall be provided to any person buying or subscribing units or shares in the merging CIS or the receiving CIS or any person who requests the fund rules, articles of incorporation, prospectus or key investor information document of one of the CIS concerned.

Article 411-59

If the receiving CIS is French, the entry into effect of the merger shall be disclosed in a durable medium within the meaning of Article 314-26 that is accessible to the public and sent to the unit holders of the CIS concerned.

The merging CIS and the receiving CIS shall notify the AMF and, where applicable, any foreign competent authority supervising them of the entry into effect of the merger.

Article 411-60

If the receiving CIS is French:

1. The merger takes effect at least thirty days after the date of publication of the proposal;
2. The exchange ratio of units or shares in the merging CIS for units or shares in the receiving CIS is calculated on the day the merger takes effect;
3. The net asset value used for cash payments is the same as that used for the merger.

Article 411-61

If the receiving CIS is French, it shall confirm to its depositary that the transfer of the assets of the merging CIS and, where applicable, the transfer of the liabilities of the merging CIS have been executed. This confirmation shall be made in a durable medium within the meaning of Article 314-26 on the same day the transfers take place.

Article 411-62

If the receiving CIS is French, it will have six months from the day the merger take effect to comply with Articles R. 214-21 to R. 214-25 of the Monetary and Financial Code.

Article 411-63

Creditors of a French CIS involved in a merger governed by this sub-section and holding a claim that predates the notice given of the execution of the merger in accordance with Article 411-59 may oppose the merger within thirty days of the publication of such notice.

Sub-section 4 - Fund administration**Article 411-64**

Fund administration covers the following tasks:

1. Centralising subscription and redemption orders for CIS units or shares;
2. Managing the CIS unit or share registry.

Article 411-65

I. - The key tasks of centralising subscription and redemption orders for CIS units or shares, under the provisions of Article L. 214-13 of the Monetary and Financial Code, are as follows:

1. Providing centralised reception and registration of subscription and redemption orders;
2. Supervising compliance with the cutoff for centralising subscription and redemption orders referred to in the prospectus;
3. Reporting the outcome of centralised reception of subscription and redemption orders for the CIS as an amount and, where applicable, as the aggregate number of units or shares subscribed or redeemed;
4. Valuing the orders after receiving information about the net asset value per unit or share from the CIS; To enable the order centraliser to perform its tasks promptly, the CIS shall send it the information about the net asset value per unit or share as soon as it is available;
5. Reporting the information that the institution managing the unit or share registry needs to create or cancel units or shares;
6. Reporting information about the outcome of the order processing to the entity that sent the order to the order centraliser of the CIS.

II. - The order registration contains the following information:

1. The CIS concerned;
2. The person who gave or sent the order;
3. The person who received the order;
4. The time and date of the order;
5. Payment terms and media;
6. The type of order;
7. The order execution date;
8. The number of units or shares subscribed or redeemed;
9. The subscription or redemption price per unit or share;
10. The total value of the units or shares subscribed or redeemed;
11. The gross value of the order, including subscription charges or the net amount of the order after deducting the redemption charges.

Article 411-66

The entity responsible for centralising orders is referred to as the "order centraliser" in the prospectus of the CIS. Where applicable, any entity responsible for centralising orders in accordance with the provisions of Article 411-67 shall be named in the prospectus.

Article 411-67

I. - The order centraliser may delegate the performance of centralising tasks to:

1. One of the persons referred to in Article L. 214-13 of the Monetary and Financial Code, or to any other investment service provider located in a State party to the Agreement on the European Economic Area;
2. An intermediary authorised within the European Economic Area to perform centralising tasks within the meaning of Article 411-65.

II. - An agreement is entered into by the order centraliser and the entity to which the performance of centralising tasks is delegated. This agreement shall contain the following clauses:

1. The key centralising tasks, as referred to in Article 411-65, that are delegated to the entity, including the procedures for registering subscription and redemption orders;
2. The nature of the information necessary for the entity to perform the tasks delegated to it, along with the procedures for the order centraliser to transmit such information to the entity, especially information about the net asset value of the CIS;
3. The procedures for handling an event affecting the subscription and redemption process for CIS units or shares;
4. A clause allowing the AMF effective access to the data about centralising subscription and redemption orders for units or shares in the CIS and to the business premises of the entity.

The procedures for terminating the agreement at the initiative of either party shall ensure the continuity and the quality of the service provided.

The order centraliser shall give the CIS and, where applicable, the management company that represents it to the depositary prior notice of any change in the entity to which the centralising tasks have been delegated.

The order centraliser is responsible for the performance of the centralising tasks that it delegates.

For CIS that were created before Articles 411-64 to 411-71 came into force, the entity mentioned in the prospectus as responsible for centralising orders is presumed to be acting on a delegation from the CIS.

Article 411-68

A subscription or redemption order for CIS units or shares sent to an order centraliser or to any other entity to which centralising tasks have been delegated becomes irrevocable as of the order centralisation cutoff specified in the prospectus of the CIS.

A subscription and redemption order for CIS units or shares requires the investor and the entity that sent the order to the order centraliser, or to any other entity to which the performance of centralising tasks has been delegated, to pay for or deliver said units or shares.

Article 411-69

The term: "direct order" denotes a subscription and redemption order for CIS units or shares sent directly to the order centraliser and accepted by the latter subject to the provisions of an agreement between the order centraliser and the CIS or, where applicable, the management company representing the CIS, that sets out the requirements for accepting and settling direct orders.

The CIS or the management company that represents it shall implement an appropriate arrangement for managing the risks involved in accepting and settling such orders.

Article 411-70

The unit or share registry management tasks are as follows:

1. Produce documented and traceable records of the number of securities corresponding to the creation or cancellation of units or shares resulting from the centralisation of subscription and redemption orders, and determine the resulting number of securities making up the capital of the CIS; the unit or share registry manager ensures that a corresponding entry has been posted to the cash account of the CIS.

2. Identify the owners of registered units or shares and recording the number of units or shares owned by each owner. If the CIS is not admitted to the transactions of the central depository, the entity responsible for managing the unit or share registry also records the number of bearer units or shares held by custodians that are directly identified in the unit or share registry, where applicable;
3. Organise simultaneous payments and deliveries of securities resulting from the creation or cancellation of units or shares; the registry manager also organises deliveries and, where applicable, payments resulting from any other transfers of units or shares. If a securities settlement system is used, the unit or share registry manager ensures that it has appropriate procedures in place;
4. Ensure that the total number of units or shares issued on a given date corresponds to the number of circulating units or shares on the same date, including registered units or shares and, where applicable, bearer units or shares.
5. Organise coupon and dividend payments and organise the processing of corporate actions affecting the CIS units or shares.

Article 411-71

Unit or share registry management is part of the administrative management of the CIS. The CIS or, where applicable, the management company that represents it may delegate the performance of the unit or share registry management tasks described in Article 411-70 to an investment services provider in accordance with the conditions set out in Article 313-77, 1 to 3 and 5 to 9.

SECTION 4 - CALCULATING GLOBAL EXPOSURE

Paragraph 1 - Measuring the global exposure of CIS to financial derivative instruments

Article 411-71-1

In accordance with the provisions of Article R. 214-18 of the Monetary and Financial Code, eligible securities and money market instruments hosting a financial derivative instrument are treated as financial derivative instruments within the meaning of this paragraph.

Sub-paragraph 1 - General provisions

Article 411-72

I. - The management company shall calculate the global exposure of CIS under its management at least once daily. If necessary, and depending on the investment strategy of the scheme, the management company may calculate the global exposure of a CIS several times daily.

The limits placed on global exposure shall be complied with on an ongoing basis.

II. - The global exposure of CIS shall be one of the following values:

1° Total exposure and leverage obtained by the managed CIS via financial derivative instruments. This total shall not exceed the scheme's net assets;

2° The market risk of the CIS portfolio, as defined in defined in Article 313-53-3.

Article 411-73

I. - To calculate the global exposure of the CIS under its management, the management company shall use either the commitment approach or the Value at Risk (VaR) approach specified in an AMF instruction.

Within the meaning of this paragraph, "value at risk" shall mean the estimated maximum potential loss at a given confidence interval and over a given period.

II. - The CIS management company shall ensure that the method that it uses to measure global exposure is appropriate, given the risk profile arising from the CIS investment strategy, the types and complexity of financial derivative instruments entered into, and the share of the CIS portfolio made up of financial derivative instruments.

III. - The management company shall use the VaR approach if the managed CIS presents one of the following characteristics:

- a) The CIS implements complex investment strategies that comprise a significant proportion of its investment policy;
- b) The CIS has significant exposure to non-standard financial derivative instruments;

- c) If the market risk, as defined in Article 313-53-3, borne by the CIS is not adequately captured by the commitment approach.

The VaR approach is supplemented by a stress-testing programme. An AMF instruction shall provide definitions for standard and non-standard financial derivative instruments.

IV. - A feeder CIS shall calculate its global exposure to financial derivative instruments by adding its own direct exposure to financial derivative instruments entered into in accordance with Article L. 214-22 of the Monetary and Financial Code to:

- a) either the real exposure of the master CIS to financial derivative instruments, proportionate to the feeder's investment in the master CIS;
- b) or the maximum potential global exposure of the master CIS to financial derivative instruments provided for under the master CIS rules or instruments of incorporation, proportionate to the feeder's investment in the master CIS.

Sub-paragraph 2 - Commitment approach

Article 411-74

I. - Where the management company uses the commitment approach to calculate global exposure, it shall use the same method for all positions in financial derivative instruments, whether they are employed as part of the CIS's general investment policy, for the purposes of risk mitigation or for the purposes of efficient portfolio management, as provided for in Article R. 214-18 of the Monetary and Financial Code.

II. - Where a CIS uses, in accordance with Article L. 214-21 of the Monetary and Financial Code, techniques and instruments intended to increase its leverage or exposure to market risk, including repurchase agreements and securities-lending transactions, the management company shall take these transactions into account when calculating global exposure.

III. - If the global exposure of a CIS is determined using the commitment approach, each financial derivative position shall be converted to the market value of an equivalent position in the underlying asset of that derivative.

An AMF instruction shall specify the steps for measuring global exposure using the commitment approach as well as the conversion formulae.

Article 411-75

I. - The management company may take account of netting and hedging arrangements, where these arrangements do not disregard obvious and material risks and result in a clear reduction in risk exposure.

II. - 1° A netting arrangement comprises a combination of positions in financial derivative instruments or securities relating to the same underlying asset, regardless of the contracts' due dates, where the positions are solely intended to eliminate the risks linked to positions taken through other financial derivative instruments or securities.

2° A hedging arrangement is a combination of positions in financial derivative instruments and/or securities that:

- a) do not necessarily refer to the same underlying asset;
- b) are entered into solely to offset risks linked to positions taken via other financial derivative instruments or securities.

3° A CIS that has primarily entered into interest rate derivatives may use specific duration netting rules, whose procedures are specified in an AMF instruction, to take account of correlations between instruments with different maturities on the yield curve. Specific duration netting rules may not be used if they lead the CIS risk profile to be incorrectly assessed.

A CIS that uses specific duration netting rules for its interest rate derivatives may still take hedging arrangements into consideration. However, only interest rate derivatives that are not included in hedging arrangements may apply the specific netting rules.

Article 411-76

I. - If the use of financial derivative instruments does not generate additional exposure for the CIS and if the following criteria are met, it is not necessary to include the underlying exposure in the commitment calculation:

- 1° It is designed to exchange the performance of all or part of the scheme's assets for the performance of other reference financial instruments;
- 2° It totally eliminates the market risk of the assets being exchanged. The performance of the CIS no longer depends on the performance of the assets being exchanged;

3° It does not include an additional optional component, leverage, or any additional risk as compared with a direct investment in the reference assets.

II. - A financial derivative instrument is not included in the calculation of global exposure using the commitment approach if it meets the following criteria:

- a) The combination of the derivative and a cash amount invested in assets earning the risk-free rate may be used to obtain exposure equivalent to that obtained through a direct investment in the underlying;
- b) It does not generate additional exposure or leverage and does not add any market risk as defined in Article 313-53-3.

III. - If the commitment approach is used, it is not necessary when calculating global exposure to include temporary cash borrowing arrangements entered into on behalf of the CIS in accordance with Article R. 214-29 of the Monetary and Financial Code.

Sub-paragraph 3 - VaR approach

Article 411-77

I. - The global exposure of a CIS calculated using the VaR approach covers all positions in the portfolio.

The maximum VaR of a CIS is established by the management company based on its identified risk profile.

II. - The VaR of a CIS is determined over a period of 20 business days at a 99% confidence interval. The effective observation period of risk factors should be at least 250 business days but VaR shall be calculated over a shorter observation period if price volatility increases significantly. The data set used in the calculation should be updated at least quarterly, or more often if market prices are subject to material changes.

An AMF instruction will specify the conditions for exemptions to II.

VaR shall be calculated at least daily.

An AMF instruction will specify the steps for calculating global exposure using the VaR approach.

Article 411-78

I. - When measuring global exposure using the VaR approach, the management company is responsible for selecting the most appropriate method - relative or absolute VaR - given the risk profile of the CIS and the investment strategy.

The management company shall be able to demonstrate that the VaR method used is appropriate. The choice of method and the underlying assumptions are documented.

The global exposure of a CIS calculated using the relative VaR method is equal to the VaR of the CIS portfolio divided by the VaR of a reference portfolio, defined in an AMF instruction, minus one, multiplied by the scheme's net assets.

II. - The absolute VaR method should limit maximum VaR to 20% of the market value of the scheme's net assets.

An AMF instruction shall stipulate the conditions for applying the provisions of this article.

Article 411-79

The management company shall establish:

- 1° A programme for back-testing the model's calculations using historical data to check the precision and performance of the VaR model;
- 2° A rigorous and comprehensive stress-testing programme adjusted to the risk profile of the CIS that can be used to simulate the behaviour of the CIS under stress.
- 3° Where required by the risk profile and investment strategy, risk management tools and methods suited to the scheme's risk profile and investment strategy may be used to supplement the programmes referred to in 1° and 2°.

Sub-paragraph 4 - Global exposure of structured funds**Article 411-80**

I. - The global exposure of a structured fund may be measured using the commitment approach or the VaR approach.

If the structured fund meets all the following criteria, it may apply specific rules, set out in an AMF instruction, when measuring global exposure using the commitment approach:

- 1° The remuneration offered to investors is based on a calculation formula whose possible predefined payoffs may be divided into a finite number of scenarios that depend on the value of the underlying assets. Each scenario offers investors a different payoff;
- 2° The investor may be exposed only to one payoff scenario at a time during the life of the CIS;
- 3° It is appropriate to use the commitment approach to measure the global exposure for each individual scenario, taking into account the provisions of Article 411-73;
- 4° The final maturity of the CIS does not exceed nine years, starting from the end of the marketing period;
- 5° The CIS does not accept new subscriptions from the public following the initial marketing period;
- 6° The maximum loss that the CIS may bear when switching from one scenario to another shall not exceed 100% of the net asset value at the end of the marketing period;
- 7° The impact of each underlying asset on the investor payoff profile, at a given date, owing to a switch in scenario, shall comply with the diversification rules referred to in Article R. 214-21 of the Monetary and Financial Code, based on the net asset value at the end of the marketing period.

Sub-paragraph 5 - Entry into force**Article 411-81**

By way of derogation to the provisions of Article 411-72, if they meet the criteria of 1° of I of Article R. 214-28 of the Monetary and Financial Code as well as the criteria of 1° to 3° of I of Article 411-80, structured funds already in existence at the date on which Decree 2011-922 of 1 August 2011 enters into force may calculate their global exposure as the value of the maximum loss on the date that trades in derivatives were entered into, provided that the fund formula does not change.

Paragraph 2 - Counterparty risk and issuer concentration**Article 411-82**

1° The management company shall ensure that the counterparty risk of the CIS as defined in Article 313-53-3 arising from an over-the-counter financial derivative instrument (OTC derivative) is subject to the limits set out in Article R. 214-21 of the Monetary and Financial Code.

2° When calculating the exposure of the CIS to a counterparty in accordance with the limits set out in I of Article R. 214-21 of the Monetary and Financial Code, the management company will use the positive mark-to-market value of the OTC derivative with that counterparty.

The management company may net the derivative positions of a CIS with the same counterparty, provided it has the means, as provided for under Article L. 211-36-1 of the Monetary and Financial Code or equivalent foreign provisions, to enforce netting agreements with the counterparty on behalf of the CIS. Netting is only permissible with respect to OTC derivatives with the same counterparty, and not with respect to other exposures the CIS may have with that same counterparty;

3° The management company may reduce the exposure of a CIS to a counterparty in an OTC derivative transaction by receiving collateral for the benefit of the CIS. This collateral shall be sufficiently liquid so that it can be sold quickly at a price that is close to its pre-sale valuation;

4° The management company will take account of collateral when calculating exposure to counterparty risk as referred to in I of Article R. 214-21 of the Monetary and Financial Code, if it provides collateral to an OTC counterparty on behalf of the CIS. Collateral may be taken into account on a net basis only if the management company has the legal and regulatory means to enforce netting agreements with the counterparty on behalf of the CIS;

5° The management company shall use as its basis the underlying exposure created through the use of OTC derivatives in accordance with the commitment approach, to ensure compliance with the concentration limits per entity category mentioned in Article R. 214-21 of the Monetary and Financial Code;

6° As regards exposure arising from OTC derivatives transactions referred to in 3° of III of Article R. 214-21 of the Monetary and Financial Code, the management company shall include in its calculation any exposure to counterparty risk from such contracts.

Article 411-82-1

Assets received as collateral by the CIS to reduce counterparty risk arising from a financial derivative instrument or a temporary acquisition or sale of financial instruments in accordance with Article 411-82 shall comply at all times with the following principles:

1° Any asset received as collateral shall be sufficiently liquid so that it can be sold quickly at a price consistent with its pre-sale valuation. Assets received as collateral are in principle traded on a highly liquid market and transparently priced;

2° It shall be possible to value assets received as collateral at least once daily.

An inability to independently value assets received as collateral would obviously put the CIS at risk, particularly if valuation is model-based and the assets are illiquid.

Where appropriate, the CIS shall apply an appropriate haircut to the market value of assets received as collateral.

In addition, if these assets present significant volatility risk, the CIS shall apply extremely conservative haircuts;

3° Issuer credit quality is an important criterion when assessing the eligibility of assets received as collateral. Suitable haircuts are applied to the market value of assets received as collateral if the issuer does not have a very high credit rating;

4° Any correlation between the counterparty and assets received as collateral to reduce the exposure of the CIS to this counterparty shall be avoided;

5° There is an obvious risk for the CIS if assets received as collateral are highly concentrated in one issuer, sector or country;

6° The management company shall have appropriate technical and human resources, notably in terms of operational systems and the legal expertise needed to manage collateral efficiently;

7° Assets received as collateral shall be held by a depositary, which shall be unrelated to the counterparty to the OTC transaction or legally secured from the consequences of a failure of the counterparty;

8° The CIS shall be able to realise the collateral at all times without reference to or approval from the counterparty;

9° Non-cash collateral may not be sold, reinvested or pledged;

10° Cash collateral may only be invested in risk-free assets.

Article 411-83

I. - To calculate the counterparty risk referred to in I of Article R. 214-21 of the Monetary and Financial Code, the CIS will take account of collateral, and subsequent variations in that collateral, granted to an investment services provider for derivatives concluded on a market referred to in a, b or c of Article R. 214-11 of the Monetary and Financial Code or traded OTC, where such collateral is not protected by customer asset protection rules or other similar rules to protect the CIS against the risk of failure of the investment services provider.

II. - To calculate the limits referred to in III of Article R. 214-21 of the Monetary and Financial Code, the CIS shall take into account the net risk to which it is exposed via the transactions referred to in Article R. 214-18 of the Monetary and Financial Code with a single counterparty. The net risk is equal to the amount that may be recovered by the scheme less any collateral posted in favour of the CIS.

The risk arising from reuse of collateral posted in favour of the CIS shall also be taken into account when calculating the issuer ratio.

III. - To calculate the limits referred to in Article R. 214-21 of the Monetary and Financial Code, the CIS shall determine whether the counterparty to which it is exposed is an investment services provider, a clearing house or another entity in the context of an OTC derivative.

IV. - The limits set in Articles R. 214-21 and R. 214-25 of the Monetary and Financial Code take into account exposure linked to the underlying assets of derivatives, including embedded derivatives, relating to eligible financial instruments or money market instruments.

V. - Where the CIS calculates concentration limits by category of issuer, the underlying assets of derivatives, including in the case of embedded derivatives, shall be taken into account to determine exposure to a given issuer resulting from these positions.

Exposure arising from a position shall be taken into account when calculating concentration limits by category of issuer.

This exposure shall be measured using the commitment approach, where appropriate.

The estimated maximum potential loss arising from default of the issuer shall be taken into account if this gives a more conservative result.

The provisions of this article shall apply to all CIS, whether or not they use the VaR approach to calculate global exposure.

The provisions of this article do not apply to index-based derivatives linked to an index meeting the criteria of Article R. 214-16 of the Monetary and Financial Code.

Paragraph 3 - Procedure for valuing OTC derivatives

Article 411-84

I. - The management company shall ensure that exposures are measured at market values that are not based merely on market quotations prepared by the counterparties to over-the-counter (OTC) transactions in derivatives contracts and that comply with the criteria set out in 3° of Article R. 214-15 of the Monetary and Financial Code.

II. - For the purposes of applying I, the management company shall establish, implement and maintain operational methods and procedures to ensure adequate, transparent and fair valuation of CIS exposure to OTC derivatives.

The management company shall ensure that the fair value measurement of OTC derivatives is appropriate, precise and independent.

The valuation methods and procedures shall be appropriate and commensurate with the nature and complexity of the OTC derivatives in question.

The management company shall comply with the requirements set out in the final paragraph of Article 313-77 and 9° of Article 314-3-1 if the methods and procedures used to value OTC derivatives require the involvement of third parties.

III. - For the purposes of applying I and II, specific tasks and responsibilities are entrusted to the risk management function.

IV. - The valuation methods and procedures mentioned in II shall be described in a document provided for this purpose.

SECTION 5 - MASTER AND FEEDER FUNDS

Article 411-85

A master CIS in which at least two feeder CIS are invested may be authorised as compliant even if it does not have the sole aim of promoting the sale of its units or shares to the public and of collecting funds from other investors.

Paragraph 1 - Information-sharing agreement between master and feeder CIS or internal conduct of business rules

Article 411-86

The feeder CIS or the management company representing it shall sign an information-sharing agreement with the master CIS or the management company representing it. Under the agreement, the master CIS shall provide the feeder CIS with all the documents and information required for the feeder to comply with its regulatory obligations.

An AMF instruction will specify the content of this agreement.

Article 411-87

Where the master CIS and the feeder CIS are authorised by the AMF, the agreement between the two CIS is governed by French law and subject to the jurisdiction of the French courts.

Where the master CIS or the feeder CIS is established in another Member State of the European Union, the agreement shall provide that the applicable law shall be either the law of the country where the master CIS is established or the law of country where the feeder CIS is established and that both parties agree to the exclusive jurisdiction of the courts of the country whose law they have stipulated to be applicable to the agreement.

Where the master CIS and the feeder CIS are managed by the same management company, the agreement may be replaced by internal conduct of business rules that ensure compliance with the requirements of this section.

The internal conduct of business rules of the management company shall include appropriate measures to mitigate conflicts of interest that may arise between the feeder CIS and the master CIS, or between the feeder CIS and other holders of the master CIS, to the extent that these are not sufficiently addressed by the measures applied by the management company to prevent conflicts of interest from harming the interests of its customers, pursuant to 3° of Article L. 533-10 of the Monetary and Financial Code.

An AMF instruction will specify the content of these rules.

Article 411-88

The master CIS and the feeder CIS shall take appropriate measures to coordinate the timing of calculating and publishing net asset values, to prevent market timing.

Paragraph 2 - Agreement between depositaries

Article 411-89

Prior to authorisation of the feeder CIS and the feeder's investment in the units or shares of the master CIS, the depositaries of the master and feeder CIS shall enter into an information-sharing agreement in order to ensure the fulfilment of the duties of both depositaries.

This agreement shall allow the depositaries of the master and feeder CIS to receive all the documents and information needed to fulfil their duties.

An AMF instruction will specify the content of this agreement.

Article 411-90

Article 411-91

Where the master CIS or the feeder CIS is established in another Member State of the European Union, the information-sharing agreement signed by the depositaries shall include the same provisions on applicable law and court jurisdiction as the information-sharing agreement between the master CIS and the feeder CIS.

Where the exchange of documents and information between the master CIS and the feeder CIS is provided for under the internal conduct of business rules of the management company, the agreement between the depositaries of the master CIS and the feeder CIS provides that the law applying to the information-sharing agreement between both depositaries shall be either that of the Member State in which the feeder CIS is established or, where different, that of the Member State in which the master CIS is established, and that both depositaries agree to the exclusive jurisdiction of the courts of the Member State whose law is applicable to the information-sharing agreement.

The irregularities referred to in II of Article L. 214-22-2 of the Monetary and Financial Code that the depositary of the master CIS detects in the course of carrying out its function and that may have a negative impact on the feeder CIS shall include, but are not limited to:

- a) Errors in the net asset value calculation of the master CIS;
- b) Errors in transactions for or settlement of the purchase, subscription or request to repurchase or redeem units in the master CIS undertaken by the feeder CIS;
- c) Errors in the payment or capitalisation of income arising from the master CIS, or in the calculation of any related withholding tax;
- d) Breaches of the investment objectives, policy or strategy of the master CIS, as described in its fund rules or instruments of incorporation, prospectus or key investor information document;
- e) Breaches of investment and borrowing limits set out in national law or in the fund rules, instruments of incorporation, prospectus or key investor information document.

Paragraph 3 - Agreement between auditors of master and feeder CIS

Article 411-92

Prior to the authorisation of the feeder CIS, the auditors of the master and feeder CIS shall enter into an information-sharing agreement to ensure that they receive all the documents and information needed to fulfil their duties.

An AMF instruction will specify the content of this agreement.

In its audit report, the auditor of the feeder CIS takes account of the audit report of the master CIS.

Where the feeder CIS and the master CIS have different accounting years, the auditor of the master CIS produces an ad hoc report on the closing date of the feeder CIS.

The auditor of the feeder CIS shall report on any irregularities revealed in the audit report of the master CIS and on their impact on the feeder CIS.

Where the master CIS or the feeder CIS is established in another Member State of the European Union, the information-sharing agreement between the auditors of the master CIS and the feeder CIS shall contain the same provisions on applicable law and court jurisdiction as in the agreement between the master CIS and the feeder CIS.

Where the exchange of documents and information between the master CIS and the feeder CIS is provided for under the internal conduct of business rules of the management company, the agreement between the auditors of the master CIS and the feeder CIS provides that the law applying to the information-sharing agreement between both auditors shall be either that of the Member State in which the feeder CIS is established or, where different, that of the Member State in which the master CIS is established, and that both auditors agree to the exclusive jurisdiction of the courts of the Member State whose law is applicable to the information-sharing agreement.

Paragraph 4 - Expenses

Article 411-93

Where, in connection with an investment in the units of the master CIS, a distribution fee, commission or other monetary benefit is received by the feeder CIS, its management company, or any person acting on behalf of either the feeder CIS or the management company of the feeder CIS, the fee, commission or other monetary benefit shall be paid into the assets of the feeder CIS.

Article 411-94

The master CIS shall not charge subscription or redemption fees for the purchase by the feeder CIS of its units or the disposal thereof.

Article 411-103

It shall include, independent of the instruments invested in, a clear and easily understandable explanation of the fund's risk profile.

The rules or instruments of incorporation of the CIS form an integral part of the prospectus and shall be annexed thereto. The rules or instruments of incorporation are not, however, required to be annexed to the prospectus provided that the investor is informed that, on request, he or she will be sent those documents or be apprised of the place where he or she may consult them.

Article 411-115

The prospectus shall define the valuation rules for each category of financial instruments, deposits, securities and contracts.

Between one calculation of the net asset value and the next, a CIS may determine and publish an indicative net asset value called "estimated value". The prospectus shall stipulate the conditions for publishing this value and warn investors that the value may not be used as a basis for subscriptions or redemptions.

Any publication of an estimated value shall include this warning.

Article 411-116

The prospectus shall indicate in which categories of assets a CIS is authorised to invest.

It will also mention if transactions in financial derivative instruments are authorised, in which case it shall include a prominent statement indicating whether those operations may be carried out for the purpose of hedging or with the aim of meeting investment goals, and the possible outcome of the use of financial derivative instruments on the risk profile.

Article 411-117

I. - Where the CIS invests principally in any category of assets defined in Article 214-20 of the Monetary and Financial Code other than eligible securities or money market instruments, or where a CIS replicates a stock or debt securities index in accordance with Article R. 214-16 of the Monetary and Financial Code, its prospectus shall include a prominent statement drawing attention to the investment policy.

Article 411-119

Sub-section 5 - Net asset value

Article 411-123

CIS are required to determine their net asset value in accordance with the provisions of Articles 411-24 to 411-33. This net asset value shall be determined and published with a frequency that is suited to the nature of the financial instruments, contracts, securities and deposits held by the CIS.

CIS are required to publish the net asset value of their shares or units in an appropriate manner at least twice a month. However, the net asset value of shares or units may be published on a monthly basis, provided this does not impinge on the interests of shareholders or unitholders and subject to prior authorisation from the AMF.

The prospectus specifies the frequency with which the net asset value is compiled and published, as well as the reference calendar chosen.

Once the net asset value has been published, subscriptions and redemptions of CIS units or shares shall be carried out on the basis of this value, under the conditions set out in the prospectus.

This article applies to each subfund.

Article 411-124

CIS whose units or shares are admitted to trading on a regulated market operating on a regular basis shall compile and publish their net asset value each day the market on which they are listed is open for trading.

This article applies to each subfund.

Article 411-125

CIS shall compile an information document at the end of each half-year. An AMF instruction will specify the content of the circular.

Information documents shall be published within eight weeks of the end of every period defined by the prospectus.

Where the CIS is made up of subfunds, periodical information documents shall also be compiled for each subfund.

Advertisements from the CIS aimed at investors shall be clearly identified as such. They shall be accurate, clear and not misleading. More specifically, if an advertisement containing an invitation to buy units or shares in a CIS includes specific information about the CIS, it cannot contain information that contradicts the information provided in the prospectus and the key investor information document, or that understates the importance of such information.

Such advertisements shall state whether a prospectus exists and a key investor information document is available.

They shall stipulate where and in which languages holders and potential investors can obtain this information and these documents, or how they can gain access to them.

Article 411-127

Holders of a feeder CIS shall receive the same information and be offered the same possibilities to exit the fund free of charge as specified by an AMF instruction for the holders of units or shares in a collective investment scheme in the event of a merger, demerger or takeover, as well as, more generally, the information and possibilities offered to the holders of the master CIS.

The provisions of Articles 411-64 to 411-69 and of the first paragraph of Article 412-8 do not apply to collective investment schemes governed by this section.

These collective investment schemes are also subject to the following provisions.

Sub-section 1 - Authorisation

Article 412-119

I. - Authorisation of a SICAV for employee shareholders or an employee investment fund is subject to prior filing of an application with the AMF that contains the elements stipulated in an AMF Instruction.

If the AMF does not respond for one month following acknowledgement of receipt of the application, authorisation is deemed to be granted.

If the AMF asks for further information that requires the asset management company to submit a supplementary information sheet, the AMF will serve written notice stipulating that the information requested must arrive within sixty days. If it fails to receive the information within this period, the authorisation application is deemed to be rejected. The AMF issues a written acknowledgement of receipt when it has received all of the information requested. The acknowledgement of receipt stipulates a new authorisation waiting time, which cannot be longer than the one stipulated in the second paragraph.

II. - The waiting period referred to in I is reduced to eight days worked after the AMF issues an acknowledgement of receipt of the authorisation application if the collective investment scheme applying for authorisation is comparable to a scheme that has already been authorised by the AMF. The AMF assesses the comparability of the scheme applying for authorisation, called the "comparable scheme", and the scheme previously authorised by the AMF, called the "reference scheme", with respect to the following, *inter alia*:

1. The reference scheme and the comparable scheme are managed by the same asset management company or the same delegated investment manager, or by investment management companies or delegated investment managers belonging to the same corporate group, and subject to the AMF's assessment of the information supplied by the management company of the comparable collective investment scheme in accordance with the requirements stipulated in an AMF Instruction;

2. The reference scheme has been authorised by the AMF and established less than eighteen months before the date of the AMF's receipt of the authorisation application for the comparable scheme. At the reasoned request of the management company of the comparable scheme, the AMF may accept a reference scheme that has been authorised and established for more than eighteen months at the date of receipt of the authorisation application for the scheme;

3. The reference collective investment scheme has not undergone any changes other than those referred to in an AMF Instruction.

At the reasoned request of the management company of the comparable scheme, the AMF may allow a scheme that has undergone changes other than those referred to in the Instruction to be a reference scheme;

4. Subscribers to the comparable collective investment scheme shall meet the requirements for subscribing or purchasing the reference scheme.

5. The investment strategy, risk profile, operating rules and fund rules of the comparable collective investment scheme shall be similar to those of the reference scheme;

If anything in the founding documents of the comparable collective investment scheme is different from that of the reference scheme, it shall be clearly identified in the authorisation application for the comparable scheme in accordance with the requirements set out in an AMF Instruction.

The authorisation application of the comparable collective investment scheme shall be filed electronically.

If the AMF asks for further information that requires submission of a supplementary information sheet, the AMF serves such notice, stipulating that the information requested must arrive within sixty days. If it fails to receive the information within this period, the authorisation application is deemed to be rejected. The AMF issues a written acknowledgement of receipt when it has received all of the information requested. The acknowledgement of receipt stipulates a new authorisation waiting time of eight days worked or less.

If the comparable collective investment scheme or the reference scheme do not comply with the requirements referred to in this Article, the AMF notifies the applicant, stipulating that the supplementary information required to compile an authorisation application under the procedures described in I must be received within sixty days. If it fails to receive all of the supplementary information within this period, the authorisation application is deemed to be rejected. When all of the supplementary information has been received, the AMF issues a written acknowledgement of receipt and examines the authorisation application for the collective investment scheme under the conditions and procedures referred to in I. The acknowledgement of receipt stipulates a new authorisation waiting time of one month or less.

The guarantee may take the form of a personal guarantee of joint and several liability for the real estate investment company with a waiver of any claim to the proceeds from the sale or division of assets.

The wording of the bank guarantee granted shall be submitted for the AMF's approval with the visa application. The prospectus shall mention this guarantee.

Article 422-3

If at the end of a statutory one-year period, the conditions set out in the first paragraph of Article L. 214-54 of the Monetary and Financial Code have not been met, the management company must so notify the AMF within fifteen days, along with the bank, which shall be given the list of subscribers and the amounts to be reimbursed.

The general meeting must be held within two months of the end of the statutory one-year period.

The partners must be reimbursed within six months of the date of the abovementioned extraordinary general meeting.

The bank guarantee must not stipulate an expiry date that falls before the end of this six-month period.

- 2° Prepared a subscription application.

II. - The initial public offer shall in addition be contingent on:

- 1° Subscription of the initial capital by the founding partners;
- 2° Authorisation of the management company;
- 3° Acceptance of the property appraiser put forward;
- 4° Approval of the bank guarantee referred to in Article 422-2.

Article 422-5

A prospectus shall be prepared:

- 1° Before the initial offer to the public;
- 2° Whenever the difference between the subscription price of a share in the real estate investment company and the replacement value per share declared to the AMF is greater than 10 per cent;
- 3° Whenever material changes within the real estate investment company or the management company require amendments to the prospectus.

Article 422-6

The extraordinary general meeting must authorise any visa application on the basis of a report produced by the management company in the event of:

- 1° Issuance of new shares after a period of more than three years in which no increase in capital has occurred. In this event, the statutory auditor must review the management company's report;
- 2° Changes to the initial investment policy.

Article 422-7

If the AMF deems that the prospectus no longer corresponds to the real estate investment company's true circumstances, and after a formal demand to remedy the situation fails to produce results, the visa given to the prospectus shall be withdrawn.

The management company of the real estate investment company shall be notified of the reasoned decision to withdraw the visa and shall inform the supervisory board of the withdrawal.

This measure shall result in a ban on public offerings of shares in the real estate investment company.

Article 422-8

In the event of a capital increase, the issuance of new shares shall be announced in a notice produced in the form defined in an AMF instruction, before any advertising is made for subscriptions for new shares and before any subscriptions are accepted for the shares.

The prospectus, circulars, posters and newspaper advertisements informing the public about a secondary offering of shares or issuance of new shares shall include prominent mention of the disclosure document pursuant to Article L. 412-1 of the Monetary and Financial Code.

Issuers that have opted to be open-end companies under the provisions of Article L. 231-1 of the Commercial Code shall publish a notice about the terms for subscriptions and redemptions each time these terms change (price, dividend rights, etc.), according to the same procedures and within the same time limits specified in the first paragraph.

The information contained in the notice shall also be sent to shareholders by ordinary mail six or more days before the first day of the subscription period.

Article 422-9

In the event that new shares are issued, before subscribing each subscriber shall receive a comprehensive dossier containing:

Any subscription for shares shall be made using a subscription application dated and signed by the subscriber or the subscriber's agent, who shall write out in words the number of shares subscribed. The subscriber shall receive a copy of the application.

SECTION 3 - OPERATION

Sub-section 1 - Management agreements

Article 422-10

The agreements concluded between the real estate investment company and its management company or any partner of the management company shall be approved by the ordinary general meeting of the partners.

The rate, calculation base and other components of the management company's compensation may be stipulated in the real estate investment company's articles of association. Failing this, the exact terms of this compensation shall be set out in a special agreement between the management company and the real estate investment company, which shall be approved by the latter's ordinary general meeting.

The terms of the management company's compensation shall be disclosed to subscribers in the prospectus reviewed by the AMF.

All the fees or compensation paid to the management company must be defined in the prospectus.

Article 422-11

The management company's compensation shall consist of three types of fees:

- 1° A subscription fee, calculated on the basis of the sums received from capital increases;
- 2° A redemption fee, calculated on the basis of the transaction amounts when redemptions are made from the register provided for in Article 422-22, or on a flat fee basis;
- 3° A management fee based on the rental income received, net of tax. The calculation base for this fee may be extended to include net financial income, provided this extension is disclosed to the public.

The articles of association of the real estate investment company or, failing that, the prospectus shall give a precise description of the calculation base and rates used for the fees paid to the management company.

Sub-section 2 - Supervisory board

Article 422-12

The supervisory board shall give an opinion about the draft resolutions that the management company submits to the partners.

It shall refrain from taking any management action. In the event of default by the management company, the board shall immediately call a general meeting to choose a replacement.

Article 422-13

At the general meeting voting on the financial statements for the third full financial year, all members of the supervisory board shall be renewed in order to ensure the greatest possible representation of partners who are not linked to the founding partners.

Article 422-14

The management company shall maintain strict neutrality in the conduct of operations involved in the appointment of members of the supervisory board.

Prior to calling the general meeting to elect the new members of the supervisory board, the management company shall make a call for candidates so that non-founding partners obtain the greatest possible representation.

During the election of members of the supervisory board, only the votes of partners present at the meeting and postal ballots shall be counted.

Sub-section 3 - General meetings

Article 422-15

The ordinary general meeting to discuss the annual financial statements shall take place at least once a year in the six months following the end of the financial year, unless this period is extended by a court order.

Article 422-16

The management company, acting in the name of the real estate investment company, may contract loans, take on debts or make acquisitions against future payment, albeit subject to a maximum limit on the amounts.

The general meeting of the partners shall set this limit so that it is consistent with the real estate investment company's ability to pay on the basis of its ordinary revenues for loans and debts, and with its ability to borrow for acquisitions against future payment.

In the event of the sale of one or more of the company's rental properties without reinvestment of the proceeds, the general meeting shall have the sole authority to decide on the use of the proceeds of the sale for:

- 1° Full or partial distribution with, as appropriate, redemption of the par value of the shares;
- 2° An appropriation to the redemption fund provided for in Sub-section 3 of Section 5.

SECTION 4 - DISCLOSURES BY THE REAL ESTATE INVESTMENT COMPANY

Article 422-17

I. - An AMF instruction shall stipulate the conditions for making disclosures to partners using printed matter;

1° Prior to collating subscriptions: the prospectus reviewed by the AMF, the subscription application, the articles of association, the most recent annual report and the most recent quarterly statement shall be given to future partners;

2° The annual report, quarterly statements and circulars.

II. - The management company shall send all the documents intended for the partners to the AMF immediately.

The management company shall send the AMF, according to the conditions set out by the latter:

1° Quarterly statistics in the month following the end of the quarter;

2° Before 15 March of each year, the market value and replacement value of the real estate investment company, which must be submitted for the partners' approval;

3° Any changes in these values over the year after their approval by the supervisory board, along with proof of the change in value.

Article 422-18

Each year, an annual report for the real estate investment company shall be compiled, including a management report, the financial statements and notes for the year, the supervisory board's report and the statutory auditors' reports.

The annual report shall review the key characteristics of the management company and the membership of the supervisory board.

Article 422-19

The management report submitted to the general meeting shall give an account of:

1° Management policy, specific problems encountered and the outlook for the company;

2° Changes in capital and share prices;

3° Changes and valuation of real estate assets:

a) Acquisitions (realised, planned), sales, where appropriate, maintenance and renovation work between tenants;

b) The valuation work carried out by the property appraiser;

- c) Information about property appraisals conducted prior to acquisitions of buildings during the year where the sellers have direct or indirect interests in common with the management company or the partners in the real estate investment company;
- 4° Developments on the market for shares over the year;
- 5° Changes in rental revenue, the proportion of rental revenue in total revenue, expenses;
- 6° The situation of rental properties at the end of the year, building by building: exact location of the buildings, types of buildings, floor area, acquisition dates and completion dates, as appropriate, purchase prices net of taxes and duties, amounts of taxes and duties;
- 7° Occupancy of the buildings, with information about the occupancy rate expressed as an annual average of the ratio of rents billed to billable rents, significant vacancies reported during the financial year and the resulting revenue shortfall for the real estate investment company.

Article 422-20

Within forty-five days of the end of each quarter a newsletter shall be disseminated giving an account of the main developments in the company over the quarter in question.

SECTION 5 - SHARES AND REDEMPTION FUND

Sub-section 1 - Transfers

Article 422-21

For the purposes of this section:

- 1° The term "order" referred to in Article L. 214-59 of the Monetary and Financial Code shall designate any buy or sell order relating to real estate investment company shares sent to the management company or an intermediary;
- 2° The term "intermediary" shall designate any person other than the management company that is professionally qualified to receive a buy or sell order relating to real estate investment company shares;
- 3° The term "person" shall designate a natural or legal person.

Article 422-22

To be valid, orders shall be recorded in a register kept at the registered office of the company in accordance with the conditions set out in an AMF instruction.

No time limits shall apply to sell orders.

The recording of orders in the register referred to in the first paragraph of an open-ended real estate investment company shall constitute an adequate measure for the purpose of point II of Article L. 214-59 of the Monetary and Financial Code. Where this measure is applied, redemption requests shall be suspended.

Article 422-23

The management company or the intermediary shall be required to provide any person who requests them with the five highest buy prices and the five lowest sell prices listed in the register, along with the quantities bid and offered at these prices.

As soon as orders are received by the management company or the intermediary, they shall be recorded so that it is possible to reconstitute the steps in the processing of each order and the various transactions executed.

Article 422-24

The intermediary shall ensure that orders comply with the specifications given in an AMF instruction before sending them to the management company.

The intermediary shall send the orders to the management company with no prior summing or netting of buy and sell orders.

Article 422-25

The management company may hedge its exposure by:

- 1° Making the recording of buy orders subject to a cash payment under conditions set out in an AMF instruction; or

2° Setting a deadline for receiving cash payments, after which orders recorded in the register are cancelled if the funds are not paid. In this case, the funds must be received on or before the day before the execution price is established.

Article 422-26

The management company shall time-stamp the orders sent to it, after ensuring that they meet the requirements for recording in the register.

It shall record them in the register referred to in Article 422-22 in chronological order.

Article 422-27

Before setting the execution price, the management company shall ensure that there are no obstacles to the execution of sell orders.

In particular, it shall ensure that the seller is duly empowered to sell the shares and has enough shares to honour the sell order if it is executed.

Article 422-28

The management company may make a reasoned decision under its own responsibility to suspend the recording of orders in the register after so notifying the AMF.

If the suspension results from the occurrence of a major event that, if it became public knowledge, would have a significant impact on the execution price of shares or the partners' situation and rights, the management company shall cancel the orders recorded in the register and inform each of the persons giving the orders or the intermediaries individually.

The management company shall ensure full and effective public disclosure of the reasoned decision by all appropriate means.

Article 422-29

The management company shall fix the execution price periodically by matching the orders recorded in the register at regular intervals and at a set time.

It shall set the frequency with which execution prices are established, which must be at least once every three months and no more than once every business day. The prospectus shall mention the frequency.

Article 422-30

Changes in the frequency of price-setting must be warranted by market constraints.

The management company shall notify buyers, sellers, intermediaries and the public of such a change six or more days before it takes effect.

The procedures for public dissemination of such information shall be explained in the prospectus.

Article 422-31

The execution price shall be the price at which the greatest number of shares can be traded.

If several prices can be set on the basis of the first criterion at the same time, the execution price shall be the one that leaves the smallest number of shares untraded.

In the event that these two criteria fail to establish a single price, the execution price shall be the one closest to the last execution price.

The execution price and number of shares traded shall be made public by all appropriate means on the day the price is established.

If it is impossible to establish an execution price, the management company shall publish, under the conditions set out in the previous paragraph, the highest buy price and the lowest sell price, along with the number of shares offered at each of these prices.

Article 422-32

The orders shall be executed as soon as the execution price is established and solely at that price.

Buy orders recorded with higher prices and sell orders recorded with lower prices shall be executed first. Orders with identical price limits shall be executed in the order in which they were recorded in the register.

The management company shall immediately record the transactions executed in this way in the register of partners.

Article 422-33

The management company shall make the information about prices and numbers of shares contained in the order register available to the public. It shall take the necessary steps to reduce the time lag:

- 1° Between receiving orders and recording them in the register;
- 2° In informing the persons giving the orders or the intermediaries.

It shall provide proof of the execution of orders and their transmission for the persons giving the orders or the intermediaries.

Article 422-34

Intermediaries shall take the necessary steps to reduce the time lag:

- 1° Between receiving orders and sending them;
- 2° In informing the persons giving the orders.

They shall provide proof of the reception of orders and their transmission for the persons giving the orders and the management company.

Article 422-35

The documentary proof of the different steps referred to in Articles 422-32 and 422-40 must be retained for five years.

Sub-section 2 - Redemptions

Article 422-36

In open-ended real estate investment companies, requests for redemptions shall be notified to the management company by registered letter with acknowledgement of receipt.

As soon as they are received, such requests shall be recorded in the redemption request register and satisfied in chronological order.

Article 422-37

The management company of a company referred to in Article 422-36 shall determine the redemption price.

If the redemption is matched with a subscription, the redemption price cannot be higher than the subscription price less the subscription fee.

If the redemption is not matched, the redemption price cannot be higher than the market value or lower than the market value minus 10 per cent, unless authorised by the AMF.

Article 422-38

In the event that the redemption price falls, the management company shall notify the partners that have requested redemption of their shares no later than the day before the date on which the change takes effect by registered letter with acknowledgement of receipt.

If there is no response from the partners in the fifteen days following receipt of the registered letter with acknowledgement of receipt the redemption request shall be deemed to be valid at the new price. This information shall be included in the notice given in the letter.

Article 422-39

No new shares can be issued to increase the capital as long as the register referred to in Article 422-36 contains unfilled redemption requests at a price lower than or equal to the subscription price.

Sub-section 3 - Redemption fund

Article 422-40

The creation and provisioning of a fund for redeeming shares in order to contribute to the liquidity of the market in the shares shall be decided by the general meeting of the partners in the real estate investment company.

The sums allocated to the fund shall come from the proceeds of sales of rental properties or allocations of profits made when the annual financial statements are approved.

The cash allocated to the redemption fund shall be used exclusively for reimbursing partners.

Article 422-41

This redemption fund is a specific account for an exclusive purpose and distinguished as a separate item in the accounts.

Article 422-42

Write-backs of available sums in the redemption fund shall require authorization by a vote of the general meeting of partners, following a reasoned report from the managed company.

The AMF shall receive prior notice of such write-backs.

Sub-section 4 - Advertising and promotion

Article 422-43

For the purpose of placing shares with the public, real estate investment companies shall be entitled to use any type of advertising, provided it indicates:

- 1° The number of the edition of the official gazette (BALO) that contains the notice;
- 2° The name of the real estate investment company;
- 3° The existence of the currently valid prospectus reviewed by the AMF, the visa date and number, and the locations where it can be obtained free of charge.

SECTION 6 - PROPERTY APPRAISALS

Article 422-44

The market value and the replacement value of the real estate investment company shall be established by the management company at the end of each financial year on the basis of property appraisals carried out by an independent appraiser or several independent appraisers jointly. Each property shall be appraised at least once every five years.

The appraiser shall update the appraisal each year.

The task of the appraiser shall cover all the rental properties of the real estate investment company.

A newly appointed appraiser shall have the right to update appraisals conducted in the last five years.

The property appraisals must be carried out in accordance with methods that are appropriate for real estate investment companies.

Article 422-45

The appraiser shall be appointed by the general meeting for a four-year term following the AMF's acceptance of the candidate put forward by the management company.

The AMF shall be entitled to require further information.

Unless the AMF asks for further information, the candidate shall be deemed to be accepted by the AMF two months after the filing of a full application.

Candidates for renewal of appraisers must be presented to the AMF at least three months before the end of the financial year.

If the AMF deems that, during the appraiser's term, the eligibility requirements are no longer being met, it shall so notify the management company, which shall then put forward a new candidate and propose the appointment of the candidate to the general meeting.

Article 422-46

An agreement must be concluded between the appraiser and the real estate investment company. The agreement shall define the appraiser's tasks and set the terms for the appraiser's compensation.

The appraiser shall make an undertaking to the AMF about the conditions for performing the appraiser's tasks and the nature of the services provided in a form letter set out in an AMF instruction.

- 2° A memorandum explaining the differences between OPCIs and SCPIs, and the requirement that an SCPI must call a general meeting to submit the plans for conversion into an OPCI to the partners.

Article 422-46-2

The terms for subscribing or buying the OPCI units or shares referred to in Article 413-5 shall not apply to partners in SCPIs that are in existence on the date on which this Section comes into force and are undergoing a conversion, merger with or absorption by an unleveraged OPCI with simplified operating rules.

The management company of the forestry investment company shall be notified of the reasoned decision to withdraw the visa and shall inform the supervisory board of the withdrawal.

This measure shall result in a ban on public offerings of shares in the forestry investment company.

Article 423-8

In the event of a capital increase, the issuance of new shares shall be announced in a notice produced in the form defined in an AMF instruction, before any advertising is made for subscriptions for new shares and before any subscriptions are accepted for the shares.

SECTION 5 - SHARES

Sub-section 1 - Transfers

Article 423-21

For the purposes of this section:

- 1° The term "order" referred to in Article L. 214-59 of the Monetary and Financial Code shall designate any buy or sell order relating to forestry investment company shares sent to the management company or an intermediary;
- 2° The term "intermediary" shall designate any person other than the management company that is professionally qualified to receive a buy or sell order relating to forestry investment company shares;
- 3° The term "person" shall designate a natural or legal person.

Article 423-22

To be valid, orders shall be recorded in a register kept at the registered office of the company in accordance with the conditions set out in an instruction issued for the purposes of this Chapter.

No time limits shall apply to sell orders.

The recording of buy and sell orders in the register referred to in the first paragraph of an open-ended forestry investment company shall constitute an adequate measure for the purpose of point II of Article L. 214-59 of the Monetary and Financial Code. The application of this measure shall have the effect of suspending redemption requests.

Article 423-23

The management company or the intermediary shall be required to provide any person who requests them with the five highest buy prices and the five lowest sell prices listed in the register, along with the quantities bid and offered at these prices.

As soon as orders are received by the management company or the intermediary, they shall be recorded so that it is possible to reconstitute the steps in the processing of each order and the various transactions executed.

Article 423-24

The intermediary shall ensure that orders comply with the specifications given in the instruction issued for the purposes of this Chapter before sending them to the management company.

The intermediary shall send the orders to the management company with no prior summing or netting of buy and sell orders.

Article 423-25

The management company may hedge its exposure by:

- 1° Making the recording of buy orders subject to a cash payment under conditions set out in the instruction issued for the purposes of this Chapter; or

2° Setting a deadline for receiving cash payments, after which orders recorded in the register are cancelled if the funds are not paid. In this case, the funds must be received on or before the day before the execution price is set.

Article 423-26

The management company shall time-stamp the orders sent to it, after ensuring that they meet the requirements for recording in the register.

It shall record them in the register referred to in Article 423-22 in chronological order.

Article 423-27

Before setting the execution price, the management company shall ensure that there are no obstacles to the execution of sell orders.

In particular, it shall ensure that the seller is duly empowered to sell the shares and has enough shares to honour the sell order if it is executed.

Article 423-28

The management company may make a reasoned decision under its own responsibility to suspend the recording of orders in the register after so notifying the AMF.

If the suspension results from the occurrence of a major event that, if it became public knowledge, would have a significant impact on the execution price of shares or the partners' situation and rights, the management company shall cancel the orders recorded in the register and inform each of the persons giving the orders or the intermediaries individually.

The management company shall ensure full and effective public disclosure of the reasoned decision by all appropriate means.

Article 423-29

The management company shall fix the execution price periodically by matching the orders recorded in the register at regular intervals and at a set time.

It shall set the frequency with which execution prices are established, which must be at least once every six months and no more than once every business day. The prospectus shall mention the frequency.

Article 423-30

Changes in the frequency of price-setting must be warranted by market constraints.

The management company shall notify buyers, sellers, intermediaries and the public of such a change six or more days before it takes effect.

The procedures for public dissemination of such information shall be explained in the prospectus.

Article 423-31

The execution price shall be the price at which the greatest number of shares can be traded.

If several prices can be established on the basis of the first criterion at the same time, the execution price shall be the one that leaves the smallest number of shares untraded.

In the event that these two criteria fail to establish a single price, the execution price shall be the one closest to the last execution price.

The execution price and number of shares traded shall be made public by all appropriate means on the day the price is established.

If it is impossible to establish an execution price, the management company shall publish, under the conditions set out in the previous paragraph, the highest buy price and the lowest sell price, along with the number of shares offered at each of these prices.

Article 423-32

The orders shall be executed as soon as the execution price is established and solely at that price.

Buy orders recorded with higher prices and sell orders recorded with lower prices shall be executed first. Orders with identical price limits shall be executed in the order in which they were recorded in the register.

The management company shall immediately record the transactions executed in this way in the register of partners.

Article 423-33

The management company shall make the information about prices and numbers of shares contained in the order register available to the public. It shall take the necessary steps to reduce the time lag:

- 1° Between receiving orders and recording them in the register;
- 2° In informing the persons giving the orders or the intermediaries.

It shall provide proof of the execution of orders and their transmission for the persons giving the orders or the intermediaries.

Article 423-34

Intermediaries shall take the necessary steps to reduce the time lag:

- 1° Between receiving orders and sending them;
- 2° In informing the persons giving the orders.

They shall provide proof of the reception of orders and their transmission for the persons giving the orders and the management company.

Article 423-35

The documentary proof of the different steps referred to in Articles 423-33 and 423-34 must be retained for five years.

Sub-section 2 - Cash and cash equivalents**Article 423-36**

The articles of association and the prospectus shall specify the proportion of assets invested in cash and cash equivalents and the limits for changes in this proportion.

Sub-section 3 - Redemptions**Article 423-37**

In open-ended forestry investment companies, requests for redemptions shall be notified to the management company by registered letter with acknowledgement of receipt.

As soon as they are received, such requests shall be recorded in the redemption request register and satisfied in chronological order.

Article 423-38

The management company of a company referred to in Article 423-37 shall determine the redemption price.

If the redemption is matched with a subscription, the redemption price cannot be higher than the subscription price less the subscription fee.

If the redemption is not matched, the redemption terms shall be set out in the articles of association and the prospectus. As appropriate, they must also mention the proportion of cash that cannot be used to redeem shares and the consequences of this limit.

Article 423-39

In the event that the redemption price falls, the management company shall notify the partners that have requested redemption of their shares no later than the day before the date on which the change takes effect by registered letter with acknowledgement of receipt.

If there is no response from the partners in the fifteen days following receipt of the registered letter with acknowledgement of receipt the redemption request shall be deemed to be valid at the new price. This information shall be included in the notice given in the letter.

Article 423-40

No new shares can be issued to increase the capital as long as the register referred to in Article 423-37 contains unfilled redemption requests at a price lower than or equal to the subscription price.

Sub-section 4 - Advertising and promotion**Article 423-41**

For the purpose of placing shares with the public, forestry investment companies shall be entitled to use any type of advertising, provided it indicates:

- 1° The number of the edition of the official gazette (BALO) that contains the notice;
- 2° The name of the forestry investment company;
- 3° The existence of the currently valid prospectus reviewed by the AMF, the visa date and number, and the locations where it can be obtained free of charge.

SECTION 6 - FORESTRY APPRAISALS**Article 423-42**

The market value and the replacement value of the forestry investment company shall be established by the management company at the end of each financial year on the basis of:

- 1° A valuation of the market value of woodlands, forests, vacant land to be planted, and the accessories and outbuildings listed in Article R. 214-145 of the Monetary and Financial Code, the assets of forestry groups and companies where the sole business is ownership of woodlands and forests and in which the forestry investment company holds at least 50 per cent of the equity interest. This valuation shall be made by one or more independent forest appraisers on the list of forest appraisers provided for in Article R. 171-9 of the Rural Code;
- 2° The market value of equity interests held or acquired in forestry groups and companies where the sole business is ownership of woodlands and forests and in which the forestry investment company holds at least 50 per cent of the equity interest. This market value shall be provided in the form of a certificate or a written valuation by the manager of each forestry group or company where the sole business is ownership of woodlands and forests. The management company shall then ensure that the proposed market value of the shares held or acquired is representative of the market for shares during the financial year or else valued according to the rules that govern the valuation of forestry assets;
- 3° The net value of other assets reported under the supervision of the statutory auditor.

Each forestry property must be appraised prior to acquisition and at least once every 15 years.

The appraisal shall be updated every three years by the forestry appraiser(s), unless exceptional events, works or harvesting require a new update sooner. An event shall be deemed to be exceptional if it affects more than 20 per cent of the land area of a forestry property or involves an amount that is greater than 20 per cent of the valuation.

A second appraisal shall be made after the tenth anniversary of the forestry investment company covering at least 20 per cent of the forest properties of the company each year, so that all the forest properties have been appraised by the end of the fourteenth year.

The brief of the independent forest appraiser(s) shall cover all the forest properties of the forestry investment company, except for the properties referred to in the second point of the first paragraph of this Article.

A newly appointed forest appraiser shall have the right to update appraisals conducted in the last fifteen years.

The appraisals must be made in compliance with the appropriate forest appraisal methods and recommendations, and in compliance with professional practices.

Article 423-43

The appraiser(s) shall be appointed by the general meeting for a five-year term from the list of forest appraisers following the AMF's acceptance of the candidate put forward by the management company.

The appraiser put forward must be on the list of forest appraisers provided for by Article R. 171-9 of the Rural Code.

The AMF shall be entitled to require further information.

Unless the AMF asks for further information, the candidate shall be deemed to be accepted by the AMF two months after the filing of a full application.

Candidates for renewal of appraisers must be presented to the AMF at least three months before the end of the financial year.

If the AMF deems that, during the forest appraiser's term, the eligibility requirements are no longer being met, it shall so notify the management company, which shall then put forward a new candidate and propose the appointment of the candidate to the general meeting.

Similarly, if the forest appraiser is no longer on the list of forest appraisers provided for by Article R. 171-9 of the Rural Code, the management company shall so notify the AMF and put forward a new candidate and propose the appointment of the candidate to the general meeting.

Article 423-44

An agreement must be concluded between the appraiser and the forestry investment company. This agreement shall define the appraiser's tasks and set the terms for the appraiser's compensation.

The appraiser shall make an undertaking to the AMF about the conditions for performing the appraiser's tasks and the nature of the services provided in a form letter set out in an AMF instruction.

SECTION 7 - MERGERS BETWEEN FORESTRY INVESTMENT COMPANIES AND FORESTRY GROUPS OPERATING UNDER AUTHORISED BASIC MANAGEMENT PLANS

Article 423-45

Mergers of one or more forestry investment companies with one or more forestry groups operating under authorised basic management plans shall be submitted to the AMF in accordance with the procedures set out in an AMF instruction.

These procedures shall differ depending on whether the merger involves one or more forestry investment companies making public offerings.

Members of the regulated market shall enforce the obligations set forth in Section 6, Chapter IV, Title I of Book III when executing orders on a regulated market on behalf of their clients.

Article 513-7

The market rules may authorise a market member to outsource trading operations to another member.

In such an event, outsourcing in no way alters the market member's responsibilities to its clients.

Article 513-8

The market operator shall specify how it ensures, directly or indirectly, the availability of the necessary training for natural persons who are to become traders of financial instruments on its market.

Article 513-9

For transactions effected on the regulated market it manages, a market operator can oppose its members' choice of a financial instrument settlement and delivery system other than the one it proposes, in the following circumstances:

1° where the arrangements and links between this settlement and delivery system and any other system or infrastructure needed for efficient and cost-effective transaction settlement are not in place;

2° where the AMF considers that the technical conditions for settling transactions effected on this regulated market by a settlement and delivery system other than the one proposed by the market operator would not permit the financial markets to function in a smooth and orderly manner.

CHAPTER IV - PRINCIPLES FOR TRADING ON REGULATED MARKETS - TRANSPARENCY RULES**SECTION 1 - GENERAL PROVISIONS****Article 514-1**

The market rules shall set forth the conditions in which multiple third-party buying and selling interests are brought together within the market in a way that results in transactions in the financial instruments traded on the market's systems.

They shall also establish the manner in which prices are determined, as well as the functions likely to be carried out by market members.

Article 514-2

The market rules shall determine the categories of orders that members can execute.

They shall provide that market members must time-stamp orders upon receipt if these are placed by a client, and upon issue if the member is the issuer of the order.

The market rules shall specify the principles of priority that apply when orders at the same price and on the same side of the market (buy or sell) are presented at the same time on the market.

Article 514-3

The market rules shall establish the principles under which trading can be halted.

In particular, the rules shall specify the conditions for halting trading in a financial instrument whose price, during a single session or between two sessions, reaches one of the thresholds set by the market operator.

The market rules regulating price fluctuations shall take into consideration both the market model and the characteristics of the financial instruments traded on the market. The market operator must have the resources that enable it to verify the consistency of the prices resulting from transactions.

Article 514-4

The market rules shall specify the conditions in which the market operator can cancel erroneous or irregular trades. They also stipulate the arrangements for informing the market of any such cancellations.

SECTION 2 - TRANSPARENCY PRINCIPLES AND PUBLICATION OF MARKET INFORMATION**Article 514-5**

For shares admitted to trading on a regulated market it manages, the market operator shall make public the buying and selling interests as well the size of the trading positions expressed at these prices, which are displayed by the systems of the regulated market.

This information shall be made public in accordance with the arrangements set forth in Regulation (EC) n° 1287/2006 of 10 August 2006.

The AMF waives the requirement for the market operator to make public the aforementioned information in the conditions set forth in Regulation (EC) n° 1287/2006 of 10 August 2006.

Article 514-6

For transactions in shares admitted to trading on a regulated market it manages, the market operator shall publish the registered prices, quantities and times, in accordance with Regulation (EC) n° 1287/2006 of 10 August 2006.

The AMF shall authorise the market operator to delay publication of these transactions depending on their type or size, especially in the case of transactions that are large in scale compared with normal market size, as provided for and according to the arrangements set out in Regulation (EC) n° 1287/2006 of 10 August 2006. In this case, the conditions for delaying publication shall be stipulated in the market rules.

Article 514-7

For non-equity financial instruments admitted to trading on a regulated market it manages and traded in accordance with Article 514-1, the market operator shall decide what information on buying and selling interests it will publish to ensure fair and orderly trading. This information shall be appropriate to the characteristics of the financial instruments concerned and to the arrangements for trading them.

Article 514-8

For transactions in the financial instruments referred to in Article 514-7, the market operator shall publish information about prices and quantities within a time period suited to the traded instrument, the method of trading and the amount of the transaction.

This period shall be established in the market rules and shall make it possible to provide the market with adequate information.

Publication shall occur on or before the opening of the trading session on the third business day after the transaction date.

SECTION 3 - NOTIFICATION TO THE AMF**Article 514-9**

The market operator shall report daily to the AMF on the orders received from the members of the regulated market it manages and on the transactions effected on its systems, as specified in an AMF instruction.

Article 514-10

The market operator shall retain data about the transactions effected on the regulated market it manages for at least five years. For each transaction, that information shall comprise:

- 1° the name of the financial instruments bought or sold;
- 2° the quantity transacted;
- 3° the date and time of the transaction;
- 4° the price of the transaction;
- 5° where such is the case, the indication that the transaction resulted from an order executed in accordance with Article 3 of Regulation (EC) n° 1287/2006 of 10 August 2006;
- 6° the name of the market member or members that executed the order.

CHAPTER V - ADMISSION OF FINANCIAL INSTRUMENTS TO TRADING ON A REGULATED MARKET**Article 515-1**

The market operator shall establish procedures to regularly review the compliance with the admission requirements of the financial instruments admitted to trading on the regulated market it manages.

Article 515-2

The market operator shall establish effective procedures to check that the issuers of the financial instruments referred to in II of Article L. 211-1 of the Monetary and Financial Code and of any equivalent foreign-law instruments admitted to trading on a regulated market it manages comply with the relevant provisions of Title II of Book II.

Article 515-3

The market operator shall establish procedures that facilitate its members in gaining access to information published by issuers pursuant to Titles I and II of Book II.

CHAPTER VI - SPECIAL PROVISIONS FOR CERTAIN MARKETS**SECTION 1 - ORDERS WITH INSTRUCTIONS FOR DEFERRED SETTLEMENT AND DELIVERY****Article 516-1**

The market rules may authorise a buyer or a seller, following execution of such buyer's or seller's order on the market, to defer the payment of the funds or the delivery of the financial instruments until a date set by those rules. The buyer, who is irrevocably bound to pay for the financial instruments once his order has been executed, shall not be required to disburse the funds until the date, set by the market rules, on which the financial instruments are registered in his account.

The financial instruments shall belong to the market member, in whose account they are registered at the date set by the market rules, pending registration in the buyer's account. The seller, who is irrevocably bound to deliver the financial instruments once his order has been executed, shall deliver them only at the date set by the market rules on which his account is debited. He retains title to the financial instruments as long as they are registered in his account.

Article 516-2

The provisions of Articles 516-3 to 516-13 shall apply to authorised investment service providers receiving orders for deferred settlement and delivery as well as to custody account keepers.

Where the market rules provide for the possibility referred to in the first paragraph of Article 516-1, an investment service provider who receives an order for deferred settlement or delivery shall not accept it unless the investor remits a margin deposit, either in the provider's books or in the books of the custody account keeper if the provider does not perform that function.

Article 516-3

An investment service provider who does not keep his client's account cannot consent to transmit or execute an order for deferred settlement and delivery unless he is able, under an agreement with the client's custody account keeper, to ascertain that the necessary margin has been duly deposited with the custody account keeper before he transmits or executes that order..

The investment service provider who keeps the client's account shall be subject to the provisions of this section..

Article 516-4

The investment service provider shall be subject to the rules, set forth in an AMF instruction, governing the posting and composition of clients' mandatory margin deposits.

Margin is calculated as a percentage of the position and according to the type of assets. It shall be at least 20 per cent.

The margin rates referred to in the aforementioned instruction are minimum rates. Investment service providers are entitled to demand higher rates from any client.

Article 516-5

Should a client fail, within the required time period, to remit or top up the margin deposit or to fulfil the commitments arising from the order executed on his behalf, the investment services provider shall liquidate some or all of the client's commitments or positions.

The AMF can, where necessary, set more stringent margin deposit rules for a given financial instrument or market, either temporarily or permanently.

Article 516-6

Where a margin deposit consists of financial instruments, the investment services provider can legally refuse any such instrument that:

1° he considers he would be unable to realise at any time or on his own initiative;

2° he deems will not provide adequate collateral, having regard to the type of position to be collateralised.

In any event, long positions in a given financial instrument cannot be collateralised with the same financial instrument.

Article 516-7

Cheques cannot be accepted as margin until they have been cashed.

Article 516-8

An investment service provider must be able to inform his client, upon request, of the value of the margin deposited under the three categories set forth in an AMF instruction and, pursuant to the same article, of the position that may be taken or the increase in an existing position that may be realised.

Article 516-9

The AMF can increase the minimum margin rates provided for in Article 516-4 for one or more designated financial instruments, as specified in that article. The new rates cannot come into force for at least two trading days after they have been published.

Article 516-10

Initial margin deposits are readjusted, if need be, in view of the daily marking to market of the position and the assets accepted as collateral therefor, so that the deposits comply at all times with the minimum regulatory requirement.

The investment services provider shall order the client, by any and all means, to top up or restore its collateral within one trading day.

If the collateral is not topped up or restored in due time, the investment services provider shall take the necessary measures so that the client's position is once again collateralised. Unless the provider and the client have agreed on a different procedure, the investment services provider shall begin by reducing the position before realising some or all of the collateral.

Article 516-11

Absent a contractual agreement, an investment services provider who wishes to increase the collateral on a client's position by higher rates than those provided for in an AMF instruction shall warn the client of the new rates by registered letter with return receipt. That letter shall be sent at least eight calendar days before the effective date of the increase.

Article 516-12

Where an investment services provider reduces a client's position or realises some or all of its collateral, pursuant to the third paragraph of Article 516-10, it shall send the corresponding trade confirmations and account statements to the client by registered mail with return receipt.

Article 516-13

Notwithstanding the first paragraph of Article 516-4, a member of a regulated market who does not hold the account of a client is not required to ascertain that margin has been deposited if the order is sent to him by an investment service provider acting as an order receiver-transmitter.

SECTION 2 - CORPORATE ACTIONS

Article 516-14

The market rules shall establish the procedures relating to the detachment of rights and other corporate actions that influence the price of financial instruments; they shall also stipulate the respective claims of buyers and sellers.

The rules shall also lay down the procedures that issuers of financial instruments admitted to trading on the regulated market managed by the market operator must follow to inform the operator of such actions.

Where financial instruments are admitted to trading without the consent of the issuer, the market operator shall make the necessary arrangements for gaining access to this information.

SECTION 3 - SPECIAL PROVISIONS FOR DERIVATIVES MARKETS

Article 516-15

An investment services provider who receives an order for execution on a regulated market in derivative financial instruments shall not accept such order unless the client remits a margin deposit, either in the provider's books or in the books of the custody account keeper if the provider does not perform that function.

By way of derogation from the first paragraph, where the client is a professional client or an eligible counterparty within the meaning of Articles D. 533-11 and D. 533-13 of the Monetary and Financial Code, the investment services provider may grant it a period of time in which to remit the margin. Such period may not exceed the period granted by the clearing house to the clearing member with whom the positions are recorded.

The margin referred to in the first paragraph shall be equal to or greater than that required by the market rules, if called from market members, or that required by the clearing house rules, if called from clearing house members. Since the aforementioned margin levels are minimum requirements, the investment services provider may, upon receiving the orders and at any time, call additional margin from the client.

If, in light of market conditions, the margin posted by the client falls below the amount required under the third paragraph, additional margin shall be deposited in the same conditions and time limits as those specified in the second and third paragraphs.

Should a client fail to post margin or remit additional margin within the above time limits, the provider shall liquidate some or all of the client's commitments or positions.

SECTION 4 - OTHER PROVISIONS

Article 516-16

At the request of a market operator, the AMF can put in place an arbitration procedure to resolve disputes arising between the operator and its market members, between market members themselves, or between members and their clients.

Article 516-17

Without prejudice to special regulatory provisions, where mandatory sales of the financial contracts referred to in II of Article L. 211-1 of the Financial and Monetary Code and equivalent financial instruments issued under foreign law are effected through an investment services provider, said provider shall publish a notice stipulating the date of sale, the type and number of financial instruments for sale, the selling price and the arrangements for the sale. This information shall be published at least fifteen days before the sale in a publication that carries legal notices.

SECTION 5 - PROVISIONS APPLICABLE TO CERTAIN COMPARTMENTS

Article 516-18

The market undertaking may open a compartment for issuers applying to admit their financial instruments to trading on a regulated market without a public issue or sale if the equity securities or the securities that give or may give access directly or indirectly to the issuer's capital or voting rights are not already admitted to trading on a French regulated market.

Issuers may not ask for their financial instruments to be transferred off the compartment referred to in the first paragraph except in the case of a public issue or sale of financial instruments that entails the preparation of a prospectus.

Article 516-19

Financial instruments admitted to trading on the compartment referred to in Article 516-18 may not be acquired by an investor other than a qualified investor, within the meaning of b) of Point 4 of II of Article L. 411-2 of the Monetary and Financial Code, unless such investor takes the initiative to do so and has been duly informed by the investment services provider about the characteristics of the compartment.

TITLE II - MULTILATERAL TRADING FACILITIES**CHAPTER I - GENERAL PROVISIONS****Article 521-1**

The applicant shall append the information referred to in Points 1° and 5°, Article 521-3 to its file.

The AMF shall ensure that the intended resources are appropriate to the envisaged activities and that the rules of the MTF are consistent with the relevant provisions.

3° the conditions that issuers must fulfil before their financial instruments are traded on the facility and, where appropriate, the necessary steps they must take;

Article 521-5

Article 521-6

The AMF shall check that the documents or information referred to in Articles 521-3 and 521-4 comply with relevant laws and regulations, and in particular that the market operator has the resources and organisational structure suitable for the envisaged activity.

The AMF shall seek the opinion of the Prudential Supervision Authority on the organisation, the human, technical and material resources and the financial resources of the market operator.

The AMF can ask the MTF manager to provide any additional information it deems useful.

SECTION 2 - CHANGES TO THE CHARACTERISTICS OF THE MTF AND WITHDRAWAL OF AUTHORISATIONS

Article 521-8

The MTF manager shall submit rule amendments to the AMF at least once month before they are due to come into effect.

Where it considers that these amendments are inconsistent with MTF status, the AMF shall oppose their enforcement within one month. If the MTF manager is an investment services provider, the AMF shall inform the Prudential Supervision Authority of its objection.

Article 521-9

Notwithstanding Article 521-7, a market operator authorised to manage an MTF shall inform the AMF of any amendments it intends to make to the items taken into account when its authorisation was granted.

The AMF shall inform the market operator of the possible consequences such amendments may have on its authorisation.

Article 521-10

The AMF shall withdraw the authorisation granted to a market operator where such operator:

1° does not make use of the authorisation within 12 months, expressly renounces the authorisation, or if the MTF has not operated over the previous six months;

2° has obtained the authorisation by making false statements or by any other irregular means;

3° no longer meets the conditions under which authorisation was granted;

A systematic internaliser shall execute orders received from its non-professional clients at the quoted price at the time of reception of the order.

Article 533-2

I. - A systematic internaliser shall execute orders received from the professional clients referred to in Article L. 533-16 of the Monetary and Financial Code and from the eligible counterparties referred to in Article L. 533-20 of the Code at the quoted price at the time of reception of the order.

II. - By way of derogation from I, a systematic internaliser may execute those orders at a better price than the quoted price, on condition that:

1° the use of such waiver is justified

2° the price falls within a public range close to market conditions;

3° the order is of a size bigger than the size customarily undertaken by a non-professional client, as stipulated in Article 26 of Regulation (EC) n° 1287/2006 of 10 August 2006.

III. - By way of derogation from I, a systematic internaliser may execute this order at a price different than its quoted price in the following cases:

1° the order is for a portfolio trade and is part of one transaction, in accordance with Article 25 of Regulation (EC) n° 1287/2006 of 10 August 2006,

2° the order is neither an order for the execution of a transaction in shares at the prevailing market price nor a limit order, in accordance with the aforementioned Article 25.

Article 533-3

I. - Where a systematic internaliser who quotes only one quote or whose highest quote is lower than the standard market size receives a client order of a size bigger than its quotation size but lower than the standard market size, it may execute that part of the order which exceeds its quotation size, provided that this is executed at the quoted price, except as provided in Article 533-2.

For a particular share, each quote shall include a firm bid and/or offer price or prices, and a size or sizes that could be up to standard market size for the class of shares to which the share belongs.

II. - Where a systematic internaliser is quoting in different sizes and receives an order between those sizes, it shall execute the order at one of the quoted prices, in compliance with Article L. 533-19 of the Monetary and Financial Code, except as otherwise provided in Article 533-2.

Article 533-4

To limit the risk of being exposed to multiple transactions from the same client, a systematic internaliser shall be allowed to limit in a non-discriminatory way the number of transactions from the same client which it undertakes to enter at the published conditions, where it is able to execute those transactions without exposing itself to undue risk, in accordance with the conditions set out in Article 25 of Regulation (EC) n° 1287/2006 of 10 August 2006.

A systematic internaliser is allowed, in a non-discriminatory way and in accordance with Article L. 533-19 of the Monetary and Financial Code, to limit the total number or the amount of transactions from different clients at the same time where such number or such amount considerably exceeds the norm provided for in Article 24 of the aforementioned regulation.

CHAPTER IV - PUBLICATION OF TRANSACTIONS

Article 534-1

A systematic internaliser shall publish the transactions it has effected, within the time periods and according to the arrangements set in Regulation (EC) n° 1287/2006 of 10 August 2006.

TITLE IV - CLEARING HOUSES

CHAPTER I - COMMON PROVISIONS

SECTION 1 - APPROVAL AND PUBLICATION OF CLEARING HOUSE RULES

Article 541-1

Clearing houses submit their operating rules to the AMF for approval.

The AMF makes its ruling on the basis of the activities that the clearing house intends to perform and the resources and facilities that it intends to implement.

The AMF gives its ruling within three months of receiving the application or within one month in the case of amendments to existing rules.

Article 541-2

The AMF publishes decisions relating to the approval of a clearing house's operating rules, or amendments thereto, on its website. The approved rules or amendments are annexed to the AMF's decision.

Article 541-3

A clearing house must permit any person who so wishes to access its operating rules at its registered office and to take away or receive, at that person's expense, a copy of the said rules.

SECTION 2 - RULES OF CONDUCT APPLICABLE TO CLEARING HOUSES AND THEIR STAFF

Article 541-4

Clearing houses and the persons referred to in the second paragraph of Article 541-30 shall perform their activities diligently, honestly and impartially.

Article 541-5

The clearing house shall remind the persons acting under its authority or on its behalf that they are bound by the rules of professional secrecy, under the terms and penalties provided by law.

Such persons may not use any confidential information in their possession other than to perform their functions within or on behalf of the clearing house.

Article 541-6

Clearing houses shall draw up internal regulations establishing the rules of conduct applicable to persons acting under their responsibility or on their behalf.

These internal regulations shall stipulate the conditions in which a person may execute trades in financial instruments for his own account. They give due regard to the provisions of Article 541-5.

SECTION 3 - ISSUANCE OF PROFESSIONAL LICENCES TO CERTAIN MEMBERS OF CLEARING HOUSE STAFF**Article 541-7**

The clearing house shall appoint the following persons:

- 1° a person responsible for supervising clearing;
- 2° a person responsible for supervising clearing house members;
- 3° a head of compliance.

Article 541-8

The responsible persons referred to in Article 541-7 must have the requisite independence of decision-making as well as the technical and human resources needed to carry out their duties. The resources must be suited to the clearing house's volume of business.

Article 541-9

The responsible persons referred to in Article 541-7 are required to hold professional licences, which are issued by the AMF on the clearing house's proposal.

In preparation for the issuance of this licence, the clearing house shall forward to the AMF for each of the persons concerned, an application containing the elements specified in an AMF instruction.

The AMF can ask the clearing house or the persons concerned for any further information it deems appropriate.

The AMF rules within one month of receiving the application or, where such is the case, the additional information it has requested.

Article 541-10

The clearing house informs the AMF when the holder of a professional licence referred to in Article 541-9 ceases to perform the function requiring that licence.

The AMF then revokes the licence. The AMF informs the clearing house whenever it revokes a professional licence in connection with the disciplinary proceedings referred to in Article L. 621-15 of the Financial and Monetary Code.

Article 541-11

The responsible persons mentioned in Article 541-7 draw up a yearly report on the conditions in which they carry out their duties. This report is submitted to the executive body of the clearing house, as well as to the AMF, no later than four months after the close of the financial year.

This report includes:

- 1° A description of how supervision and monitoring are organised;
- 2° A description of the tasks performed in carrying out these duties;
- 3° Any observations made by the responsible person;
- 4° Measures adopted as a result of such observations.

SECTION 4 - MEMBERSHIP OF CLEARING HOUSES**Article 541-12**

The operating rules of each clearing house stipulate the conditions for membership.

Where the rules provide for several categories of member, they stipulate the membership requirements for each category.

Article 541-13

Pursuant to 5 of Article L. 440-2 of the Monetary and Financial Code, prior authorisation from the AMF is required for membership of a clearing house by credit institutions and investment firms having their registered office in a State not party to the European Economic Area agreement, and by legal persons whose principal or sole purpose is the clearing of financial instruments and which are not established in metropolitan France or overseas administrative areas (*départements*).

The AMF shall ascertain that such organisations are subject in their home State to rules governing the conduct of clearing and supervision that are equivalent to those in effect in France.

Absence of objection by the AMF within one month of receiving the membership application forwarded by the clearing house shall imply authorisation.

Where the AMF requests further information from the applicant or the clearing house, this time period shall be suspended until such information is received.

Article 541-14

The AMF enters into agreements with the competent authorities of the home State referred to in Article 541-13 in order to define the distribution of supervisory powers and facilitate the exchange of information needed to coordinate such supervision.

The AMF can extend the time period referred to in the third paragraph of Article 541-13 where this is warranted by the conclusion of an agreement with home State authorities.

An agreement may provide for an exemption from prior authorization for a category of institutions.

Article 541-15

Where, in connection with its supervisory duties as defined in this Title, a clearing house ascertains that one of its members is not complying with the AMF's rules, it so informs the AMF.

Article 541-16

The operating rules of clearing houses determine minimum capital requirements and, if need be, minimum guarantees required of members.

The minimum requirements may vary according to the category of member. If the need arises, they may be increased at the clearing house's behest.

At least once yearly, clearing members provide the clearing house with written information, including their financial statements and documents concerning any relevant guarantees. They inform the clearing house immediately should their capital or guarantees fall below the minimum requirement applicable to them.

Article 541-17

The operating rules of clearing houses may require members to acquire, prior to admission, a minimum number of equity securities of the clearing house.

The minimum requirement may vary according to the category of clearing member.

Article 541-18

Clearing houses ensure that members comply with their operating rules

Clearing houses conclude an agreement with each member whereby the member agrees to:

- 1° comply with the rules established by the clearing house at all times;
- 2° reply to any request for information made by the clearing house;
- 3° submit to inspections conducted by the clearing house;
- 4° rectify, at the behest of the clearing house, any situation in which it no longer meets the conditions for membership.

Article 541-19

Clearing members conclude an agreement with each trader whose trades they clear.

The operating rules of clearing houses define the list of clauses that must appear in such agreements, which stipulate, inter alia, the procedures for registering trades and the procedure to be followed in the event of default by either signatory.

Article 541-20

The operating rules of clearing houses may authorise a clearing member to subcontract clearing operations to another clearing member.

The rules may also authorise a clearing member to subcontract clearing operations to an entity that it controls, or by which it is controlled, within the meaning of Article L. 233-3 of the Commercial Code, provided that such entity fulfils the conditions of Article 541-12 and submits to inspection by the clearing house in question.

A subcontracting agreement does not alter the liability of a clearing member vis-à-vis third parties with regard to the subcontracted activities.

Article 541-21

The clearing house shall specify the conditions in which it ensures, directly or indirectly, the availability of the necessary training for natural persons who are to fulfil clearing functions.

SECTION 5 - CLEARING HOUSE FUNCTIONS

Article 541-22

Clearing houses record the trades they are to clear.

Clearing houses supervise the commitments and positions of clearing members.

Article 541-23

Clearing houses calculate and call the sums of money that clearing members must remit to cover or guarantee their commitments or positions. Such sums encompass initial margin, variation margin and, generally, all types of security deposit.

The operating rules of clearing houses establish the principles for determining these sums as well as the assets or guarantees accepted in lieu thereof.

The funds deposited by clearing members with the clearing house to cover their commitments are invested in liquid assets with little risk of principal.

Article 541-24

The operating rules of clearing houses provide that, should a clearing member fail to fulfil its obligations with regard to the settlement of market transactions or to the security deposits referred to in Article 541-23, and in particular should it be the subject of any of the proceedings under Title II of Book VI of the Commercial Code, the clearing house can:

1° liquidate some or all of the commitments or positions taken by the defaulting clearing member for its own account, in the market conditions prevailing at the time. Subsequent to such liquidation, the clearing house can, if necessary, settle its remaining claims on the clearing member by means of the margin or other security deposits lodged by that member;

2° transfer the positions of the defaulting clearing member's clients, together with the associated assets or guarantees, to another clearing member.

Article 541-25

The operating rules of clearing houses stipulate the method used by the clearing house to establish the settlement price or reference price which is used to calculate the sums referred to in Article 541-23 and also to settle commitments at maturity.

However, if the settlement price or reference price is set by the market operator, these provisions are included in the market rules.

SECTION 6 - RELATIONS BETWEEN CLEARING MEMBERS AND THEIR CLIENTS

Article 541-26

The operating rules of clearing houses may contain provisions relating to the minimum amounts that clearing members must call from clients whose accounts they keep in order to cover or guarantee those clients' commitments or positions, as well as the assets or guarantees accepted in lieu thereof.

However, if the market rules so provide, such amounts may be called by the members of the regulated market whose trades are cleared by the clearing house.

A clearing house may require that its members transfer to it the amounts mentioned in the first paragraph of this article.

Article 541-27

The operating rules of clearing houses provide that clearing members may at their own initiative liquidate some or all of the commitments or positions of a client that has not met its obligations with regard to the settlement of market transactions or to the security deposits referred to in Article 541-26, and in particular if it has been the subject of any of the proceedings under Title II of Book VI of the Commercial Code.

The rules stipulate, in particular, the procedures for winding up failed trades in the financial securities referred to in II of Article L. 211-1 of the Financial and Monetary Code and in equivalent financial instruments issued under foreign law.

Article 541-28

Clearing members enter into a service agreement with each of their clients that includes the provisions stipulated in Article 314-62 and, where appropriate, Article 314-63.

SECTION 7 - MISCELLANEOUS PROVISIONS**Article 541-29**

The operating rules of clearing houses stipulate the nature and scope of the guarantee that the clearing house gives to its members and, where appropriate, to their clients.

Article 541-30

A clearing house cannot delegate or subcontract decisions concerning the admission of members or the admission of financial instruments to clearing.

Without the agreement of the AMF, it cannot delegate or subcontract the functions referred to in Articles 541-22 to 541-25, or those assigned to the persons referred to in Article 541-7. Such subcontractor or delegate can be either another clearing house or a company directly controlled, within the meaning of Article L. 233-3 of the Commercial Code, by the clearing house in question. With regard to the recording of trades, the subcontractor or delegate can be the market operator in question.

The restrictions set forth in the second and third paragraphs of this article do not apply where a clearing house entrusts a third party to provide it with technical facilities.

Under no circumstances can the subcontracting agreement or delegation relieve the clearing house of its responsibility for the functions concerned.

Article 541-31

At the request of a clearing house, the AMF can put in place an arbitration procedure to resolve disputes arising between the clearing house and its members, between clearing members themselves, or between clearing members and their clients.

CHAPTER II - SPECIAL PROVISIONS APPLICABLE TO THE CLEARING HOUSES OF REGULATED MARKETS**SECTION 1 - GENERAL PROVISIONS****Article 542-1**

The operating rules of clearing houses of regulated markets provide that clearing members are del credere agents with regard to the clients whose accounts they keep.

In their capacity as del credere agents, clearing members are answerable to the clearing house for their clients' commitments.

Article 542-2

The operating rules of clearing houses of regulated markets provide that the clearing house shall call the sums referred to in Article 541-23 and determine the settlement price or reference price referred to in Article 541-25 at least once each trading day. The rules further specify the time limit for remitting these sums to the clearing house.

Article 542-3

The operating rules of clearing houses of regulated markets contain the provisions relating to the minimum amounts referred to in the first paragraph of Article 541-26.

SECTION 2 - SPECIAL PROVISIONS REGARDING THE CLEARING OF TRADES IN THE FINANCIAL INSTRUMENTS REFERRED TO IN POINTS 1°, 2° AND 3°, SECTION I, OF ARTICLE L. 211-1 OF THE FINANCIAL AND MONETARY CODE AND IN EQUIVALENT FINANCIAL INSTRUMENTS ISSUED UNDER FOREIGN LAW

Article 542-4

The operating rules of clearing houses of regulated markets in the financial instruments referred to in II of Article L. 211-1 of the Financial and Monetary Code and in equivalent financial instruments issued under foreign law provide that the payment of funds and delivery of financial instruments between clearing members shall take place reciprocally and simultaneously under the supervision of the clearing house.

Article 542-5

The operating rules of clearing houses of regulated markets in equity or debt securities provide that the clearing house can limit the positions of a client in a given financial instrument if the market situation of that financial instrument so requires.

The rules require clearing members to inform the clearing house, upon request, of the identity of their clients.

When a clearing house decides to limit a client's positions, it justifies its decision and informs the AMF thereof.

SECTION 3 - SPECIAL PROVISIONS APPLICABLE TO THE CLEARING OF TRADES IN DERIVATIVE FINANCIAL INSTRUMENTS

Article 542-6

The operating rules of clearing houses define the way in which the clearing house records the positions of clearing members.

The rules identify at least two categories of account, which correspond to:

- 1° transactions made by the clearing member for its own account,
- 2° transactions made by the clearing member on behalf of its clients.

The clearing house calculates the sums referred to in Article 541-23 separately for each account category.

Article 542-7

The operating rules of clearing houses of regulated markets in derivative financial instruments establish the principles for delivery, if any, of financial instruments or commodities.

Article 542-8

Where the clearing house of a regulated market in derivative financial instruments guarantees to clients the performance of their trades, it monitors the exposure of those clients.

The operating rules of clearing houses require members to inform the clearing house, upon request, of the identity of the clients whose positions they record.

Article 542-9

The clearing house of a regulated market in derivative financial instruments sets the position limits and limits on risk exposure applicable to market members. It can also set limits applicable to all market participants.

When these limits are reached, the clearing house can decide to increase the amount of margin that the market member or client must deposit with the clearing member to cover or guarantee the positions that have been taken. The clearing house may also refuse to record any transaction that would increase the open position of the market member or client in question.

TITLE V - CENTRAL DEPOSITORIES OF FINANCIAL INSTRUMENTS**Article 550-1**

The conditions for authorising central depositories and for approving their operating rules are set forth in this Title.

A central depository may organise and operate any system for the purpose of effecting delivery of financial instruments between its members as well as, if applicable, the corresponding cash payment, in accordance with the provisions of this Title.

Article 550-1-1

The central depository shall submit the application for prior approval to the AMF and the components of the application shall be specified in an Instruction.

The AMF shall approve the rules within three months from the date of receipt of the filing or the date of receipt of any additional information that was requested. For changes in the rules, the time period shall be reduced to one month. The approval decision shall be published on the AMF website. The approved rules shall be annexed to the decision.

Article 550-3

Central depositories promptly inform the AMF of any modification in the elements mentioned in points 1° to 6° of Article 550-2.

The AMF determines the measures to be taken as a result of such modifications.

Article 550-4

Central depositories shall establish supervision of:

1° The performance of their duties defined in Article 550-1;

2° Compliance with their operating rules approved by the AMF pursuant to Article 550-2;

The central depository shall communicate any information or any document requested by the AMF.

Article 550-9

The manager shall remain responsible for the delegated activities.

2° Ensure that the reporting party and correspondent referred to in Articles R. 561-23 and R. 561-24 of the Monetary and Financial Code have access to all the information they need to perform their duties. The depositories shall provide them with the appropriate tools and resources to comply with their obligations relating to the prevention of money laundering and terrorist financing.

The abovementioned reporting party and correspondent shall also be informed of:

a) Incidents relating to the prevention of money laundering and terrorist financing that are brought to light by internal control systems;

b) Shortcomings found by domestic or foreign supervisory authorities in the implementation of provisions relating to the prevention of money laundering and terrorist financing;

8° Consider the risks relating to the prevention of money laundering and terrorist financing, when recruiting employees, in accordance with employees' level of responsibility.

9° At the time of hiring, and periodically thereafter, provide their staff with information on and training in the applicable regulations and amendments, current money-laundering techniques, prevention and detection measures, and the procedures established. They shall be adapted to the functions performed, members, locations and risk classification.

Article 550-11

The internal procedures shall also specify how the central depositories ensure that their branches and subsidiaries in other countries apply equivalent measures relating to vigilance and record-keeping, unless local legislation is an obstacle, in which case they shall inform the national financial intelligence unit.

The principal function of a payment and settlement system for financial instruments is to process the instructions of its participants in order to ensure delivery of the financial instruments by the central depository concerned and simultaneous payment, where applicable, on the books of the payment agent.

The participants in a payment and settlement system are account-keeping institutions, central depositories, and other French and foreign institutions; in the case of institutions from a country outside the European Economic Area, their membership must not have been opposed by the AMF within one month following the date at which the AMF was notified by the system.

For this purpose, it shall appoint a person to be in charge of this supervision.

Article 560-5

The supervisor referred to in Article 560-4 draws up a yearly report on the conditions in which he carried out his duties. This report is submitted to the executive body of the operator of the payment and settlement system, and to the AMF no later than four months after the end of the financial year.

The report includes :

TITLE VII - TRANSFER OF OWNERSHIP OF FINANCIAL INSTRUMENTS ACCEPTED BY A CENTRAL DEPOSITORY OR SETTLEMENT SYSTEM

Article 570-1

As soon as an order is executed, the buyer is definitively bound to pay for, and the seller is definitively bound to deliver, the financial instruments at the date mentioned in Article 570-2.

The service provider to which the order is transmitted may, upon receipt of the order or as soon as it is executed, require that a guarantee provision be made in its books, in cash in the case of a purchase and in financial instruments in the case of a sale.

Article 570-2

For a trade involving financial instruments mentioned in II of Article L. 211 of the Financial and Monetary Code, on a market mentioned in Title or Title II of Book V, the transfer of ownership mentioned in Article L. 211-17 of the Financial and Monetary Code shall result from the entry of the transaction in the account of the buyer. This account entry takes place on the effective trade settlement date specified in the operating rules of the settlement system, when the account of the buyer's custody account-keeper, or the account of the agent of this custody account-keeper, is credited on the books of the central depository.

Barring the exceptions provided for in Articles 570-3 to 570-8 and 322-65, the date on which the trade is effectively settled and, simultaneously, the account entry is made at the central depository, shall occur three trading days after the order execution date.

The same date shall apply when the financial instruments of the buyer and the seller are recorded on the books of the same custody account-keeper.

Article 570-3

The trade shall be recorded in the accounts of the buyer and the seller as soon as the custody account-keeper is informed that the order has been executed. This accounting record shall be regarded as book entry registration and imply transfer of ownership as of the date mentioned in Article 570-2.

In the case of a sale that is not settled in full within a time period set by the rules of the clearing house or the settlement system, the accounting record shall be cancelled.

In the case of a partial settlement affecting multiple buyers, the accounting records shall be cancelled in part in proportion to the rights of each buyer.

Such cancellation of accounting records shall be without prejudice to action brought by the parties concerned.

Article 570-4

In the case of a transaction covered by Book II, the initiator of the transaction shall specify the date on which entries will be made in the accounts of the buyers and sellers and the corresponding movements will be made in the accounts kept in the name of the custody account-keepers on the books of the central depository, in compliance with the rules of the market or multilateral trading facility concerned.

Article 570-5

The operating rules of a market or multilateral trading facility may provide that, for some types of transactions, the date on which entries are made in the buyers' accounts and, simultaneously, the corresponding movements are made in custody account-keepers' accounts at the central depository shall be less than three trading days after the trading date.

Article 570-6

For trades on a regulated market or multilateral trading facility, the buyer shall have title from the day of order execution to any financial rights detached between the trade date and the date of entry in the buyer's account.

By exception, the rules of a regulated market or multilateral trading facility may provide that, for some or all of the debt securities admitted to trading thereon, the buyer shall have title to such rights only after ownership of the said financial instruments has passed to him.

Article 570-7

An entry in the books of the central depository in a real-time settlement system recording the settlement of a transaction on behalf of a custody account keeper during the course of a day shall transfer ownership of the securities to that custody account keeper, if it is the acquirer or if its customer has not yet paid for them. The entry in the books of the central depository shall record a settlement on behalf of an acquiring customer of the custody account keeper in the course of a day if said customer has paid for the securities.

Article 570-8

In the case of a sale made outside a market mentioned in Title I or Title II of Book V, or an equivalent trade, as specified in an AMF instruction, and excluding the case provided for in Article 570-7, the transfer of ownership referred to in Article L. 211-17 of the Financial and Monetary Code results from entry in the account of the buyer, which takes place when the account of the buyer's custody account-keeper is credited on the books of the central depository.

This account entry date shall occur no earlier than three trading after the sale date, unless the parties agree otherwise.

The same date shall apply when the financial instruments of the buyer and the seller are recorded on the books of the same custody account-keeper

CHAPTER 2 - ACCEPTED MARKET PRACTICES

Article 612-1

"Accepted market practices" shall mean practices that are reasonably expected on one or more financial markets and are accepted by the AMF.

Article 612-2

I. - When assessing whether a market practice is acceptable, the AMF shall take at least the following criteria into account:

- 2° the need to safeguard the operation of market forces and the interplay of supply and demand;
- 3° the degree to which the relevant market practice has an impact on market liquidity and efficiency;

- 5° the risk inherent in the relevant practice for the integrity of, directly or indirectly, related markets, whether regulated or not, in the relevant financial instrument within the European Community;
- 6° the outcome of any inspection or investigation of the relevant market practice by the AMF, by any other authority or market operator with which the AMF cooperates, by any other authority or market undertaking acting on behalf or on the authority of the AMF, or by the courts acting on a referral from the AMF, in particular whether the relevant market practice breached rules or regulations designed to prevent market abuse, or codes of conduct, be it on the market in question or on directly or indirectly related markets within the European Community;

Article 612-3

The AMF shall also consult other competent authorities in respect of existing practices, notably on markets that are comparable in terms of structure, volume or types of transactions handled.

Where inspections or investigations of specific cases have already begun, the consultation procedure referred to in the first and second paragraphs may be delayed until the conclusion of such inspections or investigations and any related enforcement proceedings.

A market practice that has been accepted following the consultation procedure shall not be changed without using the same procedure.

Where appropriate, an AMF instruction shall specify arrangements for implementing the market-practice acceptance procedure.

Article 612-4

The AMF publishes its decision to accept or reject a market practice on its website, together with an appropriate description of such practice. It describes specifies the factors taken into account in determining whether the practice is regarded as acceptable, in particular where different conclusions have been reached regarding the acceptability of the same practice on comparable markets of other Member States of the European Community.

The Committee of European Securities Regulators shall be informed as quickly as possible of the AMF's decision.

TITLE II - INSIDER DEALING

CHAPTER 1 - INSIDE INFORMATION: DEFINITIONS

Article 621-1

Inside information is any information of a precise nature that has not been made public, relating directly or indirectly to one or more issuers of financial instruments, or to one of more financial instruments, and which, if it were made public, would be likely to have a significant effect on the prices of the relevant financial instruments or on the prices of related financial instruments.

Information is deemed to be precise if it indicates a set of circumstances or event that has occurred or is likely to occur and a conclusion may be drawn as to the possible effect of such set of circumstances or event on the prices of financial instruments or related financial instruments.

Information which, if it were made public, would be likely to have a significant effect on the prices of financial instruments or related derivative financial instruments is information that a reasonable investor would be likely to use as part of the basis of his investment decisions.

Article 621-2

For commodity derivatives, inside information shall mean precise information that has not been made public, that concerns, directly or indirectly, one or more such derivatives, and that users of markets on which the derivatives are traded would expect to receive, in accordance with accepted practices in such markets, where such information:

1° is routinely made available to their users; or

2° is made public, pursuant to law, market rules or regulations, contracts or customary practice on the market in the underlying commodity or on the market in the relevant commodity derivative.

Article 621-3

For persons charged with the execution of orders concerning financial instruments, inside information shall also mean information conveyed by a client and related to the client's pending orders, which is of a precise nature, which relates directly or indirectly to one or more issuers of financial instruments or to one or more financial instruments, and which, if it were made public, would be likely to have a significant effect on the prices of those financial instruments or on the price of related derivative financial instruments.

CHAPTER 2 - ABSTENTION REQUIREMENTS

Article 622-1

Persons mentioned in Article 622-2 shall refrain from using inside information they possess by acquiring or disposing of, or by trying to acquire or dispose of, for their own account or for the account of a third party, either directly or indirectly, financial instruments to which that information relates.

Such persons shall also refrain from:

1° disclosing such information to another person otherwise than in the normal course of his employment, profession or duties, or for a purpose other than that for which the information was disclosed to them;

2° advising another person to buy or sell, or to have bought or sold by another person, on the basis of inside information, the financial instruments to which such information pertains or related financial instruments.

The abstention requirements set forth in this article do not apply to transactions effected in discharge of an obligation that has become due to acquire or sell financial instruments, where such obligation stems from an agreement entered into before the person concerned held inside information.

Article 622-2

The abstention requirements provided for in Article 622-1 apply to any person holding inside information by virtue of:

1° his membership of the administrative, management or supervisory bodies of the issuer;

2° his holding in the issuer's capital;

3° his access to such information through the exercise of his employment, profession or duties, as well as his participation in the preparation or execution of a corporate finance transaction;

4° his activities that may be characterised as crimes or offences.

These abstention requirements apply also to any person who holds inside information and who knows, or should know, that is inside information.

Where the person referred to herein is a legal person, these abstention requirements shall also apply to natural persons taking part in the decision to effect the transaction on behalf of said legal person.

TITLE III - MARKET MANIPULATION**CHAPTER 1 - PRICE MANIPULATION****SECTION 1 - ABSTENTION REQUIREMENTS****Article 631-1**

All persons must refrain from manipulating prices.

Price manipulation consists of:

1° transactions or orders to trade that:

a) give or are likely to give false or misleading signals as to the supply of, demand for, or price of financial instruments, or;

b) secure, by a person, or persons acting in collaboration, the price of one or several financial instruments at an abnormal or artificial level,

unless the person who entered into the transactions or issued the orders establishes that the reason for effecting such transactions or issuing such orders are legitimate and conform to accepted market practices on the regulated market concerned;

2° transactions or orders to trade that employ fictitious devices, or any other form of deception or contrivance;

The following, in particular, shall constitute price manipulations:

a) conduct by a person, or persons acting in collaboration, to secure a dominant position in the market for a financial instrument, which has the effect of fixing, directly or indirectly, purchase or sale prices or creating other unfair trading conditions,

b) the issuing, when the market opens or closes or, if such is the case, when a periodic auction is held, of orders to buy or sell financial instruments with the intention of hindering price formation on such market or of misleading investors acting on the basis of the prices concerned.

Article 631-2

The AMF considers the following factors, which shall not constitute an exhaustive list or be deemed in themselves to constitute price manipulation, when assessing the practices referred to in the point 1° of Article 631-1:

1° the proportionate share of daily trading volume represented by orders given or transactions undertaken in the financial instrument concerned, especially where such trading results in a significant change in the price of this instrument or the underlying instrument;

2° the extent to which orders issued or trades undertaken by persons with significant short or long positions in a financial instrument lead to a significant change in the price of this instrument or corresponding underlying instrument or derivative admitted to trading on a regulated market;

3° transactions that do not result in a change of beneficial ownership of a financial instrument admitted to trading on a regulated market;

4° position reversals in a short period resulting from orders given or trades undertaken on the regulated market in the financial instrument concerned, together with any significant changes in prices of a financial instrument admitted to trading on a regulated market;

5° the extent to which orders given or transactions undertaken are concentrated within a short time span in the trading session and lead to a price change that is subsequently reversed;

6° the impact of orders given on the best bid or offer prices in the financial instrument, or more generally on the representation of the order book available to market participants, that are removed before they are executed;

7° price changes resulting from orders given or transactions undertaken at or around a specific time when reference prices, settlement prices and valuations are calculated.

Article 631-3

The AMF considers the following factors, which shall not constitute an exhaustive list or be deemed in themselves to constitute price manipulation, when assessing the practices referred to in point 2° of Article 631-1:

1° whether orders given or transactions undertaken by persons are preceded or followed by dissemination of false or misleading information by the same persons or persons linked to them;

2° whether orders are given or transactions are undertaken by persons before or after the same persons or persons linked to them produce or disseminate research or investment recommendations that are erroneous or biased or demonstrably influenced by material interest.

Article 631-4

Any person that has transmitted orders to the market must be able to explain publicly, if the AMF so requests during an investigation or inspection, the reasons for and characteristics of such transmission.

Article 631-6

Pursuant to Article 6 of European Commission Regulation 2273/2003 of 22 December 2003, an issuer shall refrain from trading in its own securities:

1° during the period between the date at which the company is cognisant of inside information and the date at which such information is made public;

2° during the fifteen-day period prior to the dates of publication of its annual consolidated financial statements or, failing this, its annual individual financial statements, as well as its interim financial statements (half-yearly and quarterly if any).

These provisions can be disapplied if an accepted market practice is implemented, provided this is permissible in light of the decision to accept that practice, referred to in Article 612-4.

Sub-section 2 - Stabilisation of a financial instrument

Article 631-7

Section 1 of this chapter does not apply to transactions undertaken by investment service providers for the purpose of stabilising a financial instrument, as defined in indent 7 of Article 2.7 of European Commission Regulation 2273/2003 of 22 December 2003, on condition that such transactions comply with the provisions of the aforementioned Regulation.

Article 631-8

(Abrogated by the Decree of 18 april 2007)

CHAPTER 2 - BREACHES IN RELATION TO THE DISSEMINATION OF INFORMATION**SINGLE SECTION - DISSEMINATION OF FALSE INFORMATION****Article 632-1**

All persons must refrain from disclosing or knowingly disseminating information, regardless of the medium used, that gives or may give false, imprecise or misleading signals as to financial instruments. This includes the spreading of rumours or false or misleading information, where the person making the dissemination knew or ought to have known that the information was false or misleading.

In particular, dissemination of false information shall include voicing, by whatever medium, an opinion about a financial instrument, or indirectly about its issuer, while having previously taken positions in this financial instrument and subsequently profiting from the resulting situation without having simultaneously disclosed the conflict of interest to the public in an appropriate and effective way.

Non-compliance with the prohibition referred to in the first paragraph by journalists acting in a professional capacity is to be assessed taking into account the rules governing their profession. However, such non-compliance may in itself constitute a breach if the interested parties derive, directly or indirectly, an advantage or profits from the dissemination of such information.

The provisions of this article apply where the financial instruments are admitted to trading on a regulated market or an organised multilateral trading facility within the meaning of Article 524-1, or for which admission to trading on such markets has been requested. The date of settlement and simultaneous transfer of ownership is no more than two trading days after the order execution date.

CHAPTER II - PROVISIONS APPLYING TO THE AUCTION COMPARTMENT**Article 723-1**

In the absence of any relevant provisions in Regulation (EU) 1031/2010, the provisions of Chapter II of this Title also apply, as long as they are consistent with the provisions of this Regulation, to the auctioning of emission allowances and emission allowance derivatives.

The market operator supplements or clarifies the provisions of Regulation (EU) 1031/2010 as needed in the market rules, provided these rules are consistent with the said Regulation.

CHAPTER IV - CLEARING HOUSES**Article 724-1**

The provisions of Title IV of Book V apply to clearing houses that record trades in the emission allowances that they clear as part of the regulated market.

TITLE III - MEMBERS' OBLIGATIONS**CHAPTER I - SCOPE****Article 731-1**

The provisions of this Title apply to transactions executed on the regulated market, to transactions executed outside the regulated market that are related to the previous transactions and to services provided to customers in relation to all of these transactions by:

1° Market members, whether or not they are authorised as investment services providers, when such transactions or services involve emission allowances;

2° Market members that are not authorised as investment services providers, when such transactions or services involve emission allowance derivatives;

Article 733-4 does not apply to the cases mentioned in 2°.

CHAPTER II - GENERAL OBLIGATIONS

SECTION 1 - RESPECT FOR MARKET INTEGRITY

Article 732-1

Market members must act honestly, fairly and professionally in a manner that promotes the integrity of the market. More specifically, they comply with all the rules pertaining to the organisation and operation of the regulated markets where they trade.

SECTION 2 - COMPLIANCE SYSTEM

Article 732-2

Market members establish and maintain appropriate operational policies, procedures and measures to detect any risk of non-compliance with professional obligations and applicable laws and regulations, as well as to detect the subsequent risks and to mitigate those risks.

For the purposes of the preceding paragraph, market members take into account the nature, scale, complexity and range of the investment services they provide and the businesses they engage in.

Article 732-3

Senior management and, where appropriate, the executive board, board of directors or supervisory board, are responsible for ensuring that market members comply with the obligations mentioned in Article 732-2.

More specifically, senior management and, where appropriate, the governing bodies mentioned above, periodically assess and review the effectiveness of the policies, systems and procedures that market members have established to comply with obligations in Article 732-2 and take the appropriate measures to remedy any deficiencies.

SECTION 3 - RECORD KEEPING

Article 732-4

Market members retain records of all services provided, all transactions executed and any information enabling the AMF to verify compliance with its obligations under the provisions of this Title and, more specifically, with all of the obligations mentioned in Articles 732-2, 732-3, 733-2, 733-4, 733-7, 733-12, 733-13 and 733-15.

Article 732-5

Market members retain records of all relevant information about orders issued, received or transmitted and about all transactions executed.

The relevant information about orders includes: the customer's identity, the instrument, the side (buy or sell) and type of order, the price, the quantity and the time and date of order processing.

The relevant information about transactions includes: the identity of the customer and, where appropriate, the counterparty, the instrument and side (buy or sell) of the transaction, the price, the quantity, and the execution time, date and venue.

If a market member ceases to be a member, it notifies the AMF, which may require that it retain all the relevant records for the five-year period stipulated in the first paragraph.

The AMF may, under exceptional circumstances, require market members to retain any or all of those records for longer periods, if that is necessary to enable the AMF to exercise its supervisory and investigative functions.

Article 732-6

Market members retain the records on a storage medium that makes the information accessible for future reference by the AMF, and in such a form and manner that the following requirements are met:

1° The AMF must be able to access the records readily and to reconstitute each key stage of processing for all transactions;

2° Any corrections or other amendments, and the contents of the records prior to such corrections or amendments, must be easily verifiable;

3° It must not be possible to manipulate or alter the records in any way.

SECTION 4 - MANAGING INSIDE INFORMATION

Article 732-7

Market members establish and maintain adequate procedures to control the circulation and use of inside information within the meaning of Articles 742-1 and 742-2, taking into account the activities of the group that the market member belongs to and the organisational structure adopted by that group. Such procedures provide for:

- 1° Identification of business segments, divisions, departments or any other entities likely to possess inside information;
- 2° Organisation, in particular physical organisation, so as to separate entities within which persons are likely to possess inside information;
- 3° Prohibition on persons possessing inside information from disclosing it to other persons, along with procedures for possible waivers of this rule and for monitoring such waivers.

SECTION 5 - SUSPICIOUS TRANSACTION REPORTS

Article 732-8

The provisions of Articles 315-42 to 315-44 apply.

CHAPTER III - FURTHER OBLIGATIONS OF MEMBERS IN THEIR DEALINGS WITH CUSTOMERS

SECTION 1 - PRIMACY OF THE CLIENTS' INTEREST

Article 733-1

Market members must act honestly, fairly and professionally in a manner that best promotes the clients' interests. Clients are treated without discrimination.

Article 733-2

Market members gather relevant information about their clients' identities and legal capacities. They ensure that this information is up to date.

Article 733-3

Market members establish and maintain operational, effective and transparent procedures for reasonable and prompt handling of complaints received from clients and keep a record of each complaint and the measures taken to deal with it.

SECTION 2 - SAFEGUARDING CLIENT ASSETS

Article 733-4

I. - Each market member trading in emission allowances on behalf of one or more clients has at least one global account with the registrar specifically for recording the allowances.

II. - If the client does not have an account in its own name with the registrar, the market member provides prior notice:

1° Of the possibility for the client to apply for an account in its own name in the register, subject to the procedures and, more specifically, the fees set by the body responsible for maintaining the register;

2° Of the fact that, without an account in its own name, emission allowances will be held on a global account in the market member's name. The market member draws the client's attention to the risks arising in this situation and obtains the client's explicit consent for this holding arrangement. The market member keeps a record on a durable medium of the information provided to the client and the official consent of the client.

III. - In the case specified in II 2°, the member implements all measures, including internal organisational measures, to distinguish the emission allowances held on behalf of each of its clients immediately and at any time.

IV. - The market member may not use emission allowances that it holds on behalf of a client without signed prior explicit consent of that client for the use of the said emission allowances under specific conditions.

SECTION 3 - CONFLICTS OF INTEREST

Article 733-5

Market members take all reasonable measures to detect conflicts of interest that arise in the course of providing services:

- 1° Either between itself, persons acting on its behalf or under its authority, or any persons directly or indirectly linked to the market member by control, on the one hand, and its clients, on the other hand;
- 2° Or between two clients.

Article 733-6

Market members establish and maintain an effective conflicts of interest policy set out in writing and appropriate to their size and organisation and to the nature, scale and complexity of their business.

Where a market member is part of a group, its conflicts of interest policy must also take into account any circumstances, of which it is or should be aware, that may give rise to a conflict of interest as a result of the structure and business activities of the other members of the group.

Article 733-7

Market members notify their clients of conflicts of interest that are likely to harm their interests in spite of the policies implemented under the terms of Article 733-6. The notification must be detailed enough to enable the client concerned to make an informed decision and it is provided on a durable medium.

SECTION 4 - CLIENT INFORMATION

Article 733-8

Market members ensure that all information, including business information, that they send to their clients is accurate, clear and not misleading. Advertisements must be clearly identified as such.

Article 733-9

Market members provide their clients with information in an appropriate manner on:

- 1° The market member and its services;
- 2° Emission allowances and, where appropriate, emission allowance derivatives, including appropriate warnings about the inherent risks in the relevant transactions;
- 3° The operating principles of the market compartment where the clients' orders are likely to be executed;
- 4° Costs and associated charges.

The purpose of providing this information is to enable clients to understand the nature of the proposed services and the associated risks, and, consequently, to make informed decisions. This information may be provided in a standardised format.

Article 733-10

Market members notify clients in a timely manner of any material changes in the information that have an impact on the services provided.

Article 733-11

The AMF may require market members to submit to it advertisements about their services prior to publication, dissemination or broadcast.

It may require changes to the presentation or the content to ensure that the information is accurate, clear and not misleading.

Article 733-12

Market members ensure that their clients receive a statement of the emission allowances recorded on their global account mentioned in Article 733-4 on a durable medium at least once a year, along with a statement of any emission allowance derivatives handled as part of their services.

Article 733-13

Market members carrying out a transaction on behalf of a client must promptly provide the client with the essential information concerning the transaction on a durable medium.

This provision does not apply where the trade confirmation from the market member contains the same information as a confirmation that is to be promptly dispatched to the client by another person.

Article 733-14

Market members supply their clients with information about the execution status of their orders on request.

SECTION 5 - CLIENT AGREEMENTS**Article 733-15**

The supply of services by market members must always be covered by a duly drafted agreement on a durable medium to be retained as long as the client relationship lasts.

By way of derogation to this rule, where a market member provides services to an entity in its own group, it is not required to sign an agreement with that entity.

Article 733-16

The agreement specifies the terms and conditions of the services provided, including:

- 1° The characteristics of orders that may be passed to the market member. These characteristics take into account, as appropriate, the rules of the market where the orders are to be executed;
- 2° How the orders are to be transmitted;
- 3° The procedures for informing the client in cases where the order has not been successfully transmitted;
- 4° The deadline for clients to contest the execution of the service, as notified under the terms of Article 733-13;
- 5° The content and procedures for client information about services provided.

SECTION 6 - HANDLING AND EXECUTING ORDERS**Article 733-17**

I. - Market members comply with the following requirements for the execution of client orders:

- 1° They ensure that client orders are registered and routed rapidly and accurately;
- 2° They transmit or execute client orders rapidly by order of arrival, unless the interests of the client call for a different action or the nature of the order or prevailing market conditions make this impossible or pointless (in the case of an order relating to bidding in the auction compartment);
- 3° They inform clients of any major problems that could affect the proper transmission and execution of orders as soon as they become aware of such problems.

II. - Where market members are given the task of supervising or organising the settlement of an executed order, they make all reasonable arrangements to ensure that the client assets or funds received in settlement of the executed order are rapidly and correctly allocated to the account of the appropriate client.

III. - Market members implement procedures to prevent misuse of information about customer orders pending execution and take all reasonable measures to prevent misuse of this information by any person acting on their behalf or under their authority.

Article 733-18

Market members must not group client orders with other client orders or with transactions for their own account in order to transmit them or execute them without first establishing and effectively applying an order allocation policy. The purpose of this policy is to ensure by means of sufficiently specific procedures an equitable allocation of grouped orders and transactions, explaining how, in each case, the order quantities and prices determine the allocations and the treatment of partially executed orders.

TITLE IV - MARKET ABUSE: INSIDER TRADING AND MARKET MANIPULATION

CHAPTER I - SCOPE

Article 741-1

This Title applies to:

- 1° All natural or legal persons and other entities;
- 2° Emission allowances admitted to trading on a regulated market.

In the case of emission allowance derivatives, the provisions of Book VI apply, with the stipulation that the notion of inside information as defined in Article 621-1 should be applied and not the notion defined in Article 621-2.

CHAPTER II - INSIDER DEALING

SECTION 1 - INSIDE INFORMATION: DEFINITION

Article 742-1

Inside information is any information of a precise nature that has not been made public, relating directly or indirectly to one of more categories of emission allowances, and which, if it were made public, would be likely to have a significant effect on the prices of the relevant emission allowances or on the prices of emission allowance derivatives.

Information is deemed to be precise if it indicates a set of circumstances or an event that has occurred or is likely to occur and a conclusion may be drawn as to the possible effect of said set of circumstances or event on the prices to be bid in the auction compartment or on the prices of the relevant emission allowances or emission allowance derivatives.

Information, which, if it were made public, would be likely to have a significant effect on the prices to be bid in the auction compartment or on the prices of the relevant emission allowances or emission allowance derivatives, is information that a reasonable market participant would be likely to use as part of the basis of his trading decisions.

Article 742-2

For persons responsible for the execution of orders, inside information also means information conveyed by a client and related to the client's pending orders, which is of a precise nature, which relates directly or indirectly to emission allowances, and which, if it were made public, would be likely to have a significant effect on the prices to be bid in the auction compartment or on the prices of the relevant emission allowances or emission allowance derivatives.

SECTION 2 - ABSESION REQUIREMENTS

Article 742-3

Persons mentioned in Article 742-4 refrain from using inside information they possess by making, changing or withdrawing a bid in the auction compartment or by acquiring or disposing of, or by trying to acquire or dispose of the emission allowances concerned by this information on the secondary market. This abstention requirement applies whether the persons are acting on their own account or directly or indirectly on behalf of others.

Such persons also refrain from:

- 1° Disclosing such information to another person otherwise than in the normal course of his employment, profession or duties, or for a purpose other than that for which the information was disclosed to them;
- 2° Advising or persuading another person, on the basis of inside information, to make, change or withdraw a bid for the emission allowances concerned by the information or to buy or sell, or to have bought or sold by another person the emission allowances to which such information pertains.

The abstention requirements set forth in this article do not apply to transactions or making, changing or withdrawing bids in discharge of an obligation that has become due to acquire or sell emission allowances, where such obligation stems from an agreement entered into before the person concerned held inside information

Article 742-4

The abstention requirements provided for in Article 742-3 apply to any person holding inside information by virtue of:

1° His membership of the administrative, management or supervisory bodies of the market operator, the auctioneer or the body monitoring auctions;

2° His equity interest in the market operator, the auctioneer or the body monitoring auctions;

3° His access to such information by virtue of his employment, profession or duties; or

4° His activities that may be characterised as crimes or offences.

These abstention requirements also apply to any person who holds inside information and who knows, or should know, that it is inside information.

Where the person referred to in this article is a legal person, these abstention requirements also apply to natural persons taking part in the decision to effect the transaction on behalf of said legal person.

CHAPTER III - MARKET MANIPULATION

SECTION 1 - PRICE MANIPULATION

Article 743-1

All persons must refrain from manipulating prices.

Price manipulation consists of transactions or trade orders:

1° That give, or are likely to give, false or misleading signals as to the supply of, the demand for or price of emission allowances, or

2° That fix, by the action of a person, or persons acting in collaboration, the final bid or the price of emission allowances at an abnormal or artificial level, unless the person who carried out the transactions or issued the orders proves that its reasons for doing so are legitimate;

3° That employ fictitious devices, or any other form of deception or contrivance.

The following, in particular, constitute price manipulation:

a) Conduct by a person, or persons acting in collaboration, to secure a dominant position in the market for emission allowances that has the effect of directly or indirectly fixing the final bids or prices for emission allowances or creating other unfair trading conditions,

b) Buying or selling emission allowances or emission allowance derivatives on the secondary market compartment before the auction is held in order to fix the final bid or the price of emission allowances at an abnormal or artificial level, or to mislead the bidders at the auction or investors acting on the basis of the prices concerned.

Article 743-2

The AMF considers the following factors, which do not constitute an exhaustive list and are not deemed in themselves to constitute price manipulation, when assessing the practices referred to in the point 1° of Article 743-1:

1° The proportion of daily trading represented by the orders issued and transactions in the emission allowances concerned, especially where such trading results in a significant change in emission allowance prices;

2° The extent to which orders issued or trades undertaken by persons with significant short or long positions lead to a change in emission allowance prices;

3° Transactions that do not result in a change of beneficial ownership of emission allowances;

4° Position reversals in a short period resulting from orders given or trades undertaken in the relevant emission allowances, together with any significant changes in the prices of other emission allowances;

5° The extent to which orders given or transactions undertaken are concentrated within a short time span in the trading session and lead to a price change that is subsequently reversed;

6° The impact of orders given on the best bid or offer prices in a category of emission allowances, or more generally on the representation of the order book available to market participants, that are cancelled before they are executed;

7° Price changes resulting from orders given or transactions undertaken at or around a specific time when reference prices, settlement prices and valuations are calculated.

SECTION 2 - DISSEMINATION OF FALSE INFORMATION

Article 743-3

All persons must refrain from disclosing or knowingly disseminating information through the media, including the Internet, or by any other means, that gives or may give false, imprecise or misleading signals about emission allowances. This includes spreading rumours or false or misleading information where the person spreading the information knew or ought to have known that the information was false or misleading.

In particular, dissemination of false information includes using occasional or regular access to conventional and digital media to voice an opinion about a category of emission allowances, after having issued an order or undertaken a trade in such allowances, and subsequently profiting from the resulting impact of this opinion on other bids or emission allowance prices without having simultaneously disclosed the conflict of interest to the public in an appropriate and effective way.

Non-compliance with the prohibition referred to in the first paragraph by journalists acting in their professional capacity is to be assessed taking into account the regulations governing their profession. However, such non-compliance may in itself constitute a breach if the interested parties directly or indirectly derive an advantage or profits from the dissemination of such information.

CHAPTER IV - REQUIREMENTS AIMED AT ATTENUATING MARKET ABUSE RISK

SECTION 1 - LIST OF INSIDERS

Article 744-1

The market operator, the auctioneer and the body monitoring auctions each draw up a list of the persons working for them, whether under the terms of a contract of employment or not, who have access to inside information.

The market operator updates its list periodically and submits it to the AMF whenever the latter requests it.

The auctioneer and the body monitoring the auctions update their lists periodically and submit them to the AMF and to the competent authority of the home Member State of the auctioneer or the body monitoring the auctions, in accordance with the contracts designating these entities whenever the competent home country authorities request it.

Article 744-2

The lists referred to in Article 744-1 include:

- 1° The name or business name of each of the persons;
- 2° The reason for their appearing on the list;
- 3° The dates on which the list was created and updated.

Article 744-3

The lists referred to in Article 744-1 must be updated rapidly in the following cases:

- 1° If there is a change in the reason for the person's appearing on the list;
- 2° If a new person has to appear on the list;
- 3° If a person is removed from the list, with a mention of the date on which the person stopped having access to inside information.

Article 744-4

The person responsible for making the list notifies the persons concerned that they appear on the list and inform them about the rules applying to holding, communicating and using inside information, and the penalties for violations of these rules.

Article 744-5

The lists referred to in Article 744-1 are kept for at least five years after they are drawn up or updated.

SECTION 2 - REPORTING BY SENIOR MANAGERS

Article 744-6

Persons performing senior management functions in the market operator, the auctioneer or the body monitoring auctions and, where appropriate, persons closely linked to them, are required to report to the AMF any transactions in emission allowances or emission allowance derivatives undertaken on their own account, including bids made, changed or withdrawn in the auction compartment.

Article 744-7

The persons mentioned in Article 744-6 report the specified transactions to the AMF no more than five trading days after the trade date.

Article 744-8

The report mentioned in Article 744-6 includes:

- 1° The name of the person carrying out the transactions and the functions that person performs in the market operator, auctioneer or body monitoring the auctions;
- 2° A description of the emission allowance and the emission allowance derivative;
- 3° The nature of the transaction;
- 4° The transaction date and venue;
- 5° The unit price and amount of the transaction.

TITLE V - PRODUCTION AND DISSEMINATION OF INVESTMENT RECOMMENDATIONS

CHAPTER I - SCOPE

Article 751-1

The provisions of this Article apply to all persons who conduct and publish research as part of their business or who produce and disseminate other information recommending or suggesting an investment strategy with regard to emission allowances aimed at distribution channels or the public (hereinafter "investment recommendations").

CHAPTER II - IDENTIFICATION OF PRODUCERS AND PRESENTATION STANDARDS FOR INVESTMENT RECOMMENDATIONS

Article 752-1

Investment recommendations are clearly identified as such.

They are prepared honestly, fairly and impartially.

They are presented clearly and precisely.

Investment recommendations indicate explicitly and prominently the identity of the person responsible for producing them. If they are disseminated by third parties, such third parties mention their own identities in the dissemination media.

Investment recommendations or dissemination media also mention the name of the competent authority with jurisdiction over each of these persons, where appropriate.

The name and position of the individual who prepared the investment recommendation are included in the recommendation.

Investment recommendations are disseminated promptly to ensure their newsworthiness.

Article 752-2

All persons mentioned in Article 751-1 make their best efforts to ensure that:

- 1° Facts referred to in the investment recommendations are clearly distinguished from interpretations, estimates, opinions and other kinds of non-factual information.

- 2° All sources are reliable. If this is not the case, the investment recommendation states so clearly.
- 3° All projections, forecasts and price targets are clearly indicated as such, and the principal assumptions made in order to produce and use them are indicated.
- 4° All important sources for investment recommendations are disclosed;
- 5° All bases or methods used to value an emission allowance are summarised in an appropriate manner;
- 6° The meaning of any recommendation made, such as "buy", "sell" or "hold", as well as any time horizon associated with such recommendation, is adequately explained, and any appropriate risk warning (including a sensitivity analysis of the assumptions used) is indicated;
- 7° The expected frequency of updates to investment recommendations is disclosed;
- 8° The date on which the investment recommendation was first released for dissemination is clearly and prominently indicated, as are the date and time of day of any actual price mentioned for an emission allowance.
- 9° Where an investment recommendation differs from a recommendation by the same person regarding the same emission allowance issued during the previous twelve months, this change and the date of the earlier recommendation are indicated clearly and prominently.

Article 752-3

The investment recommendation discloses any relations and circumstances concerning the person disseminating the recommendation and the person who prepared it that one can reasonably believe likely to impair the objectivity of the recommendation, especially where one of these persons or any person involved in preparing the recommendation has a significant financial interest associated with the emission allowance concerned by the recommendation.

Article 752-4

Persons disseminating investment recommendations establish a procedure adapting the provisions of Articles 752-1 to 752-3 so that they are not disproportionate when applied to oral investment recommendations.
